Kramer EXT3-U3-T,EXT3-U3-R Gen 1 Extender Receiver

Introduction

Welcome to Kramer Electronics! Since 1981, Kramer Electronics has been providing a world of unique, creative, and affordable solutions to the vast range of problems that confront the video, audio, presentation, and broadcasting professional on a daily basis. In recent years, we have redesigned and upgraded most of our line, making the best even better!

Getting Started

We recommend that you

- Unpack the equipment carefully and save the original box and packaging materials for possible future shipment.
- Review the contents of this user manual.

Go to www.kramerav.com/downloads/EXT3-U3-T/R to check for up-to-date user manuals, application programs, and to check if firmware upgrades are available (where appropriate).

Achieving Best Performance

- Use only good quality connection cables (we recommend Kramer high-performance, high-resolution cables) to avoid interference, deterioration in signal quality due to poor matching, and elevated noise levels (often associated with low quality cables).
- Do not secure the cables in tight bundles or roll the slack into tight coils.
- Avoid interference from neighboring electrical appliances that may adversely influence signal quality.
- Position your Kramer EXT3-U3-T/R away from moisture, excessive sunlight and dust.

Safety Instructions

Caution

- This equipment is to be used only inside a building. It may only be connected to other equipment that is

installed inside a building.

- For products with relay terminals and GPIO ports, please refer to the permitted rating for an external connection, located next to the terminal or in the User Manual.
- There are no operator serviceable parts inside the unit.

Warning

- Use only the power cord that is supplied with the unit.
- To ensure continuous risk protection, replace fuses only according to the rating specified on the product label which is located on the bottom of the unit.

Recycling Kramer Products

The Waste Electrical and Electronic Equipment (WEEE) Directive 2002/96/EC aims to reduce the amount of WEEE sent for disposal to landfill or incineration by requiring it to be collected and recycled. To comply with the WEEE Directive, Kramer Electronics has made arrangements with the European Advanced Recycling Network (EARN) and will cover any costs of treatment, recycling and recovery of waste Kramer Electronics branded equipment on arrival at the EARN facility. For details of Kramer's recycling arrangements in your particular country go to our recycling pages at www.kramerav.com/il/quality/environment.

Overview

Congratulations on purchasing your Kramer EXT3-U3-T/R USB 3.2 Gen 1 Extender–Receiver.

- EXT3-U3-T/R is a comprehensive, extended-reach CAT extender kit for USB 3.2 Gen1 (5 Gbps) communication. EXT3-U3-T/R supports both USB3.2 Gen1 devices and legacy USB2.0/1.1 devices. In addition to USB3, the kit extends RS232 signals and FSYNC video signal (for camera frame synchronization).
- The EXT3-U3-T transmitter unit converts the USB3 host side signal into a CATx signal format based on HDBaseT.USB.
- The EXT3-U3-R receiver unit converts the CATx signal back into a USB3 device side signal and functions as a USB hub for up to 3 devices.
- EXT3-U3-T/R operates seamlessly as a plug&play device with no need for any prior configuration. It supports a wide variety of USB peripheral devices supporting all USB transaction modes including interrupt, bulk and isochronous and is especially suitable for high throughput video streaming USB devices such as cameras and capture devices.
- EXT3-U3-T/R uses power delivery over the CATx cable requiring only one side to facilitate a power source.
- EXT3-U3-T/R provides exceptional quality, advanced and user-friendly operation, and flexible control:
- Comprehensive USB Extender – Plug & play USB extender kit for providing extended-reach CAT signals and 2-way power over twisted pair copper infrastructures. A local USB host is auto-connected to remote-connected USB devices employing either interrupt, bulk or isochronous USB standard data transfer communication.
- Flexible USB Connectivity – Wide Variety of USB peripheral devices can be extended including cameras, touch screens, smart boards, hard drives, game controllers, audio devices, printers, scanners, or HID (Human Interface Devices) devices such as a mouse or keyboard. Dual role and OTG (On-The-Go) devices such as smart phones and tablets, connected either to a transmitter–side USB host port or receiver-side USB device port, can communicate with a remote host or peripheral pairing device.
- Remote USB Charging – Fast USB charging of peripheral devices when the receiver is powered by the external power supply, or standard USB charging when the receiver is powered by the transmitter via CAT.

