LaView FL6 Floodlight Security Camera User Guide

FLOODLIGHT SECURITY CAMERA

APP SETUP LIVE &PLAYBACK ALEXA SETUP

Contents

APP SETUP

1. Connect the camera to power via included adapter (If you are not setting up the camera for the very first time, press the Reset button instead for 5 seconds until you hear a beep.)

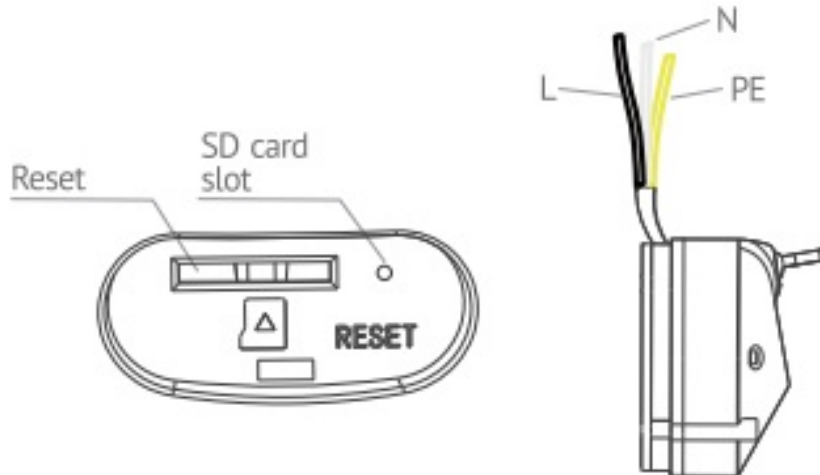

⚠ Requires 100-240V AC power. Consult with a certified electrician before installation

Please refer to the user manual for detailed installation steps

2. Please download the LaView App from the App Store or Scan the QR Code below. LaView App is available for both iOS and Android OS. Search the name 'LaViews, in App Store or Google Ray. (The other LaView apps, such as LaView Connect, LaView ONE, and LaView Life do NOT support a B9 camera)

