KINDEEP

kindeep BTT001 Smart Tag

Product Information

The product is designed to provide safety warnings in multiple languages including French, Spanish, and Italian. It includes important safety information that users should be aware of before using the product.

Product Usage Instructions

Safety Precautions:

- Before using the product, carefully read and understand all the safety warnings provided in the user manual. Ensure proper understanding of the warnings in the different languages provided.

Installation:

- Install the product in a suitable location where it can be easily seen and accessed. Follow any specific installation instructions provided in the user manual.

Operation:

- To use the product, simply follow the displayed safety warnings in the language of your preference. The product will provide visual alerts to draw attention to important safety information.

Maintenance:

- Regularly check the product for any damage or malfunction. Do not attempt to repair the product yourself; contact the manufacturer for assistance if needed.

Introduction

The Smart Tag works with Apple Find My to help you track your items even when they are farther away. This tag is water-resistant and features a replaceable battery with a lifespan of up to one year. Its compact design makes it easy to attach to im- portant items such as keys, bags, and suitcases. A simple setup process pairs this item tracker with the Find My app on your Apple devices, allowing you to locate nearby items by playing a sound. The anonymous and encrypted Find My network ensures your privacy and safety.

Note: To use the Apple Find My app to locate this item, the latest version of iOS. iPadOS, or macOS is recommended. The Find Items app on Apple Watch requires the latest version of watchOS.

Specifications

Model	BT001
Dimensions	37.8*37.8*8.4 mm
Weight	10 g
Range	Up to 200 ft (60 m)
Battery	CR2032 Coin Cell Battery, DC 3 V
Frequency	2402~2480 MHz
Working Temperature	-10~50 °C(14~122 °F)
Transmit Power	4 dBm
Connectivity	Bluetooth
Compatibility	iOS Devices
Firmware Update	Find My app
Voice Control	Siri

Functions

Long-distance Tracking

- If your item is lost beyond the 200ft (60-meter) Bluetooth range, the Find My network connecting hundreds of millions of Apple devices worldwide will help track it. Throughout the process, your privacy remains protected at every step

Left-behind Alerts

- If your item is left behind and disconnects from your Apple device's Bluetooth. The Apple Find My app will immediately send you a notification at no extra cost.

Discourage Unwanted Tracking

- If someone's tag is detected on your items, your Apple device will automatically alert you to prevent unwanted tracking. If you still can't locate the tag, it will play a sound to help you find it.

Power Button

Battery Cover

Controls And Status

Status	Power Button	Buzzer
Power On	Quick Press	Music A plays 1 second later for 0.5 seconds
Power Off	Long Press for 3 Seconds	Two high-pitched beeps after 2 seconds
Reset*	Press quickly 4 times (long tone) then press and hold for 8 seconds (long tone), then press quickly 4 times again (intervals within 0.3 seconds)	Irregular Music B for 0.5 seconds
Power On State	Press quickly twice	Single beep

The Reset' will restore the tag to its factory settings and erase all connection data. Before using it again, you need to remove the item from the Find My app and then re-add it.

Pair with Find My App

1. Turn on your iOS device's Bluetooth. Make sure your iOS device is in the latest Version.

2. Quick press the tag's power button to turn it on and place it near to your iOS device.

3. Open Find My app. tap "Items" and then "Add Item". Select "Other Supported Item" and follow the in-app

instructions to complete pairing,

4. For subsequent pairing with other items, tap “+” and then “Add Other Item” to pair.

Note: To ensure the best user experience, please update the firmware whenever the update is available in Find My app.

Battery Replacement

The Smart Tag features a replaceable battery that lasts up to 1 year. If the battery runs low , you can easily replace it in just three simple steps.

1. Use your fingernail or insert a small tool into the gap to open the battery cover.
2. Use a paperclip to remove the battery and replace with a new one and face the positive terminal up
3. Close the battery cover by aligning the hole.

Warning:

- Keep the battery out of reach of kids and pets. This tag contains a coin cell battery which can be dangerous if chewed on or swallowed.
- Use batteries of the same type (CR2032) for replacement. Otherwise, it might cause damage.
- If you must discard the tag, take the battery out first.
- The old battery needs to be disposed of at a battery recycling container.

FCC STATEMENT

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference.
2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications

However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

- This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
- The transmitter must not be co-located on operating in conjunction with any other antenna or transmitter.

The licensed transmitter/receiver contained in this device is compliant with Innovation, Science and Economic Development Canada's RNC for licensed radio devices, The operation is permitted under two conditions

1. The device must not cause interference
2. The device must accept any radio interference, even if the interference is likely to compromise its operation.

RF Exhibition Statement

- The equipment complies with the IC radiation exposure limit established for an uncontrolled environment.

CE Statement

Hereby, Comet Innovation Limited declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

Technical Description

- **Bluetooth Frequency Range:** 2402 – 2480 MHz
- **Bluetooth Transmit Power:** 4 d8m EIRP

WARNING: INGESTION HAZARD:

- This product contains a button cell or coin battery.

Trouble shooting And FAQ

Fail to add Smart Tag to the Find My app.

- a. Make sure the tag is powered on and near to the device.
- b. Make sure your iOS device is in the latest version and the Bluetooth is on.
- c. Make sure the tag has not been paired with the Find My app on other iOS device.
- d. If you follow the previous steps and still fail to add long press the tag power button for 10 seconds to reset and then try again.

Smart Tag cannot function well

Check if the battery level is low. If so replace it with a new one of the same type CR2032.

Q: Can I change the language of the safety warnings?

A: No the product is pre-set to display safety warnings in multiple languages and cannot be changed.

Q: How often should I check the product for maintenance?

A: It is recommended to check the product for maintenance at least once a month or as needed depending on usage.

Q: What should I do if I encounter a warning I do not understand?

A: If you encounter a warning that you do not understand refer to the user manual for translations or contact customer support for assistance.
