LEEDARSON

LEEDARSON 11A19060WCCTM LED Lamp

Product Information

- **Product Name:** [Insert Product Name Here]
- **Model No.:** [Insert Model Number Here]
- **FCC ID:** [Insert FCC ID Here]
- **Microwave Frequency Band:** [Insert Frequency Band Here]
- **Working Voltage:** [Insert Working Voltage Here]

Product Usage Instructions

1. Ensure that the product is connected to a power source with the appropriate working voltage.
2. Refer to the product manual for specific usage instructions related to the microwave frequency band and FCC ID.
3. Use the product according to its intended purpose and in accordance with any safety warnings or usage instructions provided.
4. If you experience any issues with the product or have any questions, refer to the product manual or contact customer support for assistance.

Product Specification

- **Product Name** LED LAMP
- **Model No.** 11A19060WCCTMXX
- **FCC ID** 2AB2Q-11A19060WCCTM
- **Microwave Frequency Band** 5.8 GHz±75MHz
- **Working Voltage** 120Vac

FCC Rules

For additional help, regulatory and safety Information, please go to: Federal Communications Commission (FCC) Interference Statement This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

When the bulb powered on, the bulb will lights on about 10s, then light off, the motion sensor starts to detect the react it based on the movement around.
