KARMA®

KARMA VLOGGER PLUS Small Microphone

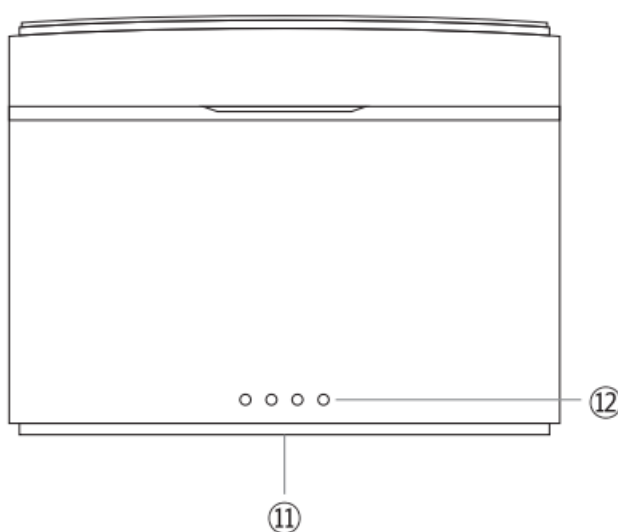

INTRODUCTION

Thank you for purchasing this extraordinary device, that was carefully designed and manufactured to offer the best user experience. It is composed of 2 small microphones and a receiver, all contained in a practical case, which recharges the microphones when they are not used. The connection between the microphones and the receiver is wireless with an operating range of 20m. The microphones can be attached to t-shirts, jackets, etc. using the practical clip they are equipped with. The receiver needs to be inserted into the TypeC port of the smartphone to be powered and send the microphone signal. Although this device is simple and intuitive, we suggest reading the the whole manual to take full advantage of it To activate the warranty, please access the website: register the product purchased in the private area. The warranty will be tracked and you will be notified in the event of software updates or amendments to the user manual

CONTROLS AND SOCKETS

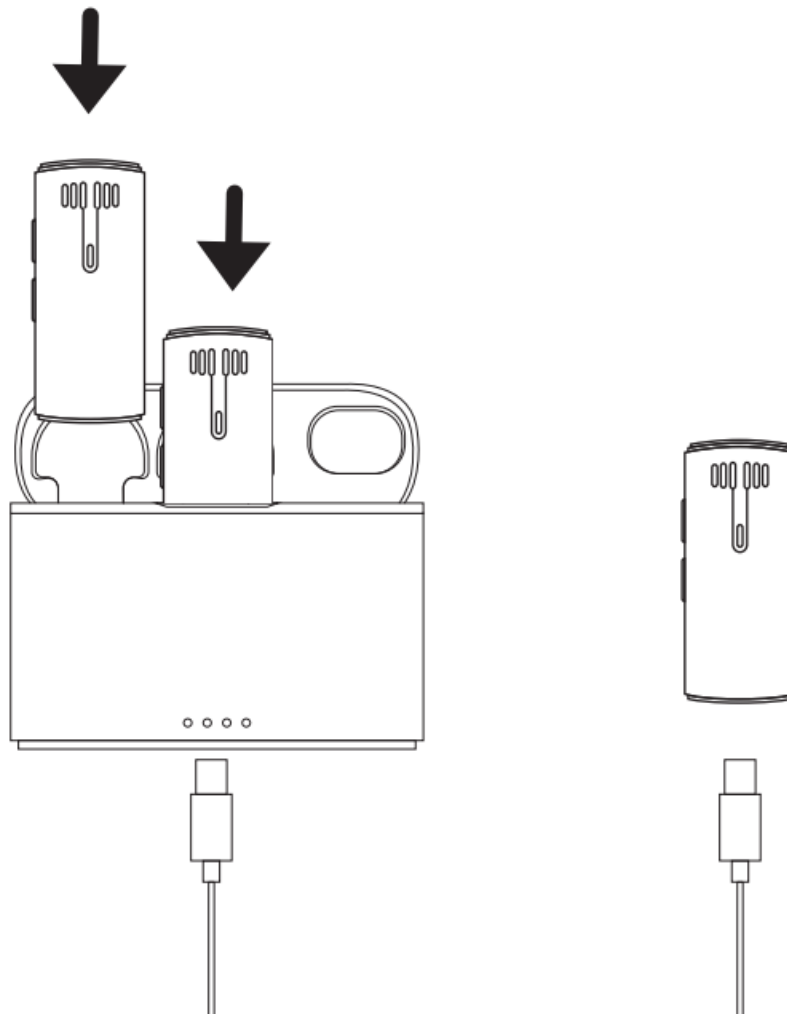

1. Microphone
2. Operation indicator
3. USB Tipo-C charging port
4. Clip
5. Power button
6. Function button
7. USB Tipo-C connector for smartphone
8. Mic1 connection indicator
9. Mic2 connection indicator
10. USB Tipo-C connector for smartphone recharge
11. USB Tipo-C charging port
12. Battery charge level indicator

RECHARGE

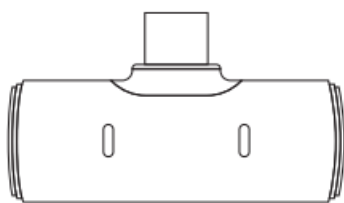

The microphone are automatically recharged a battery, needs to be periodically recharged by inserting a USB type C cable into the socket on the bottom. Each time you open the case the leds will indicate the battery charging status. The microphones can be also directly recharged by a USB Type C cable, which is to be plugged into the port on their bottom.

OPERATION

Extract the receiver from the case and plug it into your smartphone's Type C port. They will automatically turn on and connect to the receiver (all the leds will turn to green). The microphones audio will now be available for all the applications.

In case of use with Oppo, Vivo, Igoo and Realm brand phones it could be necessary to activate the settings and activate the function "OTG power supply".

If you wish to recharge the smartphone while using the wireless microphone, you can connect your lightning cable to the side USB socket.

SPECIAL FUNCTIONS

The microphones come with 2 keys. The key "1" is used to turn on/off the microphone (if used with the case the function is automatic). The key "2" allows to activate the noise reduction or the reverb effect.

KEY 1

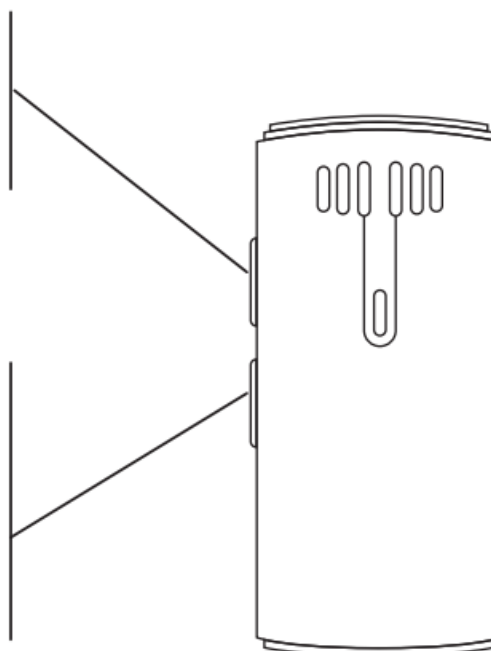

1 touch to turn on/ turn off

2 touches for the "mute" function

KEY 2

1 touch to enable/ disable the noise reduction

2 touch to enable/ disable the reverb effect
