THE **NEW** CONNECTED
THERMOSTAT
Smarter
WITH
Netatmo

— ■ POWERED BY SPECIALISTS

 **legrand**®

Essential design and
maximum comfort,
wherever you are.

Smarther
WITH
Netatmo

The Smarther with Netatmo
connected thermostat
monitors and controls the
temperature of the home
simply. With the Home +
Control app and compatibility
with virtual assistants, users
have smart management of
their home temperature.

The Smarther with Netatmo
thermostat forms part of
Eliot - Legrand's connected
devices programme.

Comfort and saving

SETTING PROGRAMMES

Using the Home + Control app, it's possible to create preset programmes based on user habits.

AWAY

Users can adjust the thermostat remotely via the app whenever they are away from home.

BOOST

The boost function can be used to activate the heating or cooling system for a limited time (30, 60 or 90 minutes), without affecting the set programme and temperature.

App

Voice control

Device

MONITORING ENERGY USE

Using the Home + Control app, it's possible to control and monitor consumption.

MAXIMUM COMFORT IN EVERY ZONE

Using the same app, users can manage several thermostats in the same home or in different homes, as well as setting the desired temperature in every room for maximum comfort.

Ease of use

A simple and intuitive connected thermostat

LOCAL DEVICE CONTROL

VOICE CONTROL

It's also possible to manage the heating with your voice using virtual assistants; Siri (Apple), Google Assistant, Amazon Alexa. For example:
GOOGLE: "Ok Google, set the kitchen to 21°C"
AMAZON: "Alexa, increase the living room temperature by 3°C"
APPLE: "Siri, set the temperature to 20°C"

GEOLOCATION

When used in conjunction with virtual assistants, it is possible to create a routine which is triggered by your location, for example switching off the heating when users leave the home to save energy.

Display the temperature and set it as desired

Display the set temperature and humidity

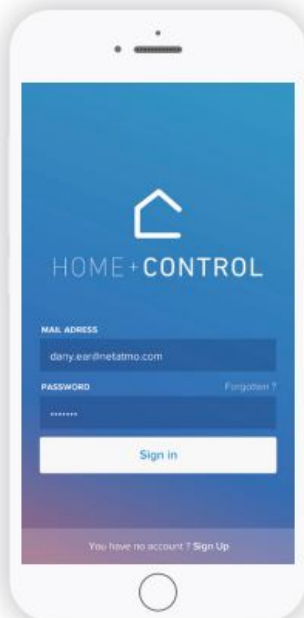

Activate the boost function

Home + Control app

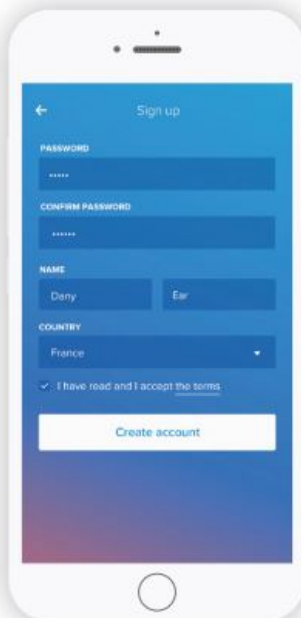

- Remotely manage the thermostat, simply and intuitively
- Create and modify weekly programmes
- Manage the thermostat from several smartphones and by different users
- Control several thermostats in the same home or different homes
- Manage thermostat updates

