LiftMaster®

LiftMaster LMLEVPACK-SN Smart Lever Lock Smart Touchscreen Deadbolt Smart Keypad Lever

Product Information

The Yale | LiftMaster Smart Lock is a device that allows you to lock and unlock your door using your smartphone.

It provides convenience and security by eliminating the need for traditional keys.

The smart lock is compatible with the BILT app, which provides 3D interactive instructions for installation and setup. It requires (4) AA alkaline batteries to operate.

Important safety information: The product contains chemicals, including lead, that are known to the State of California to cause cancer or birth defects or other reproductive harm. For more details, please visit www.P65Warnings.ca.gov.

The product is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc. The LiftMaster logo, myQ, and the myQ logo are registered trademarks of The Chamberlain Group, Inc. The Google Play logo is a trademark of Google LLC. The Apple logo, iPhone, and iPad are trademarks of Apple Inc.

Product Usage Instructions

1. **Installation:** Follow the printed installation manual included in the box for step-by-step instructions on how to install your Yale | LiftMaster Smart Lock. For a more interactive experience, download the BILT app on your smartphone or tablet and search for your Yale lock to access 3D instructions.
2. **Battery Installation:** Insert (4) AA alkaline batteries into the smart lock. Make sure to use only alkaline batteries and avoid rechargeable lithium batteries.
3. **Locking and Unlocking:** Once the installation is complete and the batteries are inserted, you can use your smartphone to lock and unlock the door. Open the accompanying app and follow the on-screen instructions to control the smart lock.
4. **Troubleshooting:** If you encounter any issues or need assistance, visit support.chamberlaingroup.com or call Chamberlain Technical Support at 1-833-620-0261 for further help.

Let's get you started

1. Install the Yale | LiftMaster Smart Lock

NOTE: Do not install the batteries or the myQ® Network Module at this time.

Follow the printed installation manual in the box for instructions on how to install your Yale | Liftmaster Smart Lock. You can view 3D, interactive instructions on your smartphone or tablet by downloading the BILT app and searching for your Yale lock

2. Install your myQ® Network Module

- Remove the battery cover and batteries.

IMPORTANT: Batteries must be removed prior to removing and/or inserting the myQ® Network Module.

- Insert the myQ® Network Module, with its visible pins in the bottom right corner, into the slot above the battery compartment.
- Reinstall batteries and battery cover.
- Enter your 4-8 digit Master Pin code followed by ⚙️
- Press 7, followed by ⚙️
- Press 1, followed by ⚙️

3. Turn on Bluetooth®

Be sure your mobile device or tablet is Bluetooth enabled. Check that your mobile device's Wi-Fi® is on or your cell phone displays a strong signal.

4. Download the myQ® App

TIP: If you already have the myQ® App, confirm you have the latest version to optimize your myQ® experience.

5. Add a Device

Create or sign in to your account. Add a new lock and follow instructions in the myQ® App.

FCC STATEMENTS

NOTICE: This device complies with Part 15 of the FCC rules and Industry Canada's license-exempt RSSs.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference,
 2. This device must accept any interference received, including interference that may cause undesired operation.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device must be installed to ensure a minimum 20 cm (8 in.) distance is maintained between users/bystanders and the device

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules and Industry Canada ICES standard. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a

particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
