KIDDE N-MC-RE MCP Accessory Intelligent Manual Call Point Resettable Element

Product Information

- **Product Name:** N-MC-RE
- **Product Type:** MCP Accessory – Intelligent Manual Call Point Resettable Element

Technical Specifications:

- **Detection:** Not specified
- **Monitoring:** Not specified
- **Physical:**
  - **Colour:** White
  - **Mounting Type:** Not specified
  - **Material (body):** Plastic
- **Environmental:**
  - **Regulatory Compliance:** CE, REACH, RoHS 2, WEEE
  - **Presence:** Indoor, Outdoor
- **Last updated on:** 23 June 2023 – 10:09

Product Usage Instructions

To use the N-MC-RE MCP Accessory – Intelligent Manual Call Point Resettable Element, follow the steps below:

1. Ensure that the product is compatible with your existing manual call point system.
2. Select an appropriate mounting location for the resettable element.
3. Attach the resettable element to the manual call point according to the provided instructions or the system's user manual.
4. Make sure the resettable element is securely connected to the manual call point.

5. If using the product outdoors, ensure it is properly protected from extreme weather conditions.
6. Regularly check the resettable element for any signs of damage or malfunction.
7. In case of an alarm activation, follow the reset procedure specific to your manual call point system.

For detailed information on the usage and maintenance of the N-MC-RE MCP Accessory – Intelligent Manual Call Point Resettable Element, refer to the product's user manual.
