Important safety instructions! Please read before connection!

DANGER! (Electrical shock due to high voltages in the device)

The housing must not be removed! There are no parts to be maintained in the device. Inside the unit there are components which are under high electrical voltage.

Before each use, check the device for damage or the absence of components, protective devices or housing parts. If this is the case, the device must not be used!

Leave maintenance and repair work to a qualified service workshop or contact your dealer. In the case of a malfunction of the device, operation must also be stopped immediately until the device has been repaired by a specialist!

DANGER! (Electric shock due to short circuit)

Modifications to the power cord or plug are prohibited. If the power cord is damaged, it must be replaced immediately with an original spare part from the manufacturer. Failure to do so may result in fire or death due to electric shock!

DANGER! (For babies and children)

Dispose of or store any packaging material properly! Packaging material must be kept out of the reach of babies and children due to the risk of suffocation.

Ensure that children never use the appliance unattended! In addition, make sure that children do not remove (small) parts from the device, as they could suffocate by swallowing parts!

WARNING! (High light intensity – eye injuries)

A direct view into the light source is absolutely to be omitted!

WARNING! (Epilepsy)

Stroboscopic effects (flashes of light) can trigger seizures of epilepsy in some people.

Accordingly sensitive people should be warned and should not be in the vicinity of such devices.

Hint! (Fire hazard due to overheating)

The maximum permissible ambient temperature of this device is 40°C.

Ensure that the unit is placed in a well-ventilated location away from direct heat sources, naked flames, combustible materials, and liquids. A minimum distance of 1 m is required. Do not tape or cover the ventilation slots of the unit.

Hint! (Operating conditions)

Due to its structural characteristics, the device is designed for indoor operation (IP20).

Never expose the device to rain, moisture or liquids as this may cause damage.

Vibrations, dust or sunlight can also cause damage, avoid them!

Hint! (Power supply)

It is essential that you check that the device voltage matches your local mains voltage. It is highly recommended that you fuse your mains socket with a residual current circuit breaker (FI).

If you do not use your device for a longer period of time or carry out maintenance work, disconnect the device

from the mains in order to minimize danger. The same applies to storm conditions such as thunderstorms, floods, etc.

Hint! (Error during data transmission)

Never connect the DMX input or output to audio devices such as power amplifiers or mixing consoles! DMX cables enable trouble-free operation and the highest possible transmission reliability of signal data. Do not use microphone cables!

Hint! (Condensation)

To avoid condensation in the unit, the unit should adapt to the ambient temperature before commissioning.

Hint! (Unwanted odours)

A new product can sometimes lead to unwanted odours. This reaction is normal and disappears after a few minutes.

Symbols on device and packaging:

The lightning flash symbol warns the user of uninsulated voltages and the risk of electric shock.

The exclamation mark symbol draws the user's attention to important maintains and operating instructions in the manual.

Only suitable for indoor use.

This symbol defines the minimum distance of the object to be illuminated.

Read the manual

Please read and follow the warnings and recommendations carefully to ensure safe and trouble-free use.

Installation:

Be sure to check the unit for damage before use. Use the original packaging or a suitable transport or storage packaging to protect the product from dust, moisture, etc. when not in use.

The unit can be installed either upright or suspended. The device must always be attached to a solid, approved carrier or a suitable surface. Note the load limit of the selected installation position (e.g. for tripods).

The opening of the bracket must be used to fasten the device. Always provide a second, independent safety backup for the device, e.g. with a safety cable.

Work on the device (e.g. assembly) should always be carried out from a stable and permissible platform. Make sure that the area below you is closed off.

WARNING! (Risk of injury due to falling down)

Improper installation can cause considerable injury and damage!

The installation of the device should always be carried out by experienced personnel and must be carried out in compliance with the mechanical and electrical safety regulations in your country.

Please note that it is not possible to use this device with a dimmer!

Congratulations on your new LightmaXX VEGA Ambient Strobe!

Thank you for choosing a LightmaXX product. Through efficient development and economical production, LightmaXX enables high quality products at a fantastic price.

Please read the instruction manual carefully to learn about all the features of this product and keep it for future use.

Have fun with your new product!

Your LightmaXX Team

Scope of delivery:

Content	Quantity
VEGA Ambient Strobe	1
Power Cord	1
Manual	1

Connections and controls:

Nº	Discription	Nº	Discription
1	Power Input	5	LCD-Display & Menu Buttons
2	Power Output	6	Safety Eye
3	DMX Input 3-Pol	7	Fuse
4	DMX Output 3-Pol		

Intended use:

The LightmaXX VEGA Ambient Strobe was designed for use as an electronic LED lighting effect. The device may only be used for this purpose and in accordance with the operating instructions. Other purposes as well as operation under other operating conditions are expressly not intended and can lead to damage to property or personal injury! No liability is assumed for damage resulting from improper use.

