INSTRUCTION

2.4G Connection

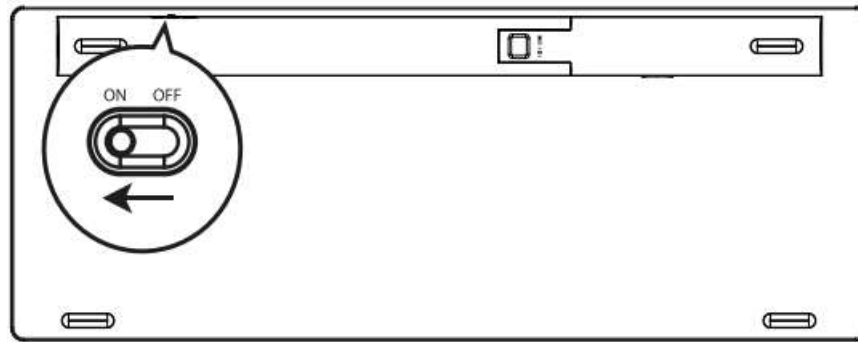

1. Open the battery cover and install the batteries, ensuring the polarity is correct.

2. Insert the USB receiver into the USB port of the PC.

3. Close the battery cover and turn the power switch on.

Bluetooth Connection

Windows

1. Long press the BT1 button on the keyboard for 3-5 seconds; the white light will flash.

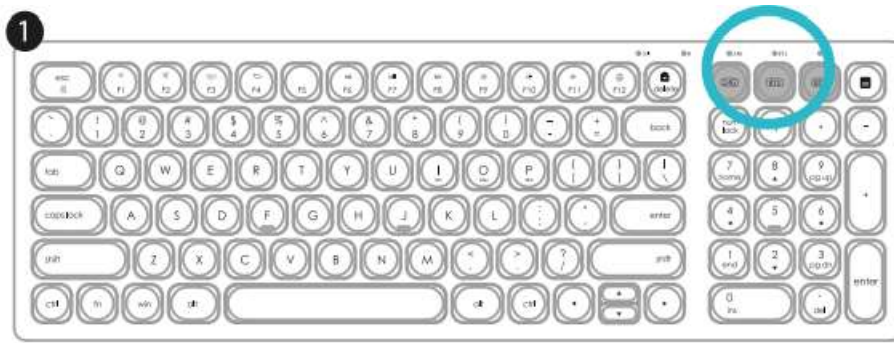

2. Navigate to "Settings", then "Bluetooth" on the PC.
3. Enable Bluetooth and search for "BT3.0 keyboard" or "BT5.0 KB"; click to pair.

4. "BT3.0 Keyboard" or "BT5.0 KB" is connected and can be used normally.

