GF42AI 4×2 Inch Line Array Column Speaker

GF42 I- GF42T I- GF42A I

4×2″ Line Array Column Speaker – Passive – Passive With Transformer – Active

Thank you for choosing KGEAR!
To ensure proper operation, please carefully read this owner's manual and safety instruction before using the product. After reading this manual, be sure to keep it for future reference. If you have any questions about your new device please contact K-array customer service at info@kgear.it or contact the local distributor in your country.
GF42 I, GF42T I, GF42A I are the smallest and minimalist line array elements of the GF family in a

practical and compact column format and resistant frame. The GF42 I, GF42T I and GF42A I comprise 4x 2" ferrite magnet woofers closely-spaced into a recycled ABS enclosure, featuring PAT (Pure Array Technology). These columns speakers are the perfect solution for speech reproduction with high definition and intelligibility, thanks to their directivity and a narrow vertical dispersion, as well as music reproduction when coupled with a KGEAR subwoofer.

GF42 I is a 100W line array element with selectable impedance: low Z – 16 Ω / high Z- 64 Ω.

GF42T I has the feature of an internal transformer and it is compatible high voltage lines at 70V or 100V and has different power taps: 4/8/16/32 W @ 100V or 2/4/8/16 W @ 70V.

GF42A I is an active speaker with a built-in amplifier module with a balanced line input, a mute contact and an auto ON-OFF switch with selectable thresholds, plus a speaker output to connect another KGEAR speaker or passive subwoofer from KGEAR GS familyThank you for choosing KGEAR!

Unpacking

Each KGEAR device is inspected before leaving the factory. Upon arrival, carefully inspect the shipping carton, then examine and test your new device. If you find any damage, immediately notify the shipping company. Check that the following parts are supplied with the product:

- 1 x GF42 I – (GF42A I or GF42T I) line array column speaker
- 1x Phoenix connectors x GF42 I
- 2x Phoenix connectors x GF42A I
- 1x Phoenix connectors x GF42T I (Euroblock 1,5/ 4-ST-3,81 or 1,5/ 5-ST-3,81) with dedicated jumpers to select impedance.
- 2 x Wall mount L-brackets + screws and covers.

Rear Panel GF42 I

GF42 I passive speaker is equipped with 1x Phoenix connector 4 pin – Euroblock 1,5/ 4-ST-3,81.