3. Make Sure Your Phone Is Connected To A 2.4ghz Wifi Network
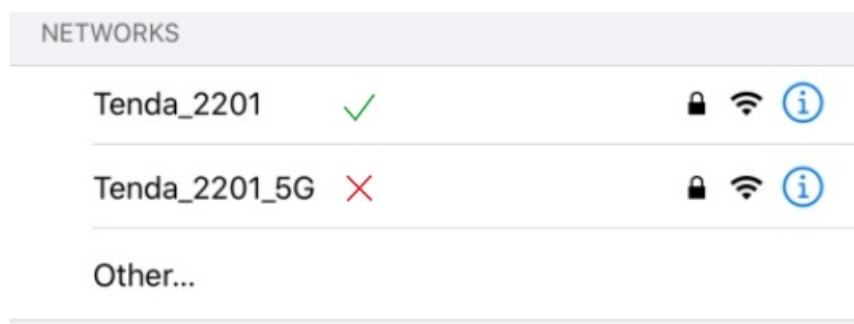

4. Complete the app registration process **Register**

7. Enter the WiFi Password to generate a QR code that carries your WiFi information

📶 Living Room   Change Network
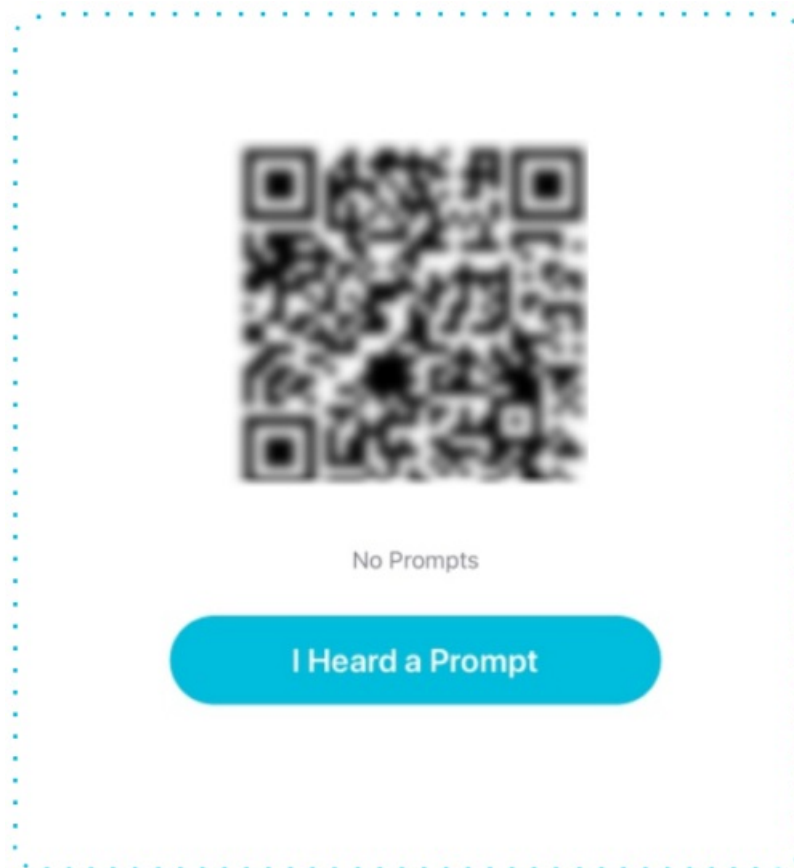

🔒 ••••••••

OK

8. Use the camera to scan the QR code on the phone (keep the camera 6-8 inches away from the phone)
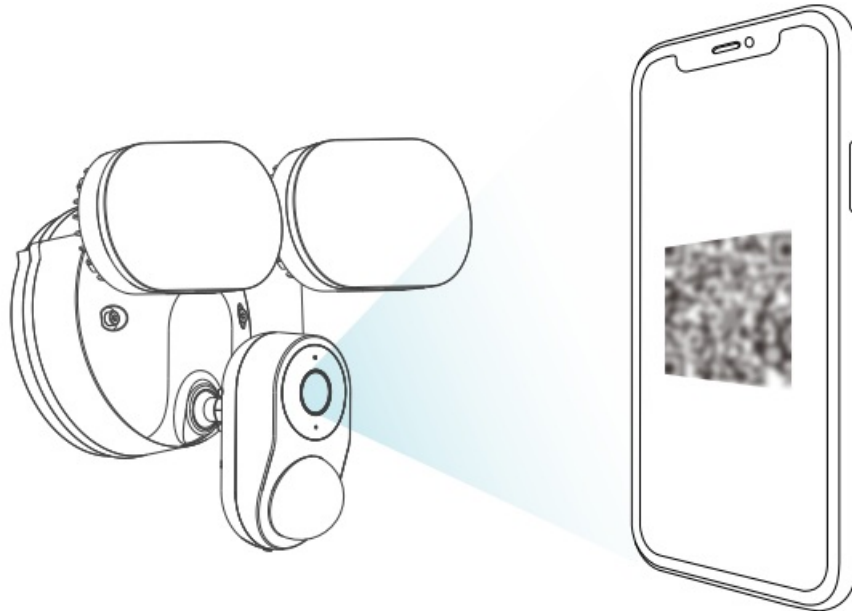

9. The camera will beep when it receives the QR code. Press 'I heard a Prompt' then. The camera will start pairing

   When connecting, you should make sure your router, mobile phone, and camera are as close as possible

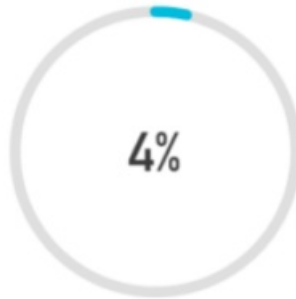

No Prompts

I Heard a Prompt

10. Wait until the camera is connected online and finish setting up

    If the pairing is not successful, press the Reset button for 5 seconds until you hear a beep and start again. Or check the FAQ section in the User Manual for more troubleshooting steps

amazon alexa

LaView has been successfully linked.

What to do next:
→ Close this window to discover smart-home devices you can control with Alexa.

10. Tap 'DISCOVER DEVICES'

CANCEL

DISCOVER DEVICES

11. Wait until the Alexa APP discovers the LaView camera. Check the following if Alexa repeatedly fails to discover the camera.

   A. Ensure the LaView camera, the Alexa device, and your phone is connected to the same Wi-Fi network.

   B. Ensure the LaView camera is powered on and set up in the LaView APP.

   C. Ensure the Alexa device, such as Echo Show, is set up and connected.

   D. Ensure the camera is added to the LaView account that is linked to the LaView Skill in the Alexa APP

Alexa is looking for devices to connect...

This may take up to 45 seconds
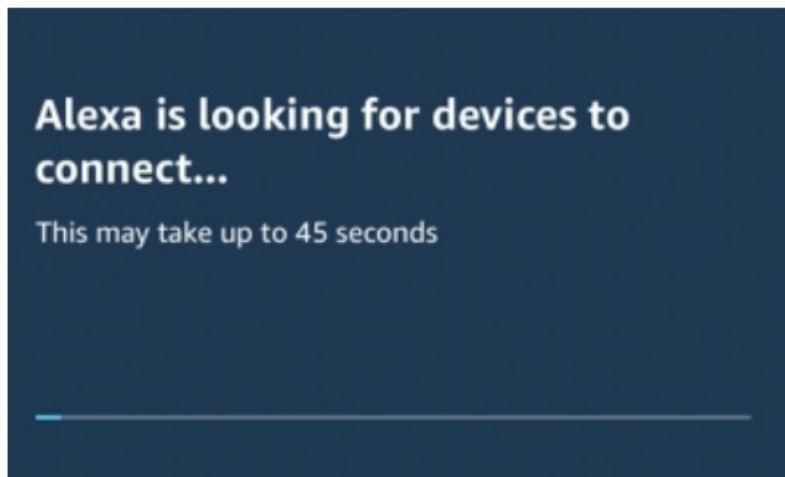

12. You can now tell your Echo device to show the camera feed by calling Alexa, Show Baby Room: You can change and update the camera name in the LaView APP camera menu. (Refer to Step 3)
