COMPLIANCE AND SAFETY

FCC DECLARATION OF CONFORMANCE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can
radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and receiver.
- Plug the equipment into an outlet on a circuit different from that to which the receiver is currently using.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
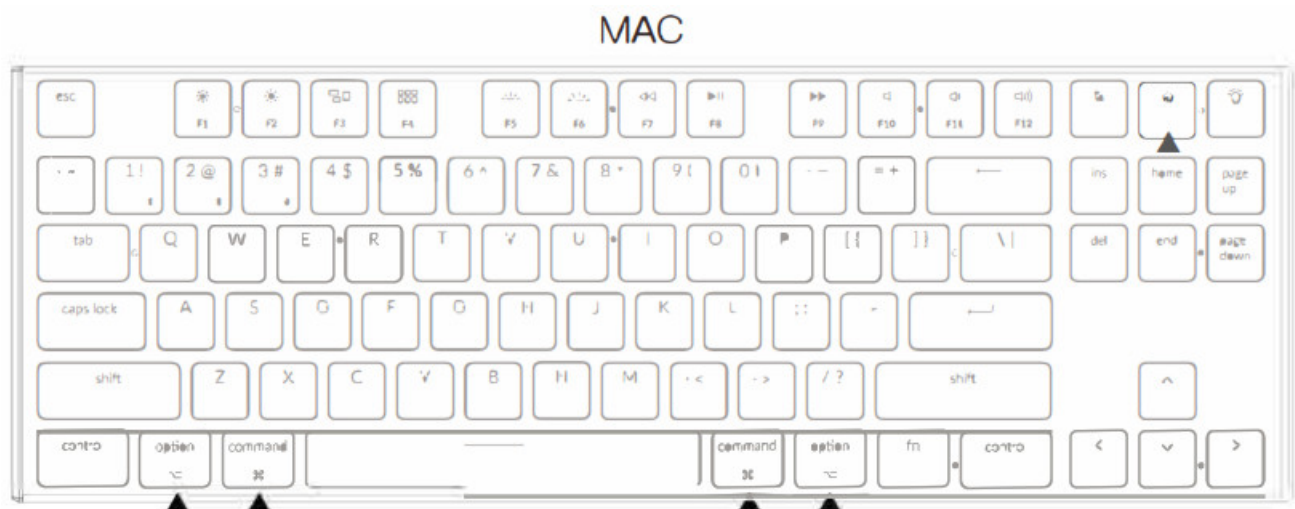

IN THE BOX:
K1 Bluetooth Mechanical Keyboard * 1
Type-C Cable * 1
Package * 1
User Guide * 1

87-KEYS KEYBOARD SPECIFICATIONS:

The MAC keyboard can be m modified to the arrangement mode f the 'WINDOWS keyboard by replacing tt1e donated key cap.

WINDOWS

Number of Multimedia Keys: 12
Body material: aluminum alloy
Keycap Material: ABS
Backlit: RGB/White
Battery: 2,.000mAh Li-ion Rechargeable Battery
Working Time: 2 – 4 weeks with lights off (varies with use case) / 8 – 40 hours with RGB lighting (varies with brightness levels and use case)

Windows	Capture screen	Activate Cortana [4]	
Android	−	−	

1. You need to activate Mac Dictation function on macOS (Apple Icon>System Preferences> Keyboard>Dictation>Shortcut), and set the shortcut by pressing FN (Function) key twice.

2. You need to activate Siri function on macOS (Apple Icon>System Preferences>Siri> Keyboard Shortcut), and set the keyboard shortcut by pressing FN (Function) + Space key at the same time.

3. You need to activate Windows Dictation on Windows OS, and set the shortcut by pressing Windows + H key. (Only supports US English and connects to internet)

4. You need to activate Cortana on Windows OS, and set the shortcut by pressing Windows + C key at the same time. (This shortcut is turned off by default on Windows, to turn it on, select Start>Settings> Cortana) "Windows Cortana and Windows Dictation only available for Windows 10 or above OS. Cortana is available only in certain countries/regions, and some Cortana features might not be available everywhere.

5. Keyboard default, multimedia function key, F1~F 12 function will only appear when pressing Fn+ function key; However, you can switch the multi-media function keys and F1 — F12 functions by pressing the three keys Fn+X+L at the same time. If you press the three keys Fn+X+L at the same time, the character backlight of the keyboard will turn red and then recover, which indicates that the switching of the multi-media function keys is successful!

TROUBLESHOOTING

If unable to pair keyboard to device, confirm that the device you're trying to pair with is Bluetooth-capable. If so, restart the device and try pairing it with the keyboard again.

Note: On a Windows computer, a new Bluetooth connection will sometimes require additional software updates—a process that may still be ongoing after a message appears indicating a successful completion. Wait at least 20 minutes after pairing to make sure all updates are completed before restarting the computer.

Confirm that the device is configured to accept Bluetooth connections (Windows) and supports an external keyboard (HID profile).

Go to Bluetooth Devices > Open Settings and select the following:
Allow Bluetooth devices to find this computer
Allow Bluetooth devices to connect to this computer
Alert me when a Bluetooth device wants to connect

My keyboard isn't working.
For the keyboard: Turn the keyboard off and back on.
Turn Bluetooth off and restart the computer. (Windows)

For the device:
Go to Bluetooth settings and turn off Bluetooth and "forget" the keyboard.
Restart the device and turn on Bluetooth to reconnect.

Bluetooth connection is interrupted even within 10 meter.
Check if the keyboard is resting on a metal surface that can interfere with the Bluetooth signal.

Third-party input tools are not compatible with the keyboard.
Due to compatibility. versions, brands, and drivers of Windows/Android OS, functions of third party input tools may be affected while using the keyboard. Please make sure your operating system and drivers are up to date.

Certain fn keys or multimedia keys does not work under Windows/Android mode.
Functions of certain multimedia keys may be disabled due to compatibility, versions, brands, and drivers of Windows/Android OS.
