LectroFan®

LectroFan ASM1007-G High Fidelity Noise Machine

PRODUCT DESCRIPTION

LectroFan is the most versatile fan-sound and white-noise machine for relaxation, study, and speech privacy. It's also your white noise and fan-sound machine to ensure a better night's sleep and peaceful rest. The LectroFan offers twenty unique digital sounds to mask noises. You can choose from ten different electric fan sounds and ten variations of pure white noise. All sounds can be personalized with pin-point volume control to select across a wide range of sound levels, from a whisper, to many times louder than mechanical fan-based conditioners. With two power options (the included AC adapter or a power USB source), you can also enjoy LectroFan's on-the-go flexibility for great travel rest and sound masking!

FEATURES INCLUDE

- 20 Unique Digital Sounds (10 Fan Sounds + 10 White Noises)
- Excellent Noise Masking (Up to 20dB louder than competing machines)
- Precise Volume Control (1dB increment control for 10x quieter–10x louder than fan machines)
- Small, sleek, and stylish functional design
- Upward-facing speakers for full-room sound
- Built-in Timer Function for gentle turn off in 60, 120, 180 minutes or left on all night
- Power adapter works from 100–240 volts, 50/60 Hz for ease of use to support international travel

FAQs

What is the LectroFan ASM1007-G High Fidelity Noise Machine?

The LectroFan ASM1007-G is a high-fidelity noise machine designed to provide a variety of soothing sounds for relaxation, sleep, and masking unwanted noise.

How many sound options does this noise machine offer?

The LectroFan ASM1007-G offers a wide range of 20 different sound options, including white noise, fan sounds, nature sounds, and more.

Is this noise machine suitable for both adults and infants?

Yes, it is suitable for both adults and infants, as it can help create a calming and sleep-inducing environment for all ages.

Can I adjust the volume of the sound?

Yes, you can easily adjust the volume of the sounds to your desired level, allowing for customized sound therapy.

Does it have a timer function?

Yes, the LectroFan ASM1007-G includes a timer function, which allows you to set it to automatically turn off after a specified duration.

Is it portable and travel-friendly?

Yes, it is compact and portable, making it suitable for travel and use in various settings such as hotels or offices.

Can I power it using batteries?

The LectorFan ASM1007-G is typically powered via an AC adapter, but some models may support battery operation as well.

Does it have a headphone jack for private listening?

No, this noise machine doesn't usually have a headphone jack; it is designed for ambient sound generation.

Can I mount it on the wall or ceiling?

It's generally designed to be placed on a flat surface, but some users may find creative ways to mount it if desired.

Is it safe for use throughout the night?

Yes, it is safe for extended use, and its energy-efficient design allows it to run quietly and cool for long durations.

Is it easy to clean and maintain?

Cleaning requirements are typically minimal; wiping the surface with a dry cloth should suffice for maintenance.

Does it have a warranty?

The LectorFan ASM1007-G usually comes with a warranty, and the duration may vary depending on the manufacturer's policy.

Can I use it to improve concentration and focus?

Yes, the variety of sound options can also be used to create a focused and productive work environment.

Is it suitable for use in a baby's nursery?

Yes, many parents use this noise machine to create a calming atmosphere for infants and aid in sleep.

Can I customize the sound settings?

While you can't typically customize the individual sounds, you can choose from the available preset options.

Is it energy-efficient?

Yes, the LectorFan ASM1007-G is designed to be energy-efficient and consumes very little power during operation.
