Use the Exacto knife to remove any of the remaining connection bits.

Use an exacto knife to cut the bits connecting the parts to the frame.

Most joints are press-fit, but some joints might require a drop of glue to ensure a strong bond.

Remove the parts from the frame with a rotating motion along the bits you just cut.

Press the parts together or use a hobby hammer with slight force for assembly.

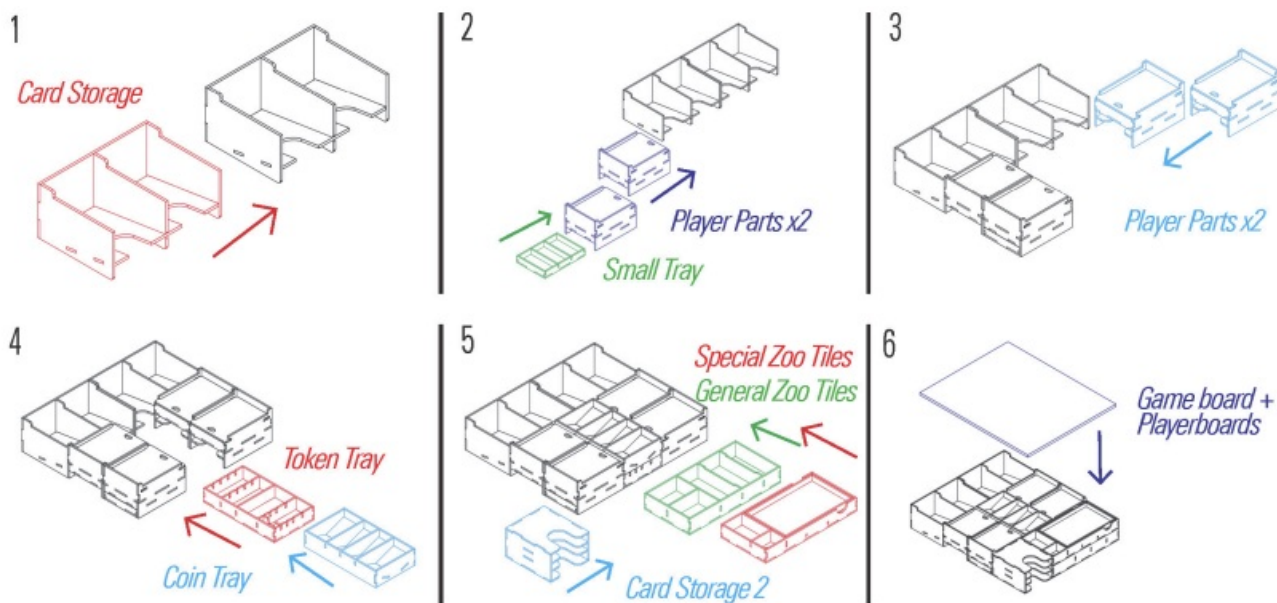

Use wood glue for assembly.

If you encounter any issues, please contact us at info@laserox.net

WARNING: Not a toy. Not suitable for children under 14 years of age

Box Assembly

- Some parts might look different than in the assembly instructions, with added decorations/engravings/embellishments.
- Color variations or branch marks are a natural part of the birch plywood}
- The burnt smell of wood is natural and will dissipate with time.
- Rarely the laser will not cut through the complete sheet, but this can be fixed with the help of a hobby knife. If that is not possible, please contact us for a replacement!
