KitchenAid KSB4027 Variable Speed Blender

# **PARTS AND FEATURES**

- 1. Lid Center Cap
- 2. Lid with Vent Well
- 3. Jar (1.6 L capacity)
- 4. Glass Jar\* (1.4 L capacity)
- 5. Base
- 6. Interlock
- 7. START/STOP Button () with LED Ring
- 8. Control Dial

Accessories only included with Glass Jar Blender models.

#### **PRODUCT SAFETY**

# Your safety and the safety of others are very important.

We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

This is the safety alert symbol.

This symbol alerts you to potential hazards that can kill or hurt you and others.

All safety messages will follow the safety alert symbol and either the word "DANGER" or "WARNING." These words mean:

You can be killed or seriously injured if you don't immediately follow instructions.

You can be killed or seriously injured if you don't follow instructions.

All safety messages will tell you what the potential hazard is, tell you how to reduce the chance of injury, and tell you what can happen if the instructions are not followed.

#### **IMPORTANT SAFEGUARDS**

When using electrical appliances, basic safety precautions should always be followed, including the following:

- 1. Read all instructions. Misuse of appliance may result in personal injury.
- 2. To protect against risk of electrical shock do not put the Stand Blender Base in water or other liquid.
- 3. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- 4. Children should be supervised to ensure that they do not play with the appliance.
- 5. Turn the appliance OFF, then unplug from the outlet when not in use, before assembling or disassembling parts and before cleaning. To unplug, grasp the plug and pull from the outlet. Never pull from the power cord.
- 6. Avoid contacting moving parts.
- 7. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Contact the manufacturer at their customer service telephone number for information on examination, repair or adjustment.
- 8. Do not use outdoors.
- 9. Do not let cord hang over edge of table or counter.

- 10. Keep hands and utensils out of container while blending to reduce the risk of severe injury to persons or damage to the Blender. A scraper may be used but must be used only when the Blender is not running.
- 11. Blades are sharp. Care should be taken when handling the sharp cutting blades, emptying the jar and during cleaning.
- 12. Be careful if hot liquid is poured into the Blender as it can be ejected out of the appliance due to sudden steaming.
- 13. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- 14. Refer to the "Care and Cleaning" section for instructions on cleaning the surfaces in contact with food.
- 15. Always operate the Blender with cover in place.
- 16. When blending hot liquids or ingredients, Lid Centre Cap shall remain in place over the lid opening. Always start on lowest speed and slowly ramp to desired speed when blending hot liquids or ingredients.
- 17. The use of attachments, including canning jars, not recommended or sold by the manufacturer may cause a risk of injury to persons.
- 18. This appliance is intended to be used in household and similar applications such as:
  - staff kitchen areas in shops, offices, or other working environments;
  - · farmhouses:
  - by clients in hotels, motels and other residential type environments;
  - bed and breakfast type environments.

### **ELECTRICAL REQUIREMENTS**

#### warning

Electrical Shock Hazard

Plug into an earthed outlet.

Do not remove earth prong.

Do not use an adapter.

Do not use an extension cord. Failure to follow these instructions can result in death, fire, or electrical shock.

Models: KUA35AVANA, KUA35APANA

Voltage: 127 V~
Frequency: 60 Hz
Wattage: 1200 W
Model: KUA35AVBNA

Voltage: 220 V~Frequency: 60 Hz

• Wattage: 1200 W

**NOTE:** If the plug does not fit in the outlet, contact a qualified electrician. Do not modify the plug in any way. Do not use an adapter.

Do not use an extension cord. If the power supply cord is too short, have a qualified electrician or serviceman install an outlet near the appliance.

The power rating of your Stand Blender is printed on the serial plate.

The maximum rating is based on the attachment that draws the greatest load (power). Other recommended attachments may draw significantly less power.

#### **ELECTRICAL EQUIPMENT WASTE DISPOSAL**

#### Scrapping the product

- This appliance is marked in compliance with European Directive 2012/19/EU, Waste Electrical and Electronic Equipment (WEEE).
- By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the
  environment and human health, which could otherwise be caused by inappropriate waste handling of this
  product.
- The symbol on the product or on the accompanying documentation indicates that it should not be treated as
  domestic waste but must be taken to an appropriate collection centre for the recycling of electrical and
  electronic equipment.
  - For more detailed information about treatment, recovery and recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

#### **MOTOR HORSEPOWER**

Motor horsepower for the Blender motor was measured using a dynamometer, a machine that laboratories routinely use to measure the mechanical power of motors. Our 1.5 peak horsepower (HP) motor reference reflects the horsepower output of the motor itself and not the Blender's horsepower output in the Blender Jar. As with any Blender, the power output in the Jar is not the same as the horsepower of the motor itself.

