legrand 069830L Plexo Socket

Specifications

- **Range:** Plexo™
- **Weatherproof rating:** IP55
- **Installation:** Surface-mounted or flush-mounted
- **Available finishes:** Contemporary, Essential, Pure, Natural, Anthracite Grey, White, Sand

Installation

The Plexo range of wiring accessories is designed to provide protection against splashing water and accumulation of dust. It can be installed either surface-mounted for renovation or flush-mounted for an understated, discreet finish.

Freedom of Installation

Plexo has been updated with a redesigned product architecture.

The new plate concept with shallow depth and space around the mechanism makes wiring easier. The installation process is toolless and allows for two possible wiring modes.

An iconic name,

A contemporary design

- The go-to range of weatherproof wiring accessories, Plexo has adopted current trends with contemporary lines.
- A design with character.
- A strong offer.

No limit to

where it can be used

The Plexo range of wiring accessories is designed to provide protection against splashing water and accumulation of dust. Install Plexo:

- in damp places: garages, professional kitchens etc.
- outdoors: shopping centre shopfronts, public or private car parks etc.
- Available either surface-mounted for renovation or flush-mounted for an understated, discreet finish.

Plexo™ style

something to suit every taste

The range has been expanded to 4 finishes to fit in with every trend in any location. You will find a colour to suit all your projects, both indoors and outdoors.

Contemporary

Sand

freedom of installation

Plexo has been updated with a redesigned product architecture. Discover the new plate concept with shallow depth and space around the mechanism, making wiring easier.

Guaranteed ease of installation

- Twice as much wiring space.
- Even simpler to install.
- Freedom of movement when wiring or creating tap-offs.

Toolless

A movable mechanism.

Wire up products as you please

2 possible wiring modes.

horizontally or vertically

Plexo can adapt to any situation and is simple to install in a multi-gang configuration.

Save time on your projects...

Same catalogue number for
surface-mounting box and flush-mounting support, whether for horizontal or vertical installation.

and benefit from more flexibility

No need for tools, just clip and pivot the mechanism and the job's done!

Plexo™

rugged and suitable for any situation

- The plate and frame give the product extra rigidity on an uneven surface.
- Redesigned seals and weatherproofing membranes positioned at the main product assembly points.
- An IP 55 range for safe use on any installation site and in any environment.

WEATHERPROOF RUGGED

Plexo™

more than 100 accessible functions

With the most extensive offer on the market, Plexo is available in flush-mounting or surface-mounting, complete and modular versions, to suit:

- all requirements and all types of use: single or double switches, with or without indicators, motion sensors, multi-gang sockets, etc.
- all sites and activity sectors: commercial, industrial, residential etc.

With the Mosaic adaptor, you have an even greater choice with significantly more functions.

Keyswitches

Keyswitches allow you to restrict control of the circuit to prevent untimely power cuts on logistics or industrial sites.

Plexo™

lighting control units

- Double switch and transformer
- The double switch and transformer combine several functions in a single catalog number.
- A simple ¼ turn changes from one function to another.
- These products are ideal for reducing your stock on sites and carrying out maintenance and repairs with greater flexibility!

Double push-button

OR

Double two-way switch

OR

Two-way switch + two-way push-button

Transformer: a 5 in 1 product
5 lighting controls can be created:

Plexo™ functions:

Power distribution

Simple and modular, the Plexo range extends the fields of possibility and can adapt to any location, lifestyle and type of use.

2P+E sockets

- Thanks to its easy installation, you can wire up Plexo sockets without tools thanks to their quick connection.
- Available with up to 3 gangs for either horizontal or vertical installation, these power sockets allow electrical appliances to be plugged in in damp places or outdoors, and guarantee weatherproofing and ruggedness.
- There is also a socket dedicated to electric bikes, which can easily be identified thanks to its pictogram.

Prewired double and triple sockets

Complete, ready-to-install products

Green'Up Access

Discover the Green'up Access socket with the new Plexo design!

This heavy-duty socket, for use with electric and plug-in hybrid vehicles, features an exclusive Legrand patented system*. It can release the maximum power from the socket outlet on contact with the vehicle.

It can charge an electric or plug-in hybrid vehicle twice as fast as a domestic socket!

*For the system to work properly, the vehicle must be compatible with GREEN'UP SYSTEM technology. Ask your Legrand agent for more information.

Plexo™ functions

For even more possibilities

Mosaic™ adaptor with safety flap

The Mosaic™ adaptor with safety flap can incorporate a Mosaic™ mechanism without a support in a Plexo IP 55 design, making them weatherproof and shock-resistant regardless of which functions are included.

It extends the range of possibilities with, in particular, USB Type-C, RJ 45, TV sockets, etc.

A harmonious design

Plexo™ and Mosaic™ in perfect harmony!

