COMMERCIAL TRAINING TOOLBOX TIPS

Lennox CORE Service App Test and Balance/Damper Setup

Applies to Lennox Model L and Enlight Rooftop Units 3-25 tons

Helpful Resources

1. Download installation and service literature from LennoxCommercial.com or LennoxPros.com.

2. **CORE Service App Reference Guide** takes you step-by-step through the startup and commissioning procedures.
3. Log in to LennoxPros.com to start the online **CORE Service Curriculum**.
4. View **Lennox Model L and CORE Control System** videos on YouTube.

Required Tools

1. Download the **CORE Service App** to your mobile devices by scanning these **QR** codes.

The startup technician will use the **CORE Service App** to setup the unit for operation. Configure Damper Positions using the Test and Balance menu.

Pair your device to the Lennox CORE Control System to perform the damper setup steps.

See the excerpt from the **CORE Service App Reference Guide** below. Complete instructions are included in the guide.

From the Unit Operation screen.

Tap the Menu button. (3 lines in the upper left of the screen) to open the menu.

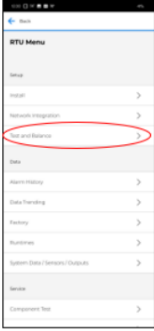

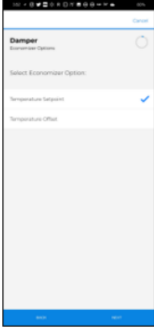

Tap Damper.

Scroll down and tap Test and Balance.

Set desired free cooling enable mode. For this example, select Temperature Setpoint.

Tap the Next button.

Download all **Training Toolbox Tips**
