## PRODUCT OVERVIEW

## FEATURES

- **Interactive Design:** The toy has a motion sensor built in that makes the wings flap and the tweeting sound when it is touched, which gets kids moving around and playing.
- **Catnip Infusion:** It comes with two packs of catnip, which makes it more appealing and makes cats want to eat it.
- **Realistic Look:** It has a design that looks like a real sparrow, which is interesting for your cat to look at and makes them want to hunt.
- **Soft and Safe Materials:** It's made of plush cloth, which is soft, won't get chewed on, and is safe for pets. It's a good texture for playing.
- **Charging via USB:** The toy can be charged using a USB wire, which saves pet owners time and money by not needing batteries.
- **Long Battery Life:** A fully charged battery can handle up to 260 shocks and chirps, so you can play for longer without having to charge it all the time.

- **Two-Way Flapping Wings:** The unique design of the wings makes them flap realistically, which makes the toy more fun and responsive.
- **Portable and Lightweight:** It's easy to move around the house or take on trips because it only weighs 5 ounces and is only 5.51 x 3.54 x 4.72 inches in size.
- **Stress Relief:** Active play helps cats who are bored or lonely by giving them exercise and mental activity.
- **Strong Construction:** Made for rough play, so it can handle the crazy acts of cats that like to play.
- **Quiet Operation:** The toy works quietly, so you can play with it inside without bothering other people.
- **Versatile Gift Option:** This is a great gift for any event, like Thanksgiving and Christmas, or just to surprise your furry friend.
- **User-Friendly Operation:** Playing is easy because you don't need to use complicated buttons or remote commands.
- **Colorfast Material:** The soft material won't fade, so the toy will keep its bright look over time.
- **Encourages Active Play:** This product gets cats to move around, which is good for their health and well-being.

## SETUP GUIDE

- **Carefully unpack:** Take the toy out of the box and check to see if any parts are broken or missing.
- **Charge the Toy:** Before you use the toy for the first time, use the USB charging cable that came with it to charge it. Connect it to the toy by plugging it into a USB port.
- **Check the Charging Indicators:** The red light means that the device is charging, and the green light means that it is fully charged and ready to play.
- **Positioning:** To get your cat to interact with you, put the toy on a flat area where it often plays.
- **Turn on the touch sensor:** Let your cat touch the toy to set off the motion sensor and begin flapping and singing.
- **Bring it to your cat's attention slowly:** If your cat is wary, let it sniff and explore the toy before moving it.
- **Watch the First Play:** Keep an eye on your cat as it plays with the toy for the first time to make sure it is safe and not too rough.
- **Show How It Works:** If you need to, gently tap the toy to make it flap and chirp, which will help your cat understand how it works.
- **Change Where Your Cat Plays:** Move the toy around the house to keep it interesting and encourage it to explore.
- **Recharge as Needed:** If the toy stops working, use the USB cord to recharge it so it can keep working.
- **Replace Catnip Often:** Every couple of weeks, add new catnip to the toy to keep its appealing smell for your cat.
- **Let Your Cat Play Alone:** Once your cat is used to the toy, let them play with it on their own whenever they want.
- **Keep Out of Water:** To keep the toy from getting damaged, keep it out of water and other damp places.
- **Check the Charging cord:** Before each use, check the USB charging cord for any damage or wear.

## CARE & MAINTENANCE

- **Regular Cleaning:** After each play session, wipe down the outside of the soft toy with a damp cloth to get rid of dust, fur, and other dirt.
- **Avoid Too Much Moisture:** Don't put the toy in water; instead, clean it with a slightly wet cloth.

- **Check for Wear:** To make sure the toy is still safe for play, check it often for signs of wear like tearing or tears in the fabric.
- **Charge When Low:** If you notice that the toy isn't moving or making as much noise, you should recharge it to keep it working at its best.
- **Keep the toy in a safe, dry place** when not in use to keep it from getting broken.
- **Use Catnip Sparingly:** Only use catnip as needed to keep it working well and avoid over-saturation.
- **Watch the Play:** Sometimes you should watch your cat play with the toy to make sure they are doing it safely.
- **Rotate Toys:** To keep your cat interested in playing, switch out the sparrow toy for other toys every so often.
- **Check the Charging Port:** Make sure to check the charging port often for any dirt or other things that might get in the way of charging.
- **Handle with Care:** Don't hit the toy too hard, especially where the wings and computer parts are located.
- **Keep Out of Reach of Young Children:** Keep the toy out of reach of young children so they don't use it or damage it by mistake.
- **Charger cord Care:** Check the USB charging cord for kinks and damage, and replace it if needed.
- **Report Problems:** If the toy doesn't work, look for troubleshooting tips or call customer service for help.
- **Use Only Catnip That The Manufacturer Recommends:** To ensure safety and quality, only use catnip that the manufacturer recommends.
