Thank you for choosing our Wireless Speaker 201, Sincerely hope you will enjoy your music and phone call freely

Safety Instructions

Read this manual carefully before you use our Wireless Speaker and keep this manual for future reference.

1. Keep the device away from heat, direct sunlight and sharp edges.
2. Keep the device away from naked flames.
3. Do not insert any metal objects into the device in case of short circuit!
4. To avoid a static charge, please do not use the device in an extremely dry climate.
5. Do not repair the unit by yourself but contact an authorized specialist to help you.

Product overview

Accessories included

1pc USB charging cable

Charging Integrated Battery

This Wireless speaker is powered support by integrated rechargeable Lithium Battery.

Charge the battery as follows:

1. Insert the charging cable into the DC 5V socket on the unit. Connect the USB plug into a PC or AC / DC adapter. The LED indicator turns red and the battery is being charged.
2. When the battery is fully charged, the red LED indicator goes out. Pairing ST-201 to Mobile phone or other device. Activate the Wireless speaker pairing mode by button, the blue LED is flashing, means the speaker is ready for pairing.

Switch off the mobile phone Bluetooth, the speaker will disconnect. Zb62sfC

Tips:

Please make sure the speaker is in power on mode when you are trying to activate the pairing mode.

1. Turn on your mobile Phone and activate the Bluetooth function.
2. Search for Bluetooth devices, ST-201 will show up.
3. Pair your device with ST-201. If password is needed, type in "0000", after ST-201 is paired with your device, voice reminder says: Bluetooth connected, means the speaker has connected with your device.

Tips:

Once this speaker is paired and connected to your mobile phone, next time when you switch on this speaker it will connect to your mobile phone automatically as long as the Bluetooth in your mobile phone is on.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
