Introduction

Welcome!

Thank you for purchasing the CP8000EU remote control panel for the DM8000 Digital Audio Processor. In conjunction with DM8000, the CP8000EU panel provides easy control over volume and source selection. All illuminated soft-touch controls are remotely powered by DM8000 via CAT5/6 cabling, or any 5-conductor cable. The CP8000EU will fit in most standard-depth installation enclosures and will blend with any décor.

Front Panel

1. **AUXILIARY INPUT LABELING** area provides space to note the name of the assigned audio source. You may write directly on the surface or apply sticky labels.
2. **SOFT TOUCH BUTTONS** can each be assigned to a separate audio input. Press the button to activate the audio input assigned to that button. When a button is active, the embedded LED lights up.
3. **VOLUME KNOB** controls the output level. The volume control can be assigned to the auxiliary input section or main input bus.

Assembly and Mounting

The CP8000EU fastens into the installation enclosure with two screws beneath the front plate. Remove the front panel, and fasten the main unit into the enclosure with the provided mounting screws. When the unit is securely fastened, replace the front panel.

Dimensions

Specifications

Power Supply

Input selection: 6 x soft touch buttons

Volume: 1 x rotary control

Connector: 5-pin euroblock

Cable: Cat5/6

Cable length: Up to 100 m (300 ft)

Dimensions / Weight

Dimensions (H x W x D): 80 x 80 x 36 mm (3.2 x 3.2 x 1.4")

Weight: 0.07 kg (0.154 lbs)

CP8000EU

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Operation of this equipment in a residential environment could cause radio interference.
