LEDGER Nano X Crypto Hardware Wallet

USE And Care

Please handle your LEDGER-NANO-X with care. It includes a battery and other sensitive components. The LEDGER-NANO-X is not waterproof. Make sure you use it in a dry environment and keep it away from any liquids. In case it gets wet, clean it with a soft, dry, lint free cloth. This product is not a toy, make sure you keep it away from children. The LEDGER-NANO-X is intended to (i) operate with its pre-installed operating system (BOLOS) and the Ledger Live application and to (ii) interoperate with a compatible mobile phone with Bluetooth® wireless technology and with a compatible computer via the provided USB cable. Changes or modifications to this product not expressly approved by Ledger could void its compliance to test standards and negate the user's authority to operate it.

Keep small cells and batteries which are considered swallowable out of the reach of children. Swallowing may lead to burns, perforation of soft tissue and death. Severe burns can occur within 2h of ingestion. In case of ingestion of a cell or battery, seek medical assistance promptly. Power rating: 3,7V d.c.c, 100mAh

The manufacturer, Ledger SAS (1, rue du mail – 75002 – Paris – France), hereby declares that the Ledger Nano X complies with European RED and RoHS2 Directives. The full text of the EU declaration of conformity, including the product frequency bands and maximum radio-frequency power is available at the following address: ledger.com/legal This symbol indicates that your product must be disposed of according to local laws and regulations without mixing it with unsorted municipal waste.

LEDGER-NANO-X REGULATORY

When your product reaches its end of life, contact Ledger or your local authorities to learn about recycling options. Proper treatment and recycling of your product will help conserving natural resources, protecting environment and human health. Please note that the lithium-polymer battery included in your Ledger Nano X shall be deposited separately from the device for proper waste management. Please contact us at support@ledger.com for safe battery removal instructions.

US AND CANADA REGULATORY STATEMENTS

This equipment complies with FCC/ISED radiation exposure limits set forth for an uncontrolled environment. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Canada: CAN ICES-3 (B)NMB-3(B)

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

1. this device may not cause interference, and
2. this device must accept any interference, including interference that may cause undesired operation of the device.
