### D210S Label Maker Machine

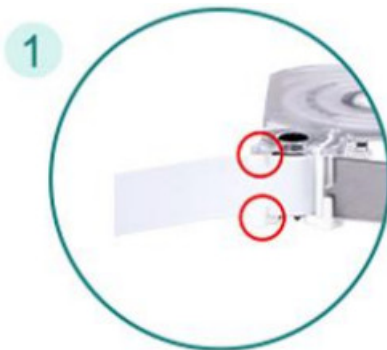

Dear customers,  
Thank you for visiting!  
Here are 3 tips for using label tapes:

1. Make sure the end of tape is through both tape guides correctly.
2. Before install, extend 1.5 inch (3-4cm) labels, kindly turn the green gear in the direction of arrow on the tape.
3. Make sure the extended label tape passes through the outlet of label maker when install.

**Note:** Kindly follow above tips before EVERY installation to avoid damage.  
Here attached the picture for your reference.

#### Tips for Installing Label Tape:

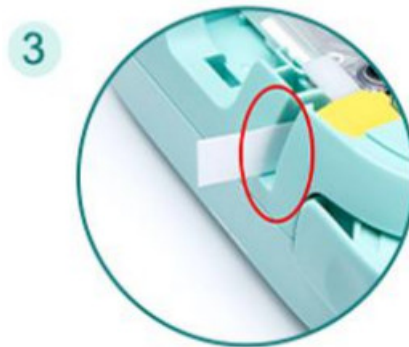

Kindly make sure the end of tape is through both tape guides correctly. Then extend about 1.5 inch (3 cm to 4 cm) label tapes.

Turn the green gear in the direction of arrow on the tape until tight to tighten the carbon ribbon.

When install, make sure the extended label tape passes through the outlet of label maker.

**Note:** If you install the label tape after turning on the label maker, the label maker will remind you to choose the label width, kindly select "12 mm" for the included label tape.

If you have any problem or need on our product, please feel free to contact us by Amazon's direct message service (Click "sold by Labelife" on the product page, then click "Ask a question"). All messages or emails will be replied within 12 hours. We will do our best to help you.

Hope all is well.  
Thanks & Best Regards,  
Labelife customer service team