#### **GET STARTED**

#### **BLENDER FUNCTION GUIDE**

It features variable speeds (from 1 to 5) and Pulse (P) function to customize blending. Also, pre-programmed recipe settings like, Ice Crush ( ), Icy Drink ( ) and, Smoothie ( ) are designed to deliver optimal results. Use the self-cleaning cycle ( ) after blending for easy clean-up. We encourage you to experiment to find the best speed for your favorite recipes.

| Setting                     | Description   | Blending<br>Time<br>(min:sec) | Suggested Items<br>to Blend   |
|-----------------------------|---|-------------------------------|---|
| Pulse<br>P                  | Allows precise control of the duration and frequency of blending.                 | Manual                        | Salsa, crumb topping, chopped nuts, fruits or vegetables & more.  |
| Variable<br>speeds<br>1 - 5 | Manual speeds offer<br>ultimate control of the<br>Blender.                        | 3:00                          | Fruits, Soups, Sauces, Doughs,<br>Vegetables, Butters, Nuts, Dips,<br>Frozen desserts, Purees.                                      |
| Ice Crush                   | The Blender runs at optimal speed to crush ice.                                   | 00:30                         | To crush and chop ice without adding any liquid ingredients.  |
| Icy Drink                   | Gradually ramp up to full power to blend hard foods.                              | 00:30                         | Ice, whole fruits or vegetables,<br>or frozen fruits. Use for drinks<br>as Margaritas, Daiquiris, and<br>blended ice coffee drinks. |
| Smoothie                    | The Blender will operate at the high speed to make puree of items or ingredients. | 00:45                         | Fruits, vegetables, ice cream and yogurt into thick smoothie, blended drinks and milkshakes, etc.                                   |
| Clean                       | Quick pulses of power and high speeds work to clean the Blender Jar.              | 00:13                         | Half of the Jar filled with warm water and 1-2 drops of dish soap.  |

## **BLENDER ACCESSORY GUIDE**

| Accessories       | Capacity | Speed   | Suggested Items to Blend Chart   |
|-------------------|----------|---|--|
| Blender Jar       | 1.6 L    |   |  |
| Glass Blender Jar | 1.4 L    | All Speeds, Pul<br>se, and Preset r<br>ecipes | Full recipe smoothie, icy drinks, shakes / malt s, dips, spreads and more. |

# **USING THE BLENDER**

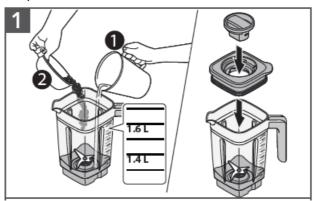

First, clean all parts and accessories (see "Care and Cleaning" section). Be sure the countertop beneath the Blender and surrounding areas are dry and clean.

**IMPORTANT:** When moving your Blender, always support/lift from the Blender Base. Base will become disengaged from Jar if carried by Blender Jar or Blender Jar handle only.

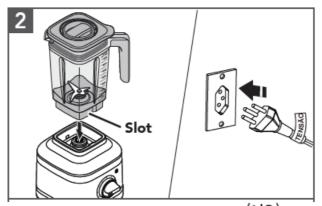

#### **WARNING**

Electrical Shock Hazard Plug into an earthed outlet. Do not remove an earth prong. Do not use an adapter. Do not use an extension cord. Failure to follow these instructions can result in death, fire, or electrical shock.

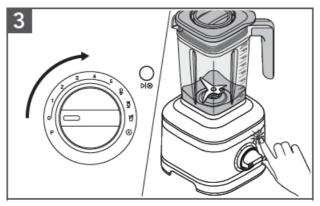

Add ingredients into Jar (max. 1.6 L or max. 1.4 L for Glass Jar).
 Secure the Lid and Lid Center Cap.

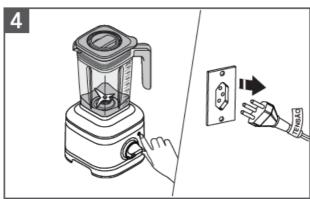

2. Place and align the Jar with the Slot to fit inside the jar pad, facing Jar handle towards Control Dial. Plug the Blender into earthed outlet.

3. Turn Dial from (O) to desired speed or preset recipe program. Press (DI®) to START. See "Blender Function Guide" for more details.

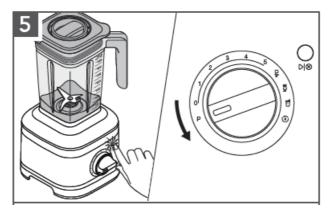

When finished, press (▷I⊚) to STOP.
 Unplug before removing the Blender Jar.

NOTE: For variable speeds (from 1 to 5), the Blender will stop automatically after 3 minutes of run time. For

preset recipe programs, the Blender will automatically stop blending once the cycle is complete.

5. Pulse mode: Press<sup>(>|®)</sup> Turn and hold the Control Dial from (O) to (P) as per desired interval of time. When finished, release the Dial to STOP.