It must be ensured that the device is operated exclusively by trained and competent users who are in full possession of their mental, physical and sensory abilities. The use of other persons is expressly only permitted at the request of a person responsible for their safety, who instructs or supervises the use.

All connections of the device should be made before switching on. Only use high-quality cables that are as short as possible for the connections.

Set up:

Connect the device to the mains and wait a few seconds until it is ready for operation.

Menu:

Navigation in the menu is via the four menu buttons below the display. Use the "Mode" button to activate the menu, navigate via the "Up" and "Down" buttons. A corresponding selection is confirmed with the "Enter" key.

The menu structure in detail:

LCD Display (comparable)	Menu 1	Description
Addr	A(XXX)	Set DMX-Startaddress
(7ch)	7ch	7 Channel Mode
	13ch	13 Channel Mode
	22ch	22 Channel Mode
	148C	148 Channel Mode
SoUn	Su(XX) 0-16	program selection 0-16
	Se(XX) 00-99	sensitivity of the Microphone 00(off) — 99 (high sensitivity)
Auto	Au(XX) 0-16	program selection 0-16
	Sp(XX)1-9	Program Speed 1 (slow) — 9 (fast)
Led	On / Off	LCD-Display continuous on/ automatic Shutdown
dISP	dISP/ dSIP	Rotate the LCD-Display by 180°
ver	V10	Firmware Version

Static, Auto or Sound mode:

The device contains automatic programs that run according to fixed schemes recalled via the built-in microphone to match the music (Sound). The selection of the respective mode takes place via the menu directly on the device.

If you connect several devices of the same type via DMX, they can be controlled simultaneously via the master device. To do this, set the desired function “Master” on the first device of the line, the other devices of the series must now be set as “Slave”. Now the first device of the line gives the function to all other devices and all devices run simultaneously.

Operating mode DMX:

Connect the DMX input of your device to the DMX output of your DMX controller, your DMX software or the DMX output of a device already in your DMX line. Always use a DMX cable with a 110 Ohm resistor for this connection. Address the device according to your DMX configuration.

The following table shows the respective DMX modes of the individual devices with the corresponding values and functions:

For ideal operation in a DMX chain, it is recommended to use a terminating resistor at the end of each DMX chain. The terminating resistor is usually soldered with 120Ω between — Data and + Data to prevent signal reflections.

Configuration of the DMX connector:

7-Channel-Mode

Channel I	Channel	Channel	Discription
1	000 – 255	White (MID) Dimmer	Dimmer of the White LEDs from 0-100%
2	000 – 008	Open	Strobe Off
	009 – 255	White (MID) Strobe	Strobe of the White LEDs speed from slow to fast
3	000 – 255	RGB Dinner	Masterdimmer of the RGB LEDs from 0-100%
4	000 – 008	Open	Strobe Off
	009 – 255	RGB Strobe	Strobe of the RGB LEDs speed from slw to fast
5	000 – 255	Red Dimmer	Red Dimmer from 0-100%
6	000 – 255	Green Dimmer	Green Dimmer from 0-100%
7	000 – 255	Blue Dimmer	Blue Dimmer from 0-100%

13-Kanal-Modus

Channel	Value	Function	Discription
1	000 – 255	White (MID) Dimmer	Dimmer of the White LEDs from 0-100%
2	000 – 008	Open	Strobe Off
	009 – 255	White (MID) Strobe	Strobe of the White LEDs speed from slow to fast
3	000 – 255	White (MID) Strobe-Delay	changes the strobe response from short to long
4	000 – 255	RGB Dimmer	Masterdimmer of the RGB LEDs from 0-100%
5	000 – 008	Open	Strobe Off
	009 – 255	RGB Strobe	Strobe of the RGB LEDs speed from slow to fast
6	000 – 255	Red Dimmer	Red Dimmer from 0-100%
7	000 – 255	Green Dimmer	Green Dimmer from 0-100%
8	000 – 255	Blue Dimmer	Blue Dimmer from 0-100%
9	000 – 007	No Function	
	008 – 255	RGB Programs	Processes of the RGB segments
10	000 – 255	RGB Program speed	Speed of the RGB Programs
11	000 – 007	No Function	
	008 – 255	RGB Auto Color	Automatische Farwahl der RGB LED's
12	000 – 007	No Function	
	008 – 255	RGB Screen/Background	RGB mix of the inactive LED's (through, for example, RGB program)
13	000 – 127	Segment 0-48	Segment processes "Normal"
	128 – 255	Segment 48-0	Segment processes reversed

22-Channel-Mode

Channel	Value	Function	Discription
1	000 – 255	White (MID) Dimmer	Dimmer of the White LEDs from 0-100%

