What's in the box

Consult the checklist below for all components.

Introduction

Power	AC 100~240V
Status light	Red light solids on: the camera network is abnormal Blinking red light: awaiting WiFi connecting Blue light solids on: camera running correctly Blinking blue light: currently connecting
Microphone	Records sound for your video
SD card slot	Supports local SD Card storage (Max.128G)
Reset	Press and hold the 'reset' for 5 seconds to reset the device(if you have modified settings, they will return to factory defaults)
Light	Turn the light on/off manually or automatically

If the wires are placed in an outdoor environment, the included waterproof terminal is suggested to use.
For the Europe Region

NOTE: Different countries may have different colors for wiring. Please connect the wires of the same color together.

**** Note**

- A. Fix the camera
- B. Adjust the angle
- C. Adjust the direction and fix the camera.

Connection

Download

Anti is available for both iOS and Android OS. Search the name 'Anti' in App Store or Android Market, or scan the below QR-Code to download the App.

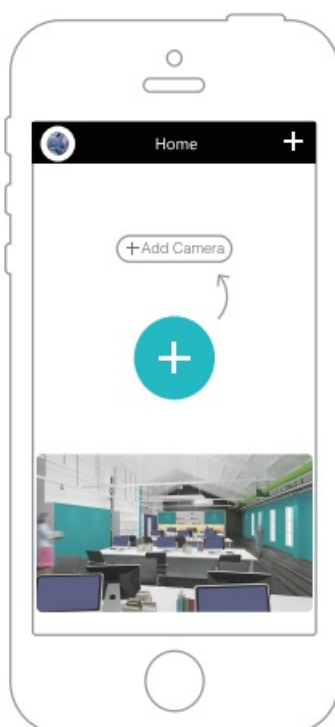

Arenti

<https://itunes.apple.com/app/arenti/id1495605136?mt=8>

Add device

Log in the Arenti, select “Add Device”, and add the smart camera to the App according to the screen tips(Make the smart camera close to the router when configuring).

NOTE: If you need to re-select the WiFi network, please press and hold the “RESET” button for 5 seconds, the device will restart, and the indicator will be flashing red.

Function

Lighting Control

You can turn the light on or off with time setting or PIR.

Full-Duplex Audio

You can see and hear the visitor in your App from the camera.

PIR

When the camera detects someone stopping by, it sends an alarm message to your cell phone.

Record

Using SD card or activating the Cloud-Storage Service to keep recording for every moment.

Day & Night

Powerful night vision without any interruption, even in complete darkness.

Daytime

Night

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
