LED Indicators

Blinking	Ready for pairing
Lit	Paired (stand by)
Blinking (slowly)	Playback
LED is colored according to the audio mode	
Blue	Super bass
White	3D Sound

Charging indicators

When charging, the status LED lights up red, when fully charged it lights up green.

Power On / **Off**
To turn on the speaker, press and hold the POWER button. The LED lights up and a beep sounds. Hold down the same button to turn off the speaker.

Pairing

1. Turn on the speaker by holding down the POWER button. The LED starts blinking and the speaker is ready to pair.
2. Activate the Bluetooth connection on your phone or another device. Select "LAMAX Sounder2 Max" from the list of available devices. When pairing is successful, the speaker emits a sound, and the LED lights up.
3. Playback can be controlled either by the paired device or directly on the speaker itself. The LED blinks slowly during playback.

TWS To pair two speakers, turn on both speakers and make sure they are not paired with the multimedia device. On one of them, which will be the main one, press and hold the **MODE** button until a beep sounds. After successful pairing, a second beep sounds and the main speaker acts as the left channel.
To unpair the speakers, hold the same **MODE** button on the main speaker.

Audio Input
By connecting to the AUX jack via the supplied audio cable, you can play music from any device. When playing back through the audio input, you cannot control the tracks directly on the speaker.
Handsfree
When pairing your phone via Bluetooth, the handsfree function is activated. To answer/end the call, press PLAY, reject the incoming call by holding down PLAY and double-tap PLAY to redial the last dialed number.
Charging
The speaker can be charged using the supplied USB cable from a suitable USB device – adapter, PC, power bank. Do not chargé the speaker with an input voltage higher than 5V, as the speaker may be damaged. An audible signal sounds when the battery is running low. When charging, the LED lights up red and when fully charged, the LED lights up green.