- Bidirectional RS-232 Extension – Serial interface data flows in both directions, allowing data transmission and device control.
- Cost-Effective Maintenance – Status LED indicators facilitate easy local maintenance and troubleshooting.

Typical Applications

EXT3-U3-T/R is ideal for the following typical applications:

- USB Camera deployment in meeting spaces and lecture halls
- Extending Video Over USB formats like UVC or DisplayLink
- Smartphone docking applications
- USB storage devices remote deployment

Defining EXT3-U3-T / EXT3-U3-R USB 3.2 Gen 1

Extender–Receiver

Defining EXT3-U3-T

This section definesEXT3-U3-T.

Figure 1: EXT3-U3-T Transmitter

#	Feature	Function
1	USB HOST Type B Port	Connect to USB Host.
2	PWR LED	Lights green when powered.
3	LINK LED	Lights blue when a link is established.
4	20V DC Power Connector	Connect to the supplied power adapter (when EXT3-U3-T is not powered by PoC).
5	Link RJ-45 Connector	Connect to the LINK IN port on the EXT3-U3-R.
6	RS-232 4-pin Terminal Block Connector	<u>FS</u> : Send the FSYNC signal from the transmitter to the receiver. <u>Rx, Tx</u> : RS-232 interface pass-through extension (supports any baud rate up to 115200).
7	Service 3-pin Terminal Block Connector (G, Rx, Tx)	Connect for firmware upgrade.

Defining EXT3-U3-R

This section defines EXT3-U3-R.

Figure 2: EXT3-U3-R Receiver

#	Feature	Function
8	USB 3 Type A Ports (1 to 3)	Connect to USB local devices (for example, a USB camera, a so und-bar, microphone, etc.). All 3 USB connectors on the receiver can provide power.
9	PWR LED	Lights green when powered.
10	LINK LED	Lights blue when a link is established.

11	20V DC Power Connector	Connect to the power adapter (when EXT3-U3-R is not powered by PoC).
12	Link RJ-45 Connector	Connect to the LINK OUT port on the EXT3-U3-T.
13	RS-232 4-pin Terminal Block Connector	<u>FS</u> : Send the FSYNC signal from the transmitter to the receiver. <u>Rx, Tx</u> : RS-232 interface pass-through extension (supports any baud rate up to 115200).
14	Service 3-pin Terminal Block Connector (G, Rx, Tx)	Connect for firmware upgrade.

Mounting EXT3-U3-T/R

This section provides instructions for mounting EXT3-U3-T/R. Before installing, verify that the environment is within the recommended range:

- Operation temperature – 0° to 40°C (32 to 104°F).
- Storage temperature – -40° to +70°C (-40 to +158°F).
- Humidity – 10% to 90%, RHL non-condensing.

Caution

Mount EXT3-U3-T/R before connecting any cables or power.

Warning

- Ensure that the environment (e.g., maximum ambient temperature & air flow) is compatible for the device.
- Avoid uneven mechanical loading.
- Appropriate consideration of equipment nameplate ratings should be used for avoiding overloading of the circuits.
- Reliable earthing of rack-mounted equipment should be maintained.
- Maximum mounting height for the device is 2 meters.

Mount EXT3-U3-T/R in a rack:

- Use the recommended rack adapter (see www.kramerav.com/product/EXT3-U3-T/R).
- Mount EXT3-U-KIT on a surface using one of the following methods:
- Attach the rubber feet and place the unit on a flat surface.
- Fasten a bracket (included) on each side of the unit and attach it to a flat surface.
- Mount the unit in a rack using the recommended rack adapter.
- For more information go to (see www.kramerav.com/downloads/EXT3-U3-T / www.kramerav.com/downloads/EXT3-U3-R).

Connecting EXT3-U3-T/R

- PSU (Power Source Unit) at receiver side for illustration purposes only.
- PSU may be deployed on either the transmitter or the receiver, or both.

