Instructions

1.  **STEP 1:** Scan the QR code below with your mobile device.
Install the Kidde app. Skip step 1 if the app was previously installed.

-
- The image shows a hand holding a smartphone displaying the KIDDE mobile application. The app's interface is clean and modern, featuring a white background with green and red accents. At the top, the status bar shows the time as 9:41 and signal strength. The app header includes the KIDDE logo and a personalized greeting, "Good Afternoon, John". Below this, a section titled "Properties (1)" lists a single property, "John's House", with the name "John Doe" underneath. A green checkmark icon indicates that the property is active. A message below the property name states, "No alarm alerts from connected KIDDE wi-Fi device(s)". A prominent red button with white text reads "ADD A NEW SAFETY DEVICE". At the bottom of the screen, a navigation bar contains four icons: a red square with a white cross for "Dashboard", a person icon for "Account", a group of people icon for "Network", and a question mark icon for "Support". The app version "App version 4.0.1 (20)" is displayed at the bottom of the screen.

- WARNING: Carbon monoxide detector (CO detector)

-  **WARNING:** Mobile alert services are ancillary to the product and for informational purposes only. They are not intended or suitable for life safety or critical purposes nor do these services take the place of third-party life safety monitoring services. This product's smartphone and tablet notifications require a stable Wi-Fi connection, and are only as reliable as your home Wi-Fi network.