Anthracite finishes

Anthracite finishes

Grey finishes

White finishes

Plexo™

with Netatmo

Plexo™ with Netatmo, the Plexo™ connected version, can be used to control lighting, roller shutters and electrical

appliances locally or remotely via the Home + Control app.
 First install a “with Netatmo” connected starter pack.
 Complete the installation with wireless switches, which can be voice-controlled manually via voice assistants (Apple Siri, Amazon Alexa, Google Assistant), and also controlled remotely on a smartphone with the Home + Control app

CONNECTED

- Dim the lights by simply pressing your switch, your smartphone or using your voice via a voice assistant.
- Receive notifications of power failures on your smartphone and monitor your consumption.
- Control your lights and connected power outlets with control points that need neither wires, nor batteries.

for electric vehicles

0 607 85L

0 608 85L

- Used for safely charging rechargeable electric and hybrid vehicles which take Mode 2 cord (compatible with Mode 1)
- Suitable for residential and workplace use
- Connected to the consumer panel via one 3 x 2.5 mm² dedicated line
- (1 line per socket) protected by 30 mA – 20 A C curve, F type (Hpi) RCBOs Cat.No 4 107 54 or 4 108 56 (or 30 mA F type (Hpi) RCCB + 20 A C curve circuit breaker)
- The use of a surge protective device is recommended
- Recommended installation height: between 0.80 and 1.20 m from the floor

Pack	Cat.Nos	16 A EV sockets
		Heavy-duty mechanisms with silvered contacts Single-phase sockets - screw connection - 230 V For charging 1 vehicle Conform to NF C 61-314 and IEC 60-884-1 standards Suitable for installation in private houses, lock-up garages, parking lots, etc
		IP 55 - IK 08 - 16 A - 230 V - Plexo Automatic terminals, with shutters Can be used with base Cat.no 0 694 94L to hang up the vehicle charging cable control box
		● Anthracite

		French standard mechanism, to be equipped with a Plexo IP 55 flush-mounting support frame or surface mounting box (p.39) German standard mechanism, to be equipped with a Plexo IP 55 flush-mounting support frame or surface mounting box (p.39)
		Base
1	0 694 94L	For hanging up the vehicle charging cable control box

Green'upTM Access sockets

for electric vehicles

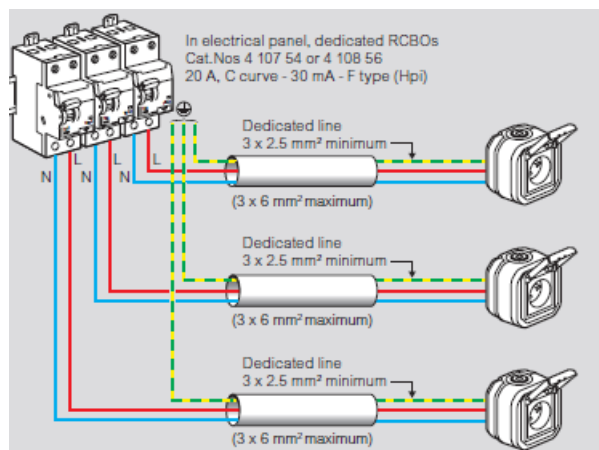

The innovative Green'up system, a Legrand Group technology, activates “maximum power” mode, ensuring fast and safe charging.

Installation principle for an individual Mode 2 socket

- Can be controlled by clock/switch type control units... (to be ordered separately)
- The use of a surge protective device is recommended

Installation principle for several Mode 2 sockets

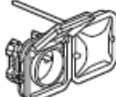

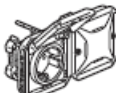

- Can be controlled by clock/switch type control units... (to be ordered separately)
- The use of a surge protective device is recommended

switches and socket outlets

Used to complete your connected installation, require prior installation of a starter pack for connected installation
Zigbee 3.0 compatible

Pack	Cat.Nos	Connected light switches
		<p>For local or remote control of lighting Compatible with all loads (dimmable LEDs mandatory if dimmer mode is activated) Dimmer mode and locator/ indicator function can be activated from the Home + Control App Can be paired with one or more wireless controls or push-buttons Can be installed in place of an existing switch in a flush-mounting box 40 mm deep Screw fixing. Multi-gang installation possible To be equipped with a flush-mounting support frame or surface mounting box (p. 39)</p> <p>5-125 W LED without neutral - 230 V~ (with dimmer option) Allows to control lights by voice (via a voice assistant) Supplied with a bleeder</p> <p>1 0 698 75L 1 0 698 95L</p> <p>1 0 698 76L 1 0 698 96L</p> <p>● Grey ● Anthracite</p> <p>● Grey ● Anthracite</p>

		Wireless and batteryless light switch - 1-gang
		Used to add an extra lighting control Pair by tapping on the selected wired products (switches, micromodules, sockets and cable outlets) or via the Home + Control App Supplied complete with removable stickers for fixing the control unit on any substrate Extra-flat switch Can be used as a weatherproof remote control
