Lenco Xemio-768 Player with Bluetooth

CAUTION:
Usage of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Contents

PRECAUTIONS BEFORE USE

KEEP THESE INSTRUCTIONS IN MIND:

1. Do not cover or block any ventilation openings. When placing the device on a shelf, leave 5 cm (2") free space around the whole device.

2. Install in accordance with the supplied user manual.

3. Keep the device away from heat sources such as radiators, heaters, stoves, candles and other heat-generating products or naked flame. The device can only be used in moderate climates. Extremely cold or warm environments should be avoided. Working temperature between 0° and 35°C.

4. Avoid using the device near strong magnetic fields.

5. Electrostatic discharge can disturb normal usage of this device. If so, simply reset and restart the device following the instruction manual. During file transmission, please handle with care and operate in a static-free environment.

6. Warning! Never insert an object into the product through the vents or openings. High voltage flows through the product and inserting an object can cause electric shock and/or short circuit internal parts. For the same reason, do not spill water or liquid on the product.

7. Do not use in wet or moist areas such as bathrooms, steamy kitchens or near swimming pools.

8. The device shall not be exposed to dripping or splashing and make sure that no objects filled with liquids, such as vases, are placed on or near the apparatus.

9. Do not use this device when condensation may occur. When the unit is used in a warm wet room with damp,

water droplets or condensation may occur inside the unit and the unit may not function properly; let the unit stand in power OFF for 1 or 2 hours before turning on the power: the unit should be dry before getting any power.

10. Although this device is manufactured with the utmost care and checked several times before leaving the factory, it is still possible that problems may occur, as with all electrical appliances. If you notice smoke, an excessive build-up of heat or any other unexpected phenomena, you should disconnect the plug from the main power socket immediately.

11. This device must operate on a power source as specified on the specification label. If you are not sure of the type of power supply used in your home, consult your dealer or local power company.

12. Keep away from animals. Some animals enjoy biting on power cords.

13. To clean the device, use a soft dry cloth. Do not use solvents or petrol based fluids.
    To remove severe stains, you may use a damp cloth with dilute detergent.

14. The supplier is not responsible for damage or lost data caused by malfunction, misuse, modification of the device or battery replacement.

15. Do not interrupt the connection when the device is formatting or transferring files. Otherwise, data may be corrupted or lost.

16. If the unit has USB playback function, the USB memory stick should be plugged into the unit directly. Don't use an USB extension cable because it can cause interference resulting in failing of data.

17. The rating label has been marked on the bottom or back panel of the device.

18. This device is not intended for use by people (including children) with physical, sensory or mental disabilities, or a lack of experience and knowledge, unless they're under supervision or have received instructions about the correct use of the device by the person who is responsible for their safety.

19. This product is intended for non professional use only and not for commercial or industrial use.

20. Make sure the unit is adjusted to a stable position. Damage caused by using this product in an unstable position vibrations or shocks or by failure to follow any other warning or precaution contained within this user manual will not be covered by warranty.

21. Never remove the casing of this device.

22. Never place this device on other electrical equipment.

23. Do not allow children access to plastic bags.

24. Only use attachments/accessories specified by the manufacturer.

25. Refer all servicing to qualified service personnel. Servicing is required when the device has been damaged in any way, such as the power supply cord or the plug, when liquid has been spilled or objects have fallen into the device, when the device has been exposed to rain or moisture, does not operate normally, or has been dropped.

26. Long exposure to loud sounds from personal music players may lead to temporary or permanent hearing loss.

27. If the product is delivered with power cable or AC power adaptor:
    If any trouble occur, disconnect the AC power cord and refer servicing to qualified personnel.
    Don't step on or pinch the power adaptor. Be very careful, particularly near the plugs and the cable's exit point.
    Do not place heavy items on the power adaptor, which may damage it. Keep the entire device out of children's reach! When playing with the power cable, they can seriously injure themselves.
    Unplug this device during lightning storms or when unused for a long period.
    The socket outlet must be installed near the equipment and must be easily accessible.
    Do not overload ac outlets or extension cords. Overloading can cause
    fire or electric shock.

Devices with class 1 construction should be connected to a main socket outlet with a protective earthed connection.

Devices with class 2 construction do not require a earthed connection.

Always hold the plug when pulling it out of the main supply socket. Do not pull the power cord. This can cause a short circuit.

Do not use a damaged power cord or plug or a loose outlet. Doing so may result in fire or electric shock.

28. If the product contains or is delivered with a remote control containing coin/cell batteries:

Warning:

"Do not ingest battery, Chemical Burn Hazard" or equivalent working.

[The remote control supplied with] This product contains a coin/button cell battery. If the battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.

