Lampeez Game Console Night-Light lamp

INTRODUCTION

A great combination of contemporary style and practicality, the Lampeez Game Console Night-Light Lamp is ideal for both children and gamers. This inventive 3D illusion light, which is reasonably priced at \$15.56, has an optical acrylic panel engraved with a gamepad design, creating a stunning three-dimensional visual effect while staying perfectly flat. Lightweight and small, the lamp is made of a sturdy Acrylonitrile Butadiene Styrene (ABS) base and acrylic plate, measuring 0.15" D x 6.6" W x 6.0" H. Its controllable and aesthetically pleasing soft LED light creates a comfortable atmosphere that's perfect for gaming areas or beds. The lamp was just released and comes with a convenient remote control that lets users easily adjust between 16 vivid colors and four color-changing modes. A multi-setting auto-off timer further improves energy savings and convenience. For children, teenagers, and gamers, this night light is a considerate present for birthdays, holidays, or any other special event.

SPECIFICATIONS

FEATURES

- **3D Visual Illusion:** When illuminated, the finely engraved optical acrylic panel produces a breathtaking 3D illusion of a game controller.
- **16 Color Options:** Enhances the atmosphere of any space with 16 vivid color options.

- **Four Color Modes:** Provides a variety of lighting effects with four dynamic color-changing modes.
- **Dimmable Brightness:** Using a button or remote control, you may change the brightness to fit your mood and keep your eyes safe.

- **Eye-Caring LED Light:** This type of LED light is gentle on kids' eyes since it is uniform, soft, and non-flashing.
- **Dual Control Options:** The base's button can be pressed or the accompanying remote control can be used.
- **Timer Function:** For convenience and energy conservation, this auto-off timer has settings for 15, 30, 60, and 12 hours.
- **Compact Size:** Its small size (0.15" D x 6.6" W x 6.0" H) makes it ideal for desktop or bedside use.

- **Lightweight and Portable:** It is lightweight and portable, making it simple to move around the house or workplace.
- **Durable Materials:** For long-lasting use, an acrylic panel and an acrylonitrile butadiene styrene (ABS) foundation are used.
- **USB Powered:** A 1.5-meter USB cable is included for convenient power source connection.
- **Perfect Gift:** Perfect as a birthday, Christmas, or holiday present for children, gamers, and friends.
- **Safe and Energy Efficient:** Safe for prolonged use, with a low power consumption of 2 watts.
- **Tabletop Mounting:** No wall mounting is necessary because this tabletop is made to be placed steadily.
- **Complete Package:** The entire package comes with an LED base, an acrylic sheet

for the gaming controller, a USB cable, a remote control, and a user manual.

SETUP GUIDE

- **Carefully Unpack:** Take off the acrylic panel, LED base, remote control, USB cable, and documentation.
- **Remove Protective Film:** Before using the acrylic panel, remove any protective film that may be on it.
- **Insert Acrylic Panel:** Firmly slide the acrylic sheet from the gaming controller into the LED base's slot.
- **Connect USB Cable:** First plug it into the base and then into a USB power source, such as a computer or wall adapter.
- **Power On:** To turn on the lamp, press the button on the base or use the remote control.
- **Choose Color:** To pick your favorite light, use the remote or button to cycle through 16 different colors.
- **Choose Color Mode:** Using the remote control, pick one of the four color-changing modes.
- **Adjust Brightness:** To change the brightness level, press the button or use the dimmer feature on the remote.
- **Set Timer:** To set the timer to turn off automatically at 15, 30, or 60 minutes, push the button twice. To double the time up to 12 hours, press the button twice more.
- **Light Placement:** Position the light on a level, sturdy surface, like a desk or bedside table.
- **Avoid Direct Sunlight:** To avoid discoloring the acrylic, keep the lamp out of direct sunlight.
- **Avoid Water:** Only use indoors; stay away from damp or humid locations.
- **Handle Cable:** To prevent damage or tripping, arrange the USB cable correctly.
- **Store Remote Control:** Keep it in a convenient and secure location.

CARE & MAINTENANCE

- **Dust Frequently:** Use a soft microfiber cloth to gently wipe away dust from the acrylic panel and base.
- **Steer Clear of Abrasive Cleaners:** Avoid using abrasive products or strong

chemicals on the base or acrylic.

