Switch WiFi on / off	Press the DOWN button

USING THE CAMERA FOR THE FIRST TIME

A Connect the camera to the power supply

- Charge the camera either by connecting it to a computer or by using the optional AC adapter.
- Fully charge the battery before first use.
- It takes approximately 4 hours to charge the battery from 0 to 100 %.
- After fully charging, the charging indicator goes out.
- **Note:** It takes 2.5 hours to charge the battery from 0 to 80 %.

B Insert the microSD card into the camera as shown (connectors towards the lens)

- Insert the card only when the camera is turned off and not connected to the computer.
- Format the card directly in the camera the first time you use it.
- Use branded cards of U3 class and above with a capacity of up to 128 GB.

WIFI APP

A Scan the QR code or enter the URL lamax.cz/x92/app

B Install the app on your smart device.

C Turn on WiFi in the camera by pressing the DOWN button.

D On your smart device, connect to the WiFi network with the camera name. The WiFi password is shown on the camera display (factory default 1234567890).
