Kisnt

Kisnt KN85 75% Tri Mode Mechanical Keyboard

Product Specifications:

- **Dimensions:** 120x130mm
- **Channels:** 8
- **Input Voltage:** 6V
- **Output Voltage:** 7V

Product Usage Instructions

1. Ensure the device is placed on a stable surface.
2. Connect the device to a power source with the provided cable.
3. Turn on the device by pressing the power button (labeled as '1' in the manual).
4. Adjust the settings using the control panel with options numbered '2' to '5'.
5. Refer to the user manual for specific usage guidelines based on your requirements.

FCC Warning Statement:

Caution: Any changes or modifications to this device not explicitly approved by the manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirements.

FAQ

Q: What should I do if the device does not power on?

A: Check the power source and ensure the cable is securely connected. If the issue persists, contact customer support for further assistance.

Q: How do I adjust the settings on the device?

A: You can adjust the settings using the control panel buttons labeled '2' to '5'. Refer to the user manual for specific instructions on each setting.

Package Contents

- 1 *Mechanical keyboard

- 1 *2.4G Wireless Receiver
- 1 *Keycap/Switches Puller
- 4*Extra Switches
- 5*Extra Keycaps
- 1*User manual

Product Specifications

- Product Size: mm
- The Number of Keys:85 Keys
- Interface :Type-c
- Voltage:3.7V, 4000mA/H
- Current:280mA Max
- OS requirements: Windows
- XP or later, Mac OS

PRODUCT OVERVIEW

1. The position (BT) indicates bluetooth mode
2. The position (USB) indicates wired mode
3. The position (2.4G) indicates 2.4G wireless mode
4. Keyboard turning off:Switch the toggle to (USB) and unplug the cable to disconnect
5. Push the operating system switch of the keyboard to the corresponding position.

Wired connection

1. Switch the toggle to (USB) to enter the wired mode
2. Connect the cable to Type-c port of the keyboard
3. Connect the cable to the USB port of the computer. The keyboard is ready to use.

2.4G connection

1. Switch the toggle to (2.4G) to enter the 2.4 mode
2. Remove the USB receiver from the bottom of the keyboard
3. Insert the USB receiver into the USB port on your computer.

The keyboard is now ready for use.

Manual pairing: When the switch is turned to 2.4G mode, the light on the Q key flashes slowly in white. After pressing the FN+Q combination key for 3 seconds to enter pairing mode, the white light on the Q key flashes rapidly. After inserting the receiver and successfully pairing, the pairing is exited and the Q key light returns to backlight mode.

Note: First, put the keyboard into 2.4G pairing mode, and then plug the USB receiver into the computer. When checking the code, it is necessary to place the keyboard close to the receiver.

Wireless connection

1. Switch the toggle to (BT) to enter the wireless mode
2. Press the combination key to switch to BT1, hold down for about 3s until the bottom indicator light of the W key flashes quickly to enter pairing mode.
3. Search for pairing name (KN85 BT-1), after the device is successfully with the keyboard, indicator light will return to normal mode.

Note:

1. The names of wireless channels 1.2.3 are KN85 BT-1 ,KN85 BT-2,KN85 BT-3.
2. The combination key for wireless channel 2 is (FN+E) ;The combination key for bluetooth channel 3 is (FN+R) .
3. Long press the combination key for 3 seconds until the corresponding wireless channel indicator light flashes, indicating that the keyboard has entered pairing or search mode, and can be paired and connected in the device.
4. Press the combination keys Fn+W,E or R to switch devices.

Automatic sleep power-saving mode

If the keyboard does not operate within 1 minute in wireless/2.4G mode, it will automatically enter sleep mode. Press any key to wake up the keyboard.

Charging tips

1. The keyboard is equipped with a rechargeable lithium battery, please charge it before first use.
2. Charge the keyboard when the charging indicator light flashes quickly.
3. The charging indicator would stay red while charging and turn green after fully charged.
4. Please use a charger below 5V or a computer USB port to charge the keyboard. Otherwise, it may cause the keyboard to shut down.
