Dimensions

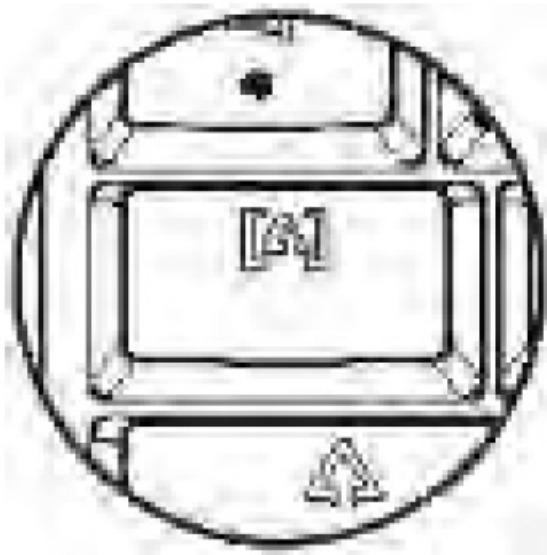

Steps for Bluetooth connection

1. Turn on the bottom switch of the keyboard (i.e. Bluetooth mode).

2. After the Bluetooth Mode is on, long press FN+ (any key combination of left shift/ left Ctrl/ left Alt) for 5s, and CAPS and Win key lights flicker continuously, that is, the keyboard enters the state of code sending.

3. Turn on your Bluetooth device to search for GHOST Keyboard, click it for connection, and the CAPS and Win key lights are off, i.e. the Bluetooth device is successfully connected.

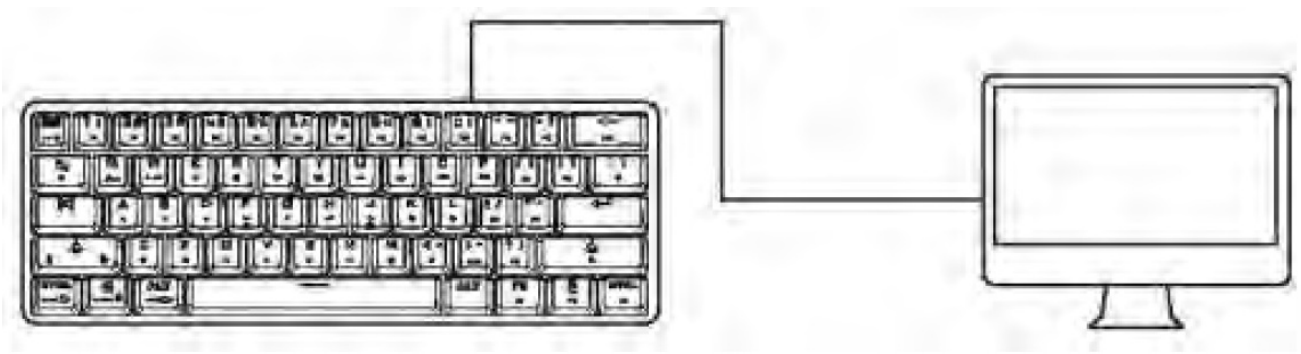

Steps for wired connection

1. Turn off the bottom switch of the keyboard (i.e. wired mode).

2. Connect mechanical keyboard with PC via TYPE-C USB cable