- **Remove Protective Film:** Before using, make sure the protective film is taken off in order to preserve light quality and clarity.
- **Keep Dry:** To safeguard the electrical components, keep the lamp away from moisture and water.
- **Check USB Cable:** Look for wear or damage on the USB cable on a regular basis and replace it if needed.
- **Turn Off When Not in Use:** Turn off the LED lamp when not in use to prolong its longevity.
- **Store Correctly:** To prevent damage, keep the lamp in a cool, dry location when not in use.
- **Handle Acrylic Carefully:** To avoid cracks, do not bend or drop the acrylic panel.
- **Avoid Direct Sunlight:** Acrylic can get warped or discoloured by prolonged exposure to sunshine.
- **Use the Right Power Source:** To prevent harm, only use USB power supplies with the right voltage.
- **Clean Remote Control:** To maintain button responsiveness, wipe the remote with a dry cloth.
- **Replace Remote Batteries:** To keep the remote working fully, change the batteries as necessary.

- **Avoid Putting Too Much Pressure on Buttons:** To avoid damaging buttons, press them softly.
- **Avoid Heat Sources:** Stay away from heaters and other appliances that produce heat.

TROUBLESHOOTING

Issue	Possible Cause	Suggested Solution
Lamp won't power on	USB cable loose or disconnected	Securely reconnect USB cable
Remote control unresponsive	Dead or missing batteries	Replace remote batteries

Issue	Possible Cause	Suggested Solution
Colors won't change	Faulty remote or button malfunction	Restart lamp and try alternate control
Lamp flickers or dims	Loose connection or power supply issue	Check USB connection and power source
Brightness adjustment fails	Remote or button malfunction	Reset lamp and verify remote operation
Timer function not working	Incorrect button presses	Press timer button twice to activate
Acrylic panel looks dull	Protective film still on	Remove protective film carefully
Lamp overheats	Continuous prolonged use	Turn off to allow cooling
Light uneven or dim	Dust or damage on acrylic panel	Gently clean panel; inspect LED base
Lamp shuts off unexpectedly	Timer setting or power interruption	Confirm timer settings and power source

PROS & CONS

Pros

- Stunning 3D visual effect with flat acrylic panel
- 16 customizable colors and 4 color-changing modes
- Soft, dimmable LED light that protects eyes
- Remote and button control for ease of use
- Auto-off timer for energy saving

Cons

- Not suitable for outdoor or wet environments
- Requires constant USB power, no battery backup
- Acrylic panel prone to scratches if mishandled
- Light is decorative, not bright enough for reading
- Remote range can be limited by obstacles

WARRANTY

The Lampeez Game Console Night-Light Lamp comes with a **one-year limited warranty**. This warranty covers defects in materials and workmanship under normal use. For any issues, the manufacturer offers friendly customer support to ensure timely repairs or replacement, giving buyers peace of mind with their purchase.

FREQUENTLY ASKED QUESTIONS

What kind of 3D effect does the Lampeez 3D Gamepad Lamp Game Console Night Light create?

The Lampeez 3D Gamepad Lamp uses an engraved optical acrylic panel that creates a vivid 3D illusion effect when lit, making it a unique decoration for kids and gamers.

How many colors can the Lampeez 3D Game Console Night Light display?

This Lampeez lamp offers 16 color options plus 4 color-changing modes, all adjustable via the included remote control or by pressing the button on the base.

What power sources are compatible with the Lampeez 3D Gamepad Night Light?

It is powered by USB connection (with a 1.5-meter cable included), providing convenient power for any room setup.

Why is my Lampeez 3D Gamepad Lamp not turning on?

Check if the USB cable is properly connected to a power source and ensure the acrylic sheet is securely inserted into the LED base.

The remote control for my Lampeez Game Console Night Light isn't responding. What should I do?

Make sure the remote's battery is installed correctly and not dead. Also, aim the remote directly at the lamp's base without obstacles.

Why does the Lampeez 3D Gamepad Lamp flicker sometimes?

Flickering can be caused by loose cable connections or unstable power supply. Check the USB connection and try plugging into a different outlet.

How do I fix the Lampeez 3D Game Console Lamp if it's stuck on one color?

Try cycling through the colors with the remote or the base button. If unresponsive, unplug and re-plug the lamp to reset the device.