Figure 3: Connecting to the EXT3-U3-T/R

To connect EXT3-U3-T/R as illustrated in the example in Figure 3:

1. Connect the USB type B port 1 on the EXT3-U3-T to a USB Host (for example a PC).
2. Connect the RS-232 ports:

3. On the EXT3-U3-T, connect the RS-232 3-pin terminal block controller (for example, RC-208). 6 to an RS-232-
 - On the EXT3-U3-R, connect the RS-232 3-pin terminal block 13 to an RS-232 controlled device ,Blu-Ray player).
 - Alternatively, you can connect RS-232 ports the other way around: connect a controlled device to the EXT3-U3-T RS-232 port and a controller to the EXT3-U3-R RS-232 port.
 - Connect the USB type A ports on the EXT3-U3-R to USB devices (for example, KAC-CAM-50M and/or a smartphone).
4. Connect the power adapter to the EXT3-U3-R and then to the mains. EXT3-U3-T is powered via LINK RJ-45 ports / .
 - Alternatively, you can connect the power adapter the other way around: connect the power adapter to the EXT3-U3-T so that EXT3-U3-R is powered via the LINK RJ-45 ports.
 - For best device current performance, it is recommended to connect a PSU at the receiver side.

Connecting to EXT3-U3-T/R via RS-232

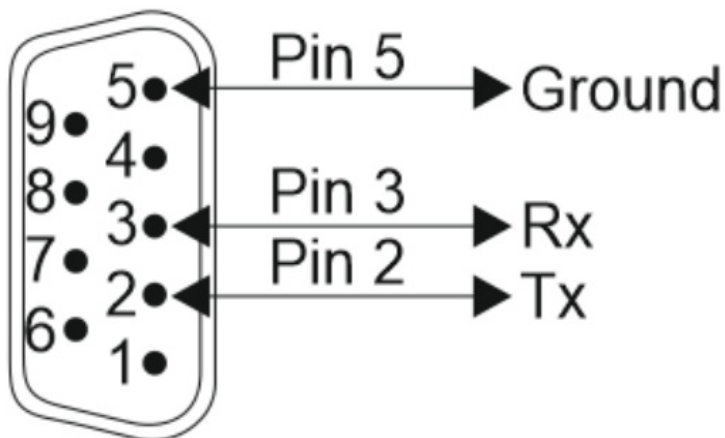

You can connect to EXT3-U3-T/R via an RS-232 connection 13 using, for example, a PC. EXT3-U3-T/R features an RS-232 3-pin terminal block connector control of an RS-232 device over the extension.

Connect the RS-232 terminal block on the rear panel of EXT3-U3-T/R to a PC/controller, as follows:

From the RS-232 9-pin D-sub serial port connect:

- Pin 2 to the TX pin on the EXT3-U3-T/R RS-232 terminal block
- Pin 3 to the RX pin on the EXT3-U3-T/R RS-232 terminal block
- Pin 5 to the G pin on the EXT3-U3-T/R RS-232 terminal block

RS-232 Device

EXT3-U3-T/R

Wiring RJ-45 Connectors

This section defines the TP HDBT pinout, using a straight pin-to-pin cable with RJ-45 connectors.

It is recommended that the cable ground shielding be connected/soldered to the connector shield.

EIA /TIA 568B	
PIN	Wire Color
1	Orange / White
2	Orange
3	Green / White
4	Blue
5	Blue / White
6	Green
7	Brown / White
8	Brown

Technical Specifications

	EXT3-U3-T	EXT3-U3-R
Host Port	1 X type B USB3 connector	–
Device Ports	–	3 X type A USB3 connectors
Traffic rate	5 Gbps	
Extension Link	HDBaseT.USB over CATx	
Reach distance	100 meters	
Power	20 VDC	20 VDC
	PoC+ (PSE or PD)	PoC+ (PSE or PD)
Environmental Conditions	Operating Temperature: 0° to +40°C (32° to 104°F)	
	Storage Temperature: -40° to +70°C (-40° to 158°F)	
	Humidity: 10% to 90%, RHL non-condensing	
Regulatory Compliance	Safety: CE, FCC, UL	
	Environmental: RoHs, WEEE	
Enclosure	Demi Tool	Demi Tool
	Type: Aluminum	
	Cooling	Passive
Accessories	Power adaptor Included	–

FAQ

- **Q: Is any configuration required for the EXT3-U3-T/R units?**

A: No, the EXT3-U3-T/R operates as a plug & play device and does not require any prior configuration.

- **Q: What are some typical applications for the EXT3-U3-T/R?**

A: Typical applications include USB camera deployment in meeting spaces, extending video over USB formats, smartphone docking, and remote deployment of USB storage devices.