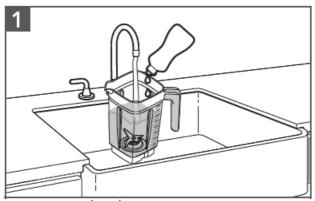

**NOTE:** If blending hot liquids and ingredients, start on a low speed and then ramp up to the desired speed. Use variable speed and run for 1-2 minutes.

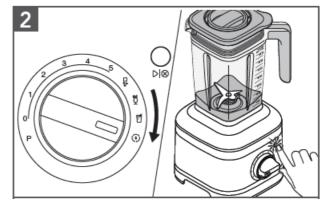

NOTE: Blender will not run if jar is not on Base.

**IMPORTANT:** Allow the Blender to fully stop before removing the Lid, Jar, or pouring out blended ingredients.

## **CARE AND CLEANING**

1. Fill half of the Jar with warm water and add 1 or 2 drops of dish-washing liquid. Place the Jar on the Base. Secure the Lid and Lid Center Cap.

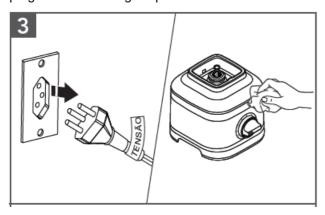

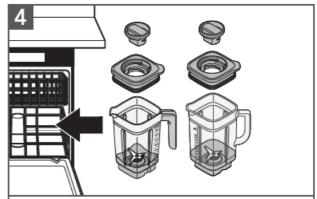

2. Turn from (O) to (DI®) Press ( to START.

Remove and empty contents and rinse with warm water and dry thoroughly.

**NOTE:** Do not immerse the Blender Base or cord in water. Do not use abrasive cleansers or scouring pads to avoid scratching.

3. Unplug before cleaning. Wipe the Base and the Power Cord with a warm, damp cloth and dry with a soft cloth.

4. Dishwasher-safe, top rack only: Lid Center Caps and Lids with Vent Well.

Blender Jar and Glass Jar can be washed in the bottom rack.

# TROUBLESHOOTING GUIDE

# **WARNING**

Electrical Shock Hazard Plug into an earthed outlet. Do not remove an earth prong. Do not use an adapter.

Do not use an extension cord.

Failure to follow these instructions can result in death, fire, or electrical shock.

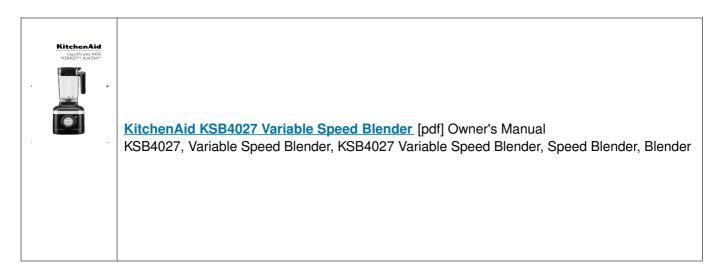

| Problem                                   | Solution   |  |
|---|--|--|
| If Blender fails to start:                | Check to see if the Blender is securely plugged into an earthed electrical outlet.   |  |
| ii Dierider fails to start.               | If you have a Circuit Breaker Box, make sure the circuit is closed.  |  |
| If Blender stops after 3 minutes:         | It's a part of the Blender operation to ensure lasting durability. Turn the Control Dial to ( <b>O</b> ) and repeat the process until desired consistency.         |  |
|   | When overloaded or jammed, it will automatically shut off to prevent motor damage. Unplug the Blender. Remove the Jar and use a spatul a to rearrange ingredients. |  |
| If Blender stops while blending:          | Or, divide contents into smaller batches. For certain recipes, adding li quid in the Jar may also reduce the load.   |  |
| If ingredients are stuck or not blending: | Unplug the Blender. Remove the Jar and use a spatula to rearrange i ngredients in the Jar.   |  |
| If Blender stops while blending and the   | An error is detected in the Blender. Contact an authorized service center for assistance. Please see the   |  |
| white LED ring flashes rapidly:           | "Warranty and Service" sections.   |  |
| If the white LED ring is off:             | 10 minutes of no activity will make the Blender go into Sleep mode. To wake up the Blender, press (> ③) button.  |  |
| If the problem cannot be corrected:       | See the "Warranty and Service" section. Do not return the Blender to the retailer. Retailers do not provide service.   |  |

## **RECIPE**

| Ingredients  | Operating Time                       |
|--|--------------------------------------|
| 1- 1 <sup>1</sup> /2 cups water  | Maximum period allowed by the timer. |
| 1 large carrot, roughly chopped  |                                      |
| 1 red or yellow beet, peeled and roughly chopped                             |                                      |
| 1 tart-sweet apple, cored and peeled and roughly chopped                     |                                      |
| 1 slice fresh ginger, <sup>1</sup> /2 inch thick, peeled and roughly chopped |                                      |
| 6 ice cubes  |                                      |