Set up the connected thermostat in a few simple steps

1

Download and install the Home + Control app

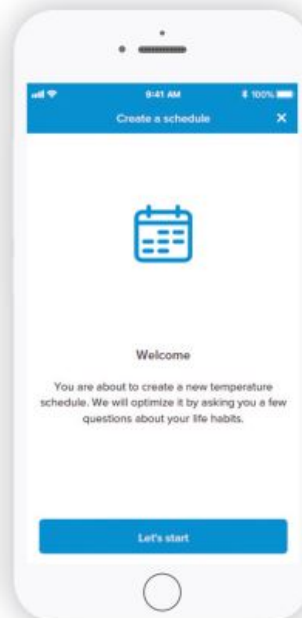

2

Create an account

3

Connect the thermostat to the home's Wi-Fi network

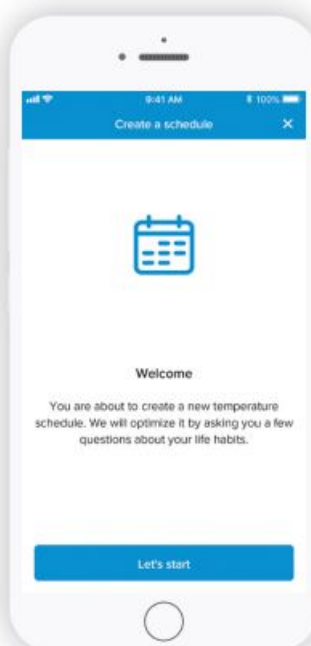

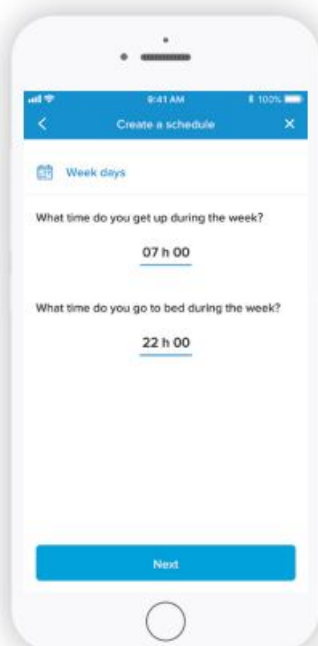

4

Begin to set new programmes

SETTING PROGRAMMES

- Choose the guided process to set daily and weekly programmes
- Set the desired temperature for day and night or whilst away from the home
- The programme is ready for use

For help and assistance please contact the Legrand UK & Ireland technical team: +44 (0) 370 608 9020

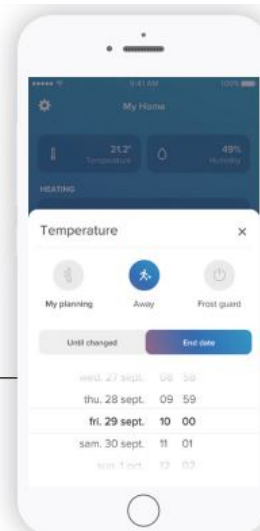

The Home + Control app is available on

AWAY

It is possible to control the home at any time:

- Change the temperature or the set program
- Set the away and frost-guard functions without affecting the set programme

BOOST FUNCTION

Activate heating or cooling for a limited time, regardless of the set programme or room temperature.

Once the boost function has ended, the set programme will be restored.

- Click on the 'boost' function icon
- Select the duration (30, 60, or 90 minutes) and confirm

MONITORING ENERGY USE

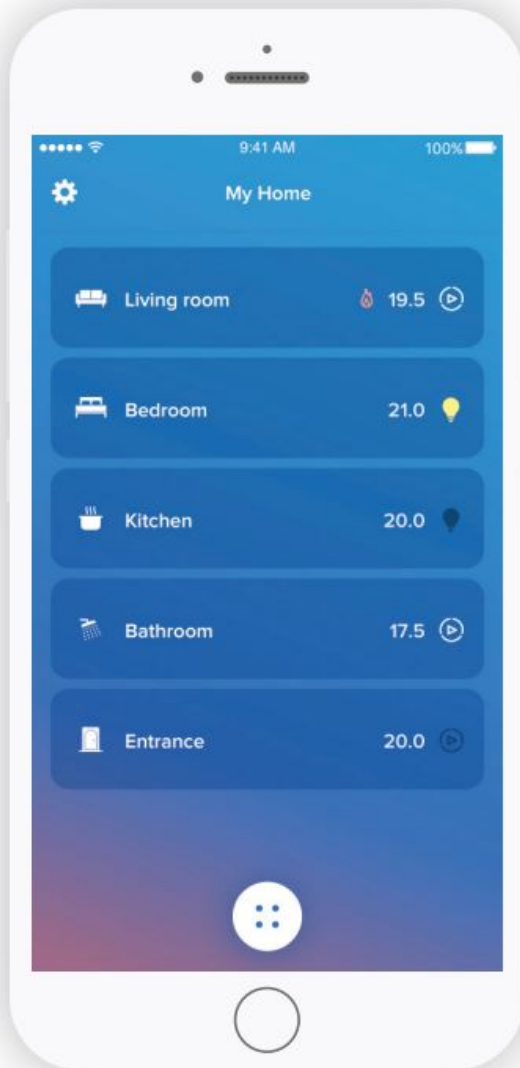

- Easily monitor and control the home's heating use and check the status of set programmes

Maximum comfort in every zone

Multiple thermostats? Multiple homes?

