Setup Soundbar

Connecting the Soundbar

Before using the product, you need to make sure that the product is properly connected to the power supply.

1. Plug one end of the power cord into the power connector on the back of the KMOUK Soundbar.
POWER
15V ⎓ 2A

2. Plug the other end of the power cord into the DC (mains) outlet.

Power On / Off
Inserting batteries before using the remote control (AAA batteries x 2).
Click the power button on the remote control or top panel. When you hear the tone [Hi KMOUK], the product enters the power-on state.
When you click the power switch in the power-on state, the [Bye KMOUK] tone will appear, indicating that the power is turned off.
Bluetooth Connection
Step1: After connecting the power, click the Bluetooth button on the remote control. When you hear the tone [Pairing], enter Bluetooth pairing state.
Step2: On your Bluetooth device, turn on the Bluetooth feature. The Bluetooth feature is usually found in Settings.
Step3: Select the device with the name [KMOUK HSB001] from the device list. When the pairing is successful, a [Connected] tone will be emitted.

Attention:

- On first use, the soundbar will automatically enter Bluetooth pairing mode after the power is connected.
- If you want to connect a new device, please disconnect the connected device first, press the Bluetooth button on the remote control for 3 seconds.
- In Bluetooth audio input mode, the soundbar will automatically connect to the most recently matched device.

Optical Connection
Step1: Remove the protective covers on both ends of the supplied optical cable.
Step2: Connect the digital audio in the optical jack on the soundbar to the optical out jack of the device with a digital optical cable.
Step2: Press the source button on the top panel of the soundbar or the optical button on the remote control to select the optical input.
Attention:
when connecting with an optical cable, you need to set theTV's audio mode to external devices. At the same time, set the TV's audio decoding mode to PCM (Pulse-Code Modulation) mode. (The TV menu may differ depending on the TV manufacturer.)

AUX Connection
Step 1: Connect AUX IN (audio) on the soundbar unit to the audio out jack of the device using a 3.5 mm audio cable.
Step2: Press the source button on the top panel of the soundbar or the AUX button on the remote control to select the aux input.

RCA Connection
Step1: Connect AUX IN (audio) on the soundbar unit to the audio out jack of the device using an RCA to 3.5mm audio cable.
Step2: Insert the end of the RCA plugs into the TV.
Step3: Press the source button on the top panel of the soundbar or the AUX button on the remote control to select the RCA input.

**Sound mode settings**
The KMOUK soundbar has 3 built-in equalizers. You can select your favorite sound effects by using the function

keys on the remote control.

When you switch between sound effects, you'll hear the corresponding voice prompts: [Movie Mode], [Gaming Mode] and [Music Mode]. The indicator on the front panel shows the corresponding sound effects.
Others

When the soundbar is turned on or off, it will not affect the input source, volume, or mode settings. However, when unplugged, the volume will be set to 65% of maximum volume, once the soundbar is powered on again.

Place Your Soundbar

Put it on the table

You can use the product on the desk of your TV or computer.
Wall mount the Soundbar

Use a ruler to measure the position of the hook part on the back of the product and mark it on the wall. Screw the attachment into the wall with the help of a drill or a screwdriver and hang it on the wall.

Troubleshooting

Q: Why is the unit not turning on?
A: Please check and make sure the power cord is correctly connected to a power source.
Q: Why is there no sound or why is the sound is distorted?
A: Please go over the following:

- Check to make sure the audio cable is correctly connected.
- Turn up the volume slowly.
- Press the Mute button to switch on the sound.
- Press the Play / Pause button.
- Set the audio output mode on your TV (if applicable)accordingly with the mode setting on the soundbar.
- Remove the clear label from the footbed.

Q: Why do the buttons on the soundbar not work?
A: Switch off the Soundbar and unplug. Then connect it to a power supply and switch it on again.
Q: Why does the remote control not work?
A: Please go over the following:

- Install 2 AAA 1.5A batteries into the remote.
- Replace the current batteries with new ones.
- Make sure the remote control is pointed to the soundbar during use.
- Make sure the remote control is within operating range.
- Switch off the soundbar and disconnect the power. Then reconnect and power it on, try again.
