KULARIWORLD 2021-01A Rechargeable Remote Control Car

INTRODUCTION

With the KULARIWORLD 2021-01A Rechargeable Remote Control Car, kids aged 6 to 12 may have endless fun in a fast-paced, kid-friendly drift car. A thrilling addition to any child's toy collection, this 1/18 scale RC car is reasonably priced at **\$13.99** and can achieve speeds of up to 15 KMH. It is ideal for both indoor and outdoor use because of its realistic LED headlights, responsive remote control, and stylish yellow racing body. Kids can easily learn spins, drifts, and races thanks to the sturdy ABS plastic body, shock-absorbing rubber tires, and simple 27 MHz controller. The car's dimensions of 8.5" x 3.8" x 2" provide the ideal ratio of performance to size. Manufactured by KULARIWORLD, this remote car comes with 24/7 customer assistance for a hassle-free experience and is the perfect present for birthdays, Christmas, or just weekend fun.

SPECIFICATIONS

Product Name	KULARIWORLD 2021-01A Rechargeable Remote Control Car
Price	\$13.99
Brand	KULARIWORLD
Recommended Age	6 to 12 years

Speed	Up to 15 KMH

Gift Suitability	Ideal for Christmas or Birthday gifts for boys and girls
Customer Support	24/7 seamless service by KULARIWORLD

WHAT'S IN THE BOX

- Car
- USB charger
- screwdriver
- User Manual

FEATURES

- **Speedy and Fun:** This RC car reaches speeds of up to 15 km/h, making it super exciting to race on smooth floors or pavement.

- **Drift Like a Pro:** Built-in drift mode lets kids perform slick turns and spins, transforming any room into a racetrack.
- **Easy-to-Use Controls:** The responsive remote fits perfectly in small hands and allows smooth movement in all directions—forward, backward, left, and right.
- **Rechargeable Convenience:** No need to keep buying batteries. Just charge up the car and it's ready to go!
- **Cool Headlights:** Front headlights light up during motion, adding to the fun and realism.
- **Tough Build:** The car's body is made from sturdy ABS plastic to handle bumps and rough play.
- **Shockproof Tires:** Soft rubber wheels absorb shocks for smoother rides and better handling.
- **Perfect Size:** At just over 8 inches long, it's ideal for both indoor races and outdoor adventures.
- **Wireless Range:** The 27 MHz remote gives kids freedom to drive up to 100 feet

away.

- **Kid-Safe Design:** Lightweight yet strong, it's great for beginners and young racers.
- **Impressive Look:** A bright yellow design with sporty curves makes it look like a real mini supercar.
- **Indoor & Outdoor Friendly:** Whether on the carpet or driveway, it runs smoothly.
- **Easy to Recharge:** Includes a USB charging cable so you can power it up easily from a computer or wall adapter.
- **Fun for All Ages:** While perfect for kids, even adults can enjoy racing it around.
- **Ready-to-Go Gift:** Makes a fantastic gift for any young car enthusiast.

SETUP GUIDE

- **Charge the Car:** Plug in the USB charger until the battery is full (usually takes about 1–2 hours).
- **Install Remote Batteries:** Insert 2 AA batteries into the remote (not included).
- **Power Up:** Turn on the power switch on both the car and the remote.

- **Pairing:** Place the car close to the remote when turning it on to ensure connection.
- **Test Drive Indoors:** Start driving on a flat surface to get the hang of the controls.
- **Practice Drifting:** Try using sharp turns to learn how the car handles drifting.
- **Stay on Flat Ground:** Use the car on smooth surfaces like hardwood, tile, or pavement.
- **Avoid Crowds:** Drive the car in open areas to prevent crashes.
- **Recharge When Needed:** If the car slows down, it's time to recharge.
- **Store Remote Safely:** Keep it with the car to avoid losing it.
- **Teach Kids Use:** Help kids learn how to steer gently for better control.
- **Watch the Lights:** The headlights light up when driving forward—great visual cue for kids.
- **Avoid Water:** Don't drive through puddles or on wet ground.
- **Unplug After Charging:** Remove the charger once the battery is full to preserve battery health.
- **Use One at a Time:** If using multiple cars, avoid cars with the same frequency to prevent interference.