Keep new and used batteries away from children.

If the battery compartment does not close securely, stop using the product and keep it away from children.

If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

29. Caution about the use of Batteries:

Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

Battery cannot be subjected to high or low extreme temperatures, low air pressure at high altitude during use, storage or transportation.

Replacement of a battery with an incorrect type that can result in an explosion or the leakage of flammable liquid or gas.

Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.

Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or that leakage of flammable liquid or gas.

A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

Attention should be drawn to the environmental aspects of battery disposal.

INSTALLATION

- Unpack all parts and remove protective material.
- Do not connect the unit to the mains before checking the mains voltage and before all other connections have been made.

 WARNING: When participating in the traffic listening to a personal music player can make the listener less aware of potential dangers such as approaching cars.

 WARNING: To prevent possible hearing damage, do not listen at high volume levels for long

periods.

Note: Make sure the player power is in "Off" status when insert / remove the Micro SD memory card from mem ory card slot. Otherwise, the player functional may result dead halt or the internal data / files will be lost or damaged.

About Player Battery

Player has an internal, non–user-replaceable battery. For best results, the first time you use player, let it charge for about 3 ~ 4 hours or until the battery status icon in the "Connect" screen shows that the battery is in full.

Battery is full
Note: Player may continue use battery power after it's been turned off. For maintain the battery life and performance, if unit isn't used for a while, the battery need to be recharged, recharging the battery at least once per month.

Warning: better use the original USB cable delivered with your MP3 player. This cable is a data and charging cable. Some other USB cables in the market are charging only cables. If you use a charging only cable to transfer data from your computer to your player, it will only show the battery symbol on the screen and will not be detected by your computer as an external drive; this means that you cannot transfer any files from your computer to your MP3 player.

Note :
The player contains a built-in temperature monitor sensor. If it senses that the battery pack temperature is not in good condition it will control and stop the charging function. The charging function will be automatically restored when the detected battery pack temperature returns to within normal limits.

a. Charging the Battery:

You can charge the player battery in two ways:

- Connect player to your computer. Or,
- Use the USB power charger. (not included)

- Choose "No" to abort.

f. Page Select: (goto page)

- Choose "Page Select", a list menu appear to choose;
- Choose your desired number of page where go to by using / and then press button, the page will direct to desired page from current reading page.
- However, system defaulted range of number can be selected is limited, which mean you may not go into the exactly number of page.

Remark: For example; P_1 = page 1 : p_5x10 = page 50 : P_68x10 = page 680, please refer to the appeared list in Page Select function.

Reset Device

In some circumstances, the device may encounter dead halt during use.
This device has design with built-in a mini tact switch which located at the behind of the earphone jack, so it can provide reset function to restart the device by pass through the earphone jack hole.
To Reset:

- Use a 1mm stick or similar object (like tooth stick), and carefully insert the stick, use dull side, into the earphone jack hole until you feel to hit the end. Actually that is the tact switch button surface.
- Then add a bit of force and you will get a click sound and feeling return from switch. The device is reset and restart in seconds.

Important: Do not reset the device if it is proper working.

Where can I find updates and download?	• Check for latest Software update at **http://www.lenco.com/support/firmware/**

Specification

Dimension	85mm (H) x 41.5mm (W) x 9.0mm (D)
Weight	28.5g
LCD	1.8 inches, Resolution (RGB) 128 x 160
Earphone Impedance	32 Ohm
Memory Card Slot	Micro SD Card (support up to 64GB)
	Lithium 3.7V, 250mAh

Battery	Max. Play Time:	
	• 11.5 ~ 14.5 hours for music at power saving mode • 3 ~ 4 Hours for movie • 4 ~ 5.5 Hours for Bluetooth Transmission at power saving mode	
Power Source	DC Input: 5V 500mA	
Bluetooth	Specification	V4.2
	Frequency	2.402 ~ 2.480GHz
	RF Transmit Power	Class II: Up to +4dBm
	Transmission	MP3, WMA, WAV format Audio only
	Connection Distance	In 10 meters (open area)
Audio	Earphone Output	2mW x 2 at 32 Ohm
	Frequency Responses	100Hz to 20000Hz
	SNR	> 70dB
Music Format	MP3, WMA	32Kbps – 320kbps
	APE, FLAC, WAV	
Movie Format	AVI/AMV	160×120 / 320×240 (max.)
Recorder Coding	WAV	
Picture Format	JPEG / BMP / GIF	
eBook Format	TXT	
Operating Temperature	0 to 40℃	
Operating System	Windows 7/8/10, Mac 9.2 or higher	

This product operates at 2400 – 2483.5 MHz and is designated only to be used inside a normal household environment. This product is suited for this purpose within all EU counties.
