The manufacturer reserves the right to errors and typographical errors.

Safety instructions

Read this instruction manual and keep it for future reference.

1. Protect this device from water, moisture and other liquids. Avoid using / storing it in extreme temperatures. Do not expose it to direct sunlight and other heat sources.
2. Keep the device away from children.
3. Equipment for indoor use only.
4. Do not attempt to repair this device yourself. In case of damage, contact an authorized service point for inspection or repair.
5. Before connecting the device to the power supply socket, make sure the voltage indicated on the device matches the voltage in the power supply socket.
6. This appliance may be used by children over 8 years of age and by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, if they are carefully supervised and supervised by a person responsible for their safety. Methods for all safety precautions are understood and followed. Children should be supervised to ensure that they do not play with the appliance. Children should not clean and service the equipment without supervision.
7. Always disconnect the product from the power source before cleaning.
8. Clean this device with gentle, slightly damp cloth. Do not use any chemicals to clean this device.

Product details

1. Wall bracket
2. speaker
3. Power button
4. Standing brackets
5. microSD slot
6. USB-C socket
7. Power adapter input socket

OPERATION

Connect

- Connect the power adapter plug to the power outlet on the device.
- Plug the adapter into the mains socket.

Open and close

- The device will turn on automatically after plugging into the connected power adapter.
- To turn off the device, press and hold the power button and press the power button. Attention: Do not turn off the device by disconnecting the power adapter input.

Initial settings

After connecting power to the frame for the first time, the startup wizard will show.

1. Select the language and press the next button.
2. Connect to a Wi-Fi network (you can skip this step, however, it is recommended to download the latest update).
3. Select the correct time zone and press the next button.
4. If an update is available, click the Download and Install button and wait for the update to install.
5. Enter your username and frame name. Press the next button.
6. Read information about sharing photos. Click the Finish button to complete the setup wizard.

### Share photos

with a memory card

1. Insert the microSD card into the memory card slot (with the pins facing the screen).
2. The device will display a notification about the detection of the memory card. Select the import option.
4. Select the image and press the import button (in the upper right corner).
5. After completing the import, the image will be shown in the display.

With the Frameo app

Scan this QR code to download the Frameo app:

1. When launching the app for the first time, the app will ask for a username (this username will be displayed in the friends list in the frame).
2. After the configuration is complete, the main screen of the app will be displayed.
3. In the app, tap the Add Friend button.
4. In the frame, press the Add friend button. Enter the code from the frame in the app.
5. After a few seconds, the app will be paired with the frame. From the photo menu in the app, select the photo to export to the frame (to select multiple photos, Press and hold one image, and start selecting other images).
6. Press the transfer button. Select the target frame, enter an optional description and press the next button.
7. Drag the circle to select the middle part. Press the transfer button. After a few seconds, the image will be transferred and displayed in the frame.

Pay attention

1. The app will ask for permission to read files on the phone. This permission must be granted to use the app.

Add reaction

Reactions can only be added to images sent from the Frameo app.

1. Tap on the image and select React.

2. Choose a reaction. Reaction notifications will be sent to the Frameo app.

Image management

1. Open the main menu.
2. Go to the image management menu.
3. The menu allows to hide, delete and manage images (import and export).

Slideshow settings

1. Open the main menu.
2. Go to the Slideshow menu.
3. The menu allows to change the slideshow settings.
