Interior rechargeable lighting

The Sophia sensor LED light with no wires, no installation and built-in rechargeable lithium battery offers maximum battery life. Thanks to its adhesive system and magnetic base, it is very easy to place and transport. In addition, it adjusts the amount of light emitted according to the light it receives, thus making a commitment to energy saving. A perfect option to include in closets, drawers, pantries, garages and more, offering neutral white light of 4,000K. Available in 30 and 60 centimeters.
