**LENA LIGHTING IP66 Mitra LED Basic**

## Product Information

The product is called "MITRA LED BASIC" and it is a luminaire with an IP66 rating. It operates on a 220-240V AC power supply at a frequency of 50-60 Hz. The product is manufactured by LENA LIGHTING S.A., located at ul.Kornicka 52, 63-000 Sroda Wlkp., POLAND. The contact details for the company are as follows: tel. +48 61 28 60 300, e-mail: [office@lenalighting.pl](mailto:office@lenalighting.pl), website: [www.lenalighting.pl](http://www.lenalighting.pl).

## Product Usage Instructions

1. Assembly of the product should be carried out by a qualified person.
2. To clean dirtiness that settles down on the diffuser due to normal operation, use a damp cloth. Do not use abrasive cleaners.
3. The light source used in this luminaire should only be replaced by the manufacturer or his maintenance representative, or a similarly qualified person.
4. Ensure proper lamp direction according to the intended use (street/road/path).
5. Make sure to tighten the screws with a torque of 6 Nm during installation.

Assembly should be carried out by a qualified person.

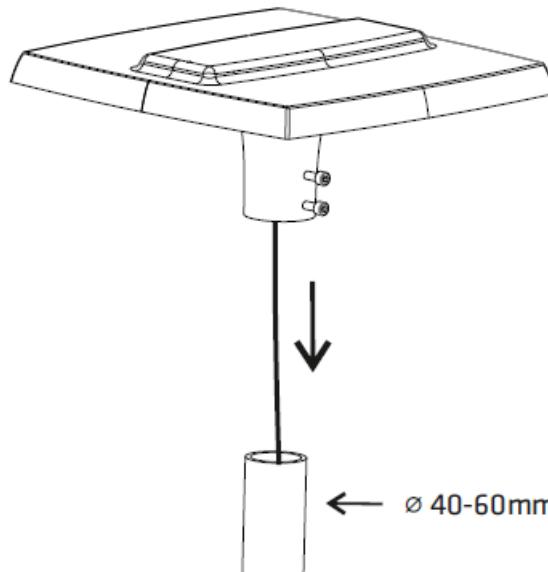

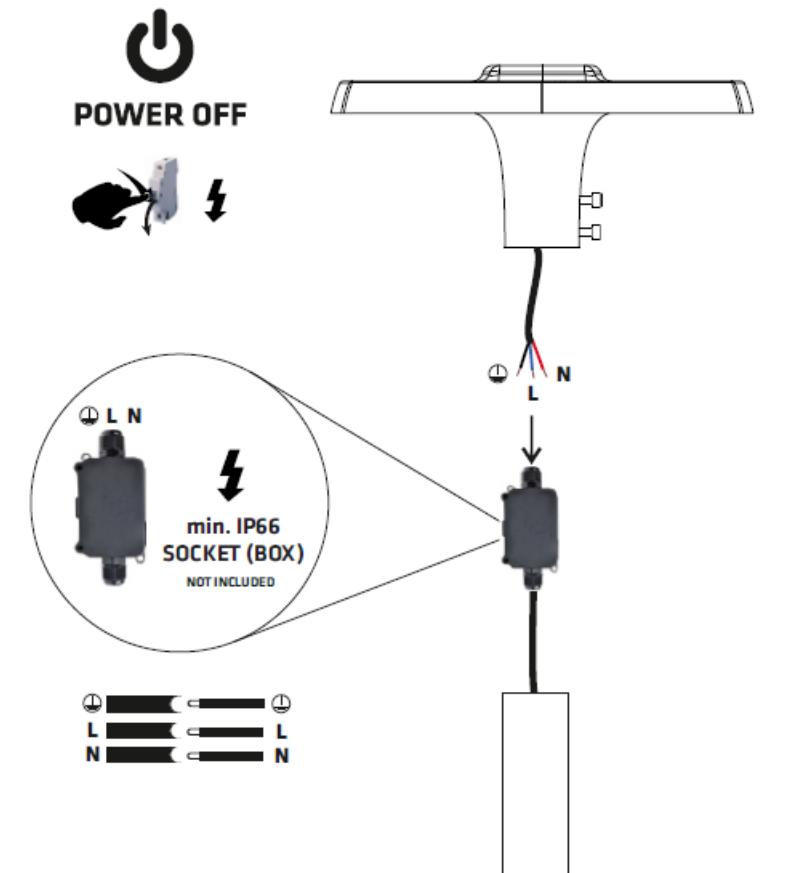

Dirtiness that settles down on the diffuser due to normal operation of the fitting shall be cleaned with a damp cloth. Do not use abrasive cleaners.

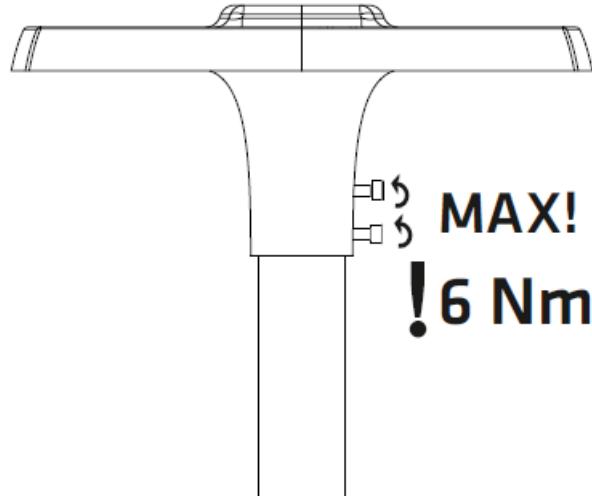

## European Directive

We would like to inform you that our products are marked in accordance with the European Directive 2002/96/CE and Polish Act on used electric and electronic equipment with a sign of a crossed-out waste container: This mark informs about the fact that the device, after its application use, cannot be placed together with other types of household waste. The user is obliged to return it to the entities conducting a collection of used electric and electronic equipment. The collection points, including local collection points, shops, and municipal entities create a proper system making it possible for the return of the equipment. Proper proceeding with used electric

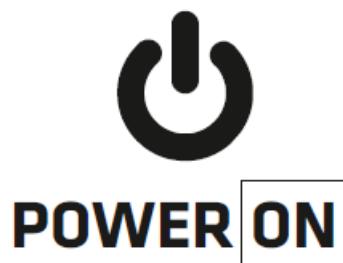

and electronic equipment contributes to the avoidance of damaging consequences for the health of the inhabitants and natural environment which result from the presence of dangerous substances and improper storage and processing of such devices and equipment.
