Safety Instructions

(Please Read Carefully Before Use)

- Please follow the operation steps in the user manual (see page 1 OJ to operate the humidifier correctly at home;
- Keep the plug and power supply away from liquids;
- Please check the device before use for any cracks, chips or damage that may cause leakage of the device. If you find any damage, DO NOT use it. Only professional or authorized maintenance personnel can repair the appliance.
- DO NOT replace parts or add other items as replacement parts by yourself;
- DO NOT pour out the remaining water in the base without unplugging the power plug, otherwise it will cause the atomizer to burn out; pour out the remaining water in the base without unplugging the power plug, otherwise it will cause the atomizer to burn out;
- DO NOT add essential oils directly in the water tank. The humidifier has specific locations where you can add essential oils (see page 11);
- When plugging in any power source, make sure your hands are dry to avoid the risk of electric shock;
- When adding water, please hold the water tank with two hands to prevent the water tank from falling. If the equipment is in working condition, DO NOT move the water tank;
- When unplugging the plug, DO NOT pull the power cord with your hands to unplug the plug. The disconnected part is prone to short-circuit and leakage, which may cause fire and electric shock.
- DO NOT let children clean or maintain the humidifier alone;
- DO NOT use this appliance in any kind of inflammable environment. Keep the equipment away from any heat sources (e.g. stoves, ovens, radiators) and avoid direct sunlight.

Product Components

- **A.** Nozzle
- **B.** MistTube
- **C.** Water Tank Cover
- **D.** Water Tank
- **E.** Display
- **F.** Water Level Control Float