CARE & MAINTENANCE

- **Wipe Down Regularly:** Use a dry cloth to keep the car clean from dust and dirt.
- **Keep Tires Clean:** Check for debris in the wheels that may affect performance.
- **Store Indoors:** Keep the car and remote in a cool, dry place when not in use.
- **Avoid Long Charging Times:** Don't leave it charging overnight.
- **Don't Force It:** If the car gets stuck, avoid revving—gently lift and move it.
- **Cool It Down:** After a long play session, let the motor rest before the next race.
- **Replace Remote Batteries:** When response slows, swap out the AA batteries.
- **Keep Ports Clean:** Use a soft brush to clean the charging port occasionally.
- **Avoid Drops:** Though durable, frequent drops can cause damage over time.
- **Check for Damage:** Look over the car occasionally for cracks or loose parts.
- **Protect from Heat:** Don't leave the car in direct sunlight or hot environments.
- **Handle Remote with Care:** Avoid dropping or spilling liquids on it.
- **No Overuse on Carpet:** While it works on carpet, stick to flat surfaces for better speed.
- **Teach Responsible Use:** Guide your child to respect the toy for longer enjoyment.

TROUBLESHOOTING

Issue	Possible Cause	Solution
The car is not turning on	The battery is not properly charged or installed	Ensure the rechargeable battery is fully charged and correctly placed
Remote not responding	Weak or dead AA batteries	Replace AA batteries in the remote controller
The car is not moving forward/backward	Signal interference or a low battery	Move closer and recharge the car battery
Headlights not working	LED damage or loose internal connection	Contact support if the LED remains non-functional after charging

Issue	Possible Cause	Solution
The car only turns in one direction	Steering alignment issue	Reset and test on a flat surface
Slow movement	Low charge or battery degradation	Fully recharge or replace the battery if needed
The car stops after a short use	Insufficient charging time	Charge the battery for the recommended duration
The remote control range is short	Weak signal or interference	Stay within 100 ft of range and avoid operating near metal objects
The car vibrates excessively	Uneven terrain or wheel alignment issue	Use on a smooth surface and check wheel positioning
The charging light is not showing	Faulty charger or port issue	Try another USB cable or charger and ensure correct orientation

PROS & CONS

PROS

- High-speed performance up to 15 KMH
- Rechargeable design for repeated use
- Easy-to-use remote made for kids' hands
- Durable build with shock-absorbing tires
- Bright headlights for realistic driving fun

CONS

- Not suitable for rough outdoor terrain
- 27 MHz frequency may interfere with other RC cars
- Remote control requires 2 AA batteries (not included)
- Works best on flat surfaces
- No multiple-speed adjustment feature

WARRANTY

The KULARIWORLD 2021-01A Remote Control Car includes a standard 12-month warranty from the date of purchase. This covers any defects in materials or workmanship under normal use. For warranty claims, customers can contact Kulariworld's 24/7 support team. The warranty does not cover accidental damage, misuse, or battery-related issues. Kulariworld is committed to providing exceptional customer service and a seamless post-purchase experience.

FREQUENTLY ASKED QUESTIONS

Does the KULARIWORLD 2021-01A RC car have headlights?

It features a dazzling front headlight that automatically lights up during forward motion, enhancing its realistic racing look.

What surfaces work best for the KULARIWORLD 2021-01A remote control car?

This RC car performs best on flat indoor surfaces like carpets and hardwood floors, but it can also handle light outdoor use.

Is the KULARIWORLD 2021-01A RC car suitable for both boys and girls?

Absolutely! This model is a gender-neutral toy designed for all children aged 6–12, offering high-speed fun and easy controls.

My KULARIWORLD 2021-01A car loses connection beyond a few feet. Why?

The remote range is up to 100 ft. If connection is dropping sooner, check for interference from other electronics or low battery power in the controller.

The front light of the KULARIWORLD 2021-01A is not turning on. What can I do?

The front light only activates during forward movement. If it doesn't light up while moving forward, inspect internal wiring or contact customer service.

How long does the KULARIWORLD 2021-01A car battery last after charging?

Typically, it offers 15–20 minutes of run time after a full charge, depending on usage and terrain.

How do I clean the KULARIWORLD 2021-01A RC car after use?

Use a dry cloth to wipe the body and wheels. Avoid submerging the car in water or using any liquid cleaners.