Mac OS

1. Long press the BT1 button on the keyboard for 3-5 seconds; the white light will flash.

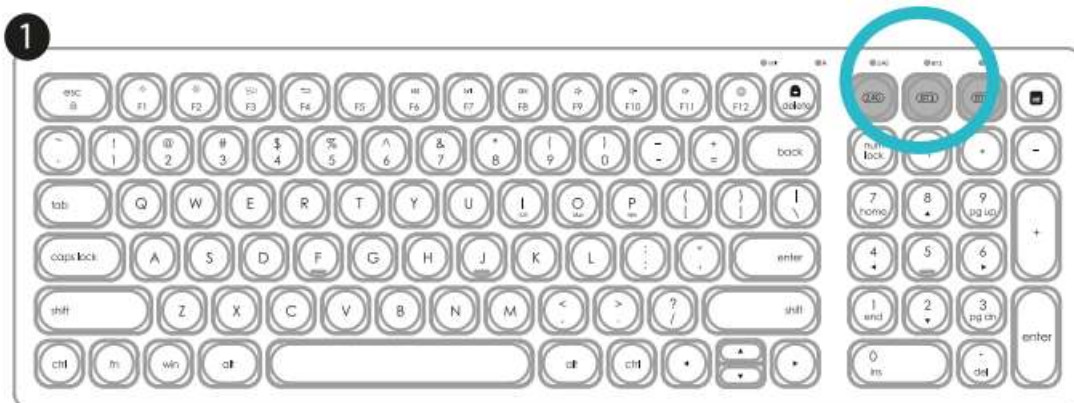

2. Navigate to "System Preferences", then "Bluetooth" on the Mac.

3. Enable Bluetooth and search for "BT3.0 keyboard" or "BT5.0 KB"; click to pair.

4. "BT3.0 Keyboard" or "BT5.0 KB" is connected and can be used normally.

iOS

1. Long press the BT1 button on the keyboard for 3-5 seconds; the white light will flash.

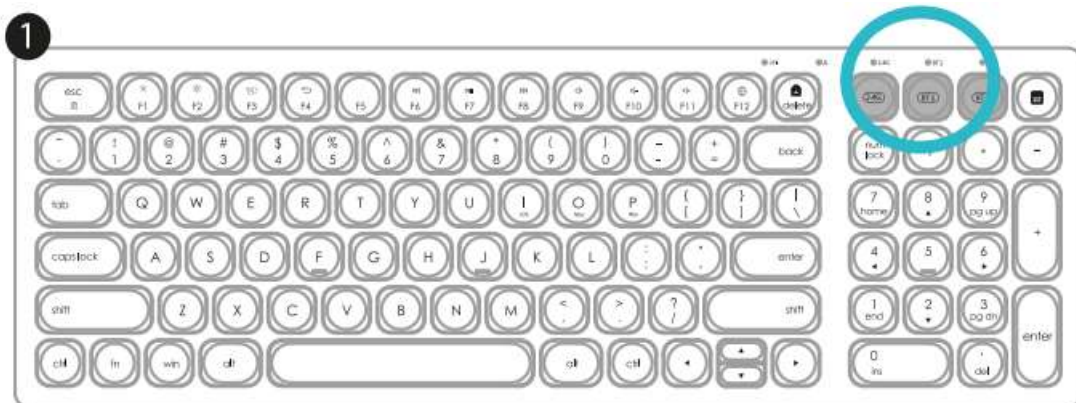

2. Navigate to “Settings”.
3. Select “General”, then “Bluetooth”, and enable.

4. Enable Bluetooth and search for “BT3.0 keyboard” or “BT5.0 KB”; click to pair. The device is then connected and can be used normally.

