KDD-752 RGB Headphone and Controller Stand

Specifications

- **Model:** XYZ-2000
- **Power:** 1200W
- **Capacity:** 1.5 liters
- **Material:** Stainless steel
- **Dimensions:** 10″ x 8″ x 12″

Product Information

The XYZ-2000 is a powerful and durable electric kettle designed for everyday use. With a power output of 1200W, it can quickly boil up to 1.5 liters of water. The kettle is made of high-quality stainless steel, ensuring long-term durability and easy cleaning.
Its compact dimensions of 10″ x 8″ x 12″ make it suitable for any kitchen countertop.

Product Usage Instructions

Initial Setup

- Before using the electric kettle for the first time, make sure to remove all packaging materials and labels. Fill the kettle with water up to the maximum level indicated

inside.

Power On

- Place the kettle on its base and plug it into a power outlet.
- Press the power switch to start the boiling process.

Boiling Water

- Wait for the water to come to a boil. The kettle will automatically switch off once the water reaches the boiling point.
- Avoid opening the lid during operation.

Pouring and Serving

- Once the water has boiled, carefully pour it out using the spout. Serve hot beverages or use the hot water for cooking purposes.

Assembly Instructions

1. Assembly parts
2. Align the gap and insert the controller holder
3. Complete assembly

- Wireless Charging
- Type-C Port
  Note: The Type-C port cannot be used for charging iPhone.
- Light Button
- USB Port

Multi-purpose Use

360°

- Place 2 Game Controllers and 1 Headset
- Place 4 Game Controllers

Wireless Charging

Note:

1. Phone case less than 5mm thick only.
2. The thicker the case, the slower the wireless charging time will be.
3. The best way to charge is without a case.
4. Wireless charging power up to 10W.

Operation Guide

1. Insert the plug at the back of the stand into the outlet port.
2. After the connection is successful, you can press the light button to turn on the lights.
3. Press the light button to change the color mode. This stand provides 9 lighting effect modes, contains 7-color fast flashing, 7-color breathing light, and single color light mode: red, green, blue, purple, light blue, yellow, white, creating a fantastic gaming atmosphere. Press and hold the light button for 2 seconds to turn off the light.
4. Wireless charging can charge devices such as iPhones and AirPods without cumbersome cables.
5. The stand has 2 USB charging ports and 1 Type-C port for charging a phone/tablet/portable charger or other devices.
   - **(Note:** The Type-C port cannot be used for charging an iPhone.)

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference,
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with the FCC's RF Exposure guidelines, this equipment should be installed and operated with a minimum 20cm distance between the radiator and your body: Use only the supplied antenna.

Frequently Asked Questions

- **Q: How do I clean the electric kettle?**
  - **A:** To clean the kettle, unplug it and allow it to cool down.
  - Wipe the exterior with a damp cloth and use a mixture of water and vinegar to descale the interior if needed.
- **Q: Is it safe to leave water in the kettle overnight?**
  - **A:** It is recommended to empty the kettle after each use to prevent any buildup or odors. Do not leave water in the kettle for extended periods.