As well as a single device you
can also manage:

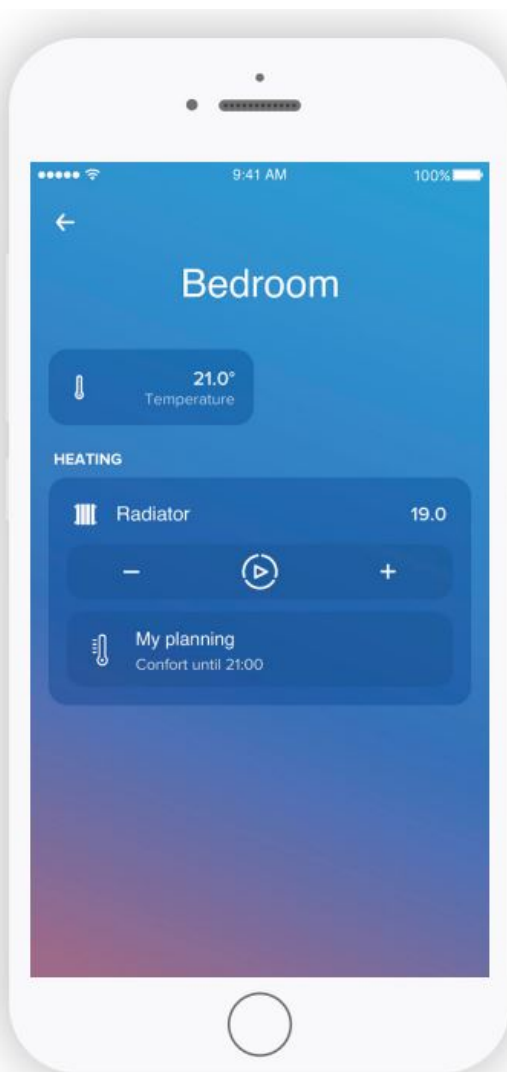

Several thermostats in the same
home (zone isolation of the system)

Thermostats in different buildings
(main home and second home)

Heating system with radiators?

Setting the temperature of every room with Smarter with Netatmo is simple:

Using the same Home + Control app, users can control and adjust smart radiator valves installed on radiators.

How to install

Smarter with Netatmo flush mounted thermostat

Cat. Nos. 049038 - 049039

Can be installed:

- flush mounted using Cat. Nos. 080041 or 503E
- using plasterboard boxes Cat. Nos. PB503 and PB502

Smarter with Netatmo wall mounted thermostat

Cat. Nos. 049040

In both types of installation prepare four cables:
- two for the 230V AC power supply
- two for the boiler contact

Replace old thermostats, whether flush or wall mounted.

The new connected thermostat is an ideal solution for both new installations and replacing an old thermostat, whether flush or wall mounted.

When replacing an old battery thermostat, you will need two wires for the 230V AC power supply.

REPLACE AN OLD SMARTHER CONNECTED THERMOSTAT WITH THE NEW SMARTHER WITH NETATMO**

	<div>  </div> SMARTHER 049036 – 049037	<div>  </div> SMARTHER WITH NETATMO 049038 - 049039 - 049040
Range	Flush mounted: white Wall mounted: white	Flush mounted: white and black Wall mounted: white
App	Bticino Thermostat	Home + Control
Voice control	Google Assistant and Amazon Alexa	Google Assistant, Amazon Alexa and Apple HomeKit
Geolocation	Using the dedicated app	Using the virtual assistant app
Monitoring of consumption	No	Yes
Management of Netatmo radiator valves	No	Yes
Energy class	Class 1	Class 4

** Items 049036 and 049037 cannot be updated: to enjoy all the new functions they must be replaced with a new connected thermostat

Documents / Resources

 The image shows a white, rectangular smart thermostat with a digital display showing '20.0'. It is mounted on a wall. Below the thermostat, there is a small graphic of a smartphone displaying the thermostat's app interface. The text 'THE NEW CONNECTED THERMOSTAT Smarter with Netatmo' is visible on the thermostat's display area. The Legrand logo is at the bottom right of the image.	<p>legrand 049039 Connected Thermostat Smarter with Netatmo Flush Mounting [pdf] User Guide</p> <p>049039, Connected Thermostat Smarter with Netatmo Flush Mounting, 049039 Connected Thermostat Smarter with Netatmo Flush Mounting</p>