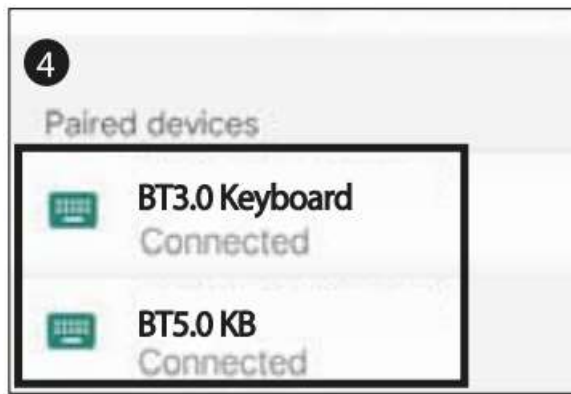

Android

1. Long press the BT1 button on the keyboard for 3-5 seconds; the white light will flash.

2. Select “Settings”, then “Connections”.
3. Select “Bluetooth” and enable.

4. Search for “BT3.0 keyboard” or “BT5.0 KB”; click to pair. The device is then connected and can be used normally.

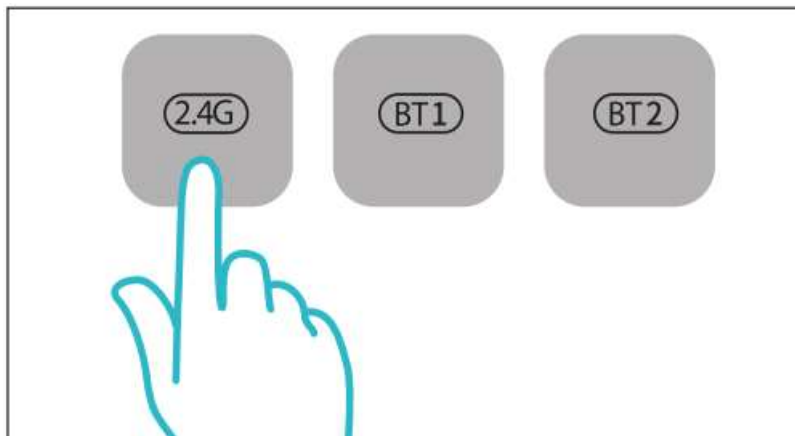

Note:

BT3.0 supports Win XP/7/8/10 and Mac 10.14. BT5.0 supports Win 8/10 and Mac 10.14.

Keyboard channel switching

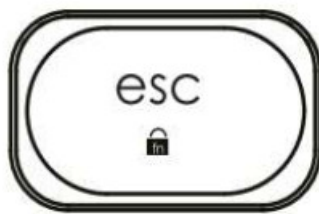

The keyboard has three individual channels (2.4G, BT1 & BT2), each of which can be paired to a separate device. The product can be simultaneously connected to a computer, tablet, and mobile phone without any confusion.

1. Press and hold the BT1 button for 3 seconds until the white light flashes. Follow the relevant pairing instructions for the device as shown above. After the first device is successfully connected, continue to add the second and third devices as required.
2. After the three devices are connected to the three different channels, simply press and hold the corresponding channel button for the desired device for 1 second; the indicator will illuminate for 3 seconds and dim to show that the channel has been switched successfully.

Channel light illuminated for 3 seconds indicates successful switching.

Multimedia Switch

F1-F12 Function switching

By default, the F1-F12 key will send the multimedia commands listed on the relevant key as shown above. Press the Fn+ Esc key simultaneously to switch to the standard F1-F12 function for each key. Press the Fn+ Esc key simultaneously again to return to the default mode.

Low Voltage reminder

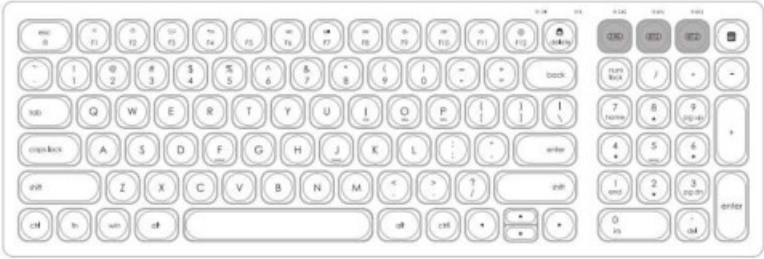

When the battery power is too low, the battery symbol indicator will illuminate, and flash red. Ensure that the batteries are replaced as quickly as practical.

SPECIFICATIONS

Wireless data transmission	2Mbps
Working voltage	3V
Key life	3 million strokes
Size	371.95 x 125 x 21.82mm
Weight	421g (±5g)
Battery	2x AAA alkaline batteries
2.4G transmission	
Working current	2.5mA± 0.5nnA
Transmission distance	20m
Bluetooth transmission	
Working current	2.5mA ± 0.5mA
Transmission distance	10m
System requirements	
2.4G/Bluetooth 3.0	Windows XP; Win 7/8/10; Mac OS X10.14 or above
Bluetooth 5.0	Win/8/10; Mac OS X10.14 or above

IN THE BOX

		
Bluetooth & 2.4G Dual Mode Wireless Keyboard		
		
Mini receiver	2 x AAA alkaline batteries	User Guide