2	000 – 008	Open	Strobe off
	009 – 255	White (MID) Strobe	Strobe of the White LEDs speed from slow to fast
3	000 – 255	White (MID) Strobe-Delay	changes the strobe response from short to long
4	000 – 255	RGB Dimmer	Masterdimmer of the RGB LEDs from 0-100%
5	000 – 008	Open	Strobe Off
	009 – 255	RGB Strobe	Strobe of the RGB LEDs speed from slow to fast
6	000 – 255	Red 1 Dimmer	Red Dimmer from 0-100% Segment 1
7	000 – 255	Green 1 Dimmer	Green Dimmer from 0-100% Segment 1
8	000 – 255	Blue 1 Dimmer	Blue Dimmer from 0-100% Segment 1
9	000 – 255	Red 2 Dimmer	Red Dimmer from 0-100% Segment 2
10	000 – 255	Green 2 Dimmer	Green Dimmer from 0-100% Segment 2
11	000 – 255	Blue 2 Dimmer	Blue Dimmer from 0-100% Segment 2
12	000 – 255	Red 3 Dimmer	Red Dimmer from 0-100% Segment 3
13	000 – 255	Green 3 Dimmer	Green Dimmer from 0-100% Segment 3
14	000 – 255	Blue 3 Dimmer	Blue Dimmer from 0-100% Segment 3
15	000 – 255	Red 4 Dimmer	Red Dimmer from 0-100% Segment 4
16	000 – 255	Green 4 Dimmer	Green Dimmer from 0-100% Segment 4
17	000 – 255	Blue 4 Dimmer	Blue Dimmer from 0-100% Segment 4
18	000 – 007	No Function	
	008 – 255	RGB Programs	Processes of the RGB segments
19	000 – 255	RGB Program Speed	Speed of the RGB Programs
20	000 – 007	No Function	
	008 – 255	RGB Auto Color	Automatic Colorchange for the RGB LEDs

21	000 – 007	No Function	
	008 – 255	RGB Screen/Background	RGB mix of the inactive LEDs (through, for example , RGB Program)
22	000 – 127	Segment 0-48	Segment processes “normal”
	128 – 255	Segment 48-0	Segment processes reversed

148-Channel-Mode

Channe	Value	Function	Discription
1	000 – 255	White (MID) Dimmer	Dimmer of the White LEDs from 0-100%
2	000 – 008	Open	Strobe Off
	009 – 255	White (MID) Strobe	Strobe of the White LEDs speed from slow to fast
3	000 – 255	RGB Dimmer	Masterdimmer of the RGB LEDs from 0-100%
4	000 – 008	Open	Strobe Off
	009 – 255	RGB Strobe	Strobe of the RGB LEDs speed from slow to fast
5	000 – 255	Red 1 Dimmer	Red Dimmer from 0-100% Segment 1
7	000 – 255	Green 1 Dimmer	Green Dimmer from 0-100% Segment 1

Specifications:

Model	VEGA Ambient Strobe
Power Supply	AC 110-240V, 50/60HZ
Power Consumption	200 Watt
LEDs	246x5730 White LEDs 144x „5050 SMD“ RGB LEDs
Color Mixing	RGB + White Red – Green – Blue White
Dimmer	0 – 100%
Operating Modes	Auto, Sound Control, Master/Slave, DMX
DMX Channels	7, 13, 22 and 148
Safety Class	IP20
Connections	DMX In-/Output (3-pole) Power Outlet (Input/Output)
Dimensions (L x W x H)	450x190x80mm
Weight	3,5 kg

Troubleshooting:

The following overview serves as an aid for quick troubleshooting. If you are unsure, contact the manufacturer, the dealer or the corresponding specialist personnel. Never open the device on your own!

Symptom	Troubleshooting
No function	Check the mains connection and the fuse
	Check the menu setting on the device
No reaction in DMX m	Check the DMX cable connections
	Check your DMX address setting
	Check operation with and without termination.
	If available, try an alternative DMX controller

If the specified corrections have not led to success, please contact our service staff. The contact details can be found at www.musicstore.de

Cleaning:

Regular cleaning of the device from dirt and dust increases the shelf life of the product. Always disconnect the device from the power supply before cleaning it! Never clean the appliance wet!

Optical lenses should be cleaned with a dry microfiber cloth to optimize light output. Ventilation grilles and openings should always be cleaned of dust and dirt. Suitable compressed air sprays are recommended for this application.

Environmental protection:

The company MUSIC STORE professional GmbH always strives to reduce the burden of packaging to a minimum. The use of environmentally friendly and recyclable materials is of fundamental importance to us. Please dispose of and recycle the packaging components after use properly.

Disposal of packaging:

Ensure that paper packaging, plastic materials, etc. are separately recycled. Observe the corresponding disposal instructions on the packaging.

Disposal of batteries:

Batteries do not belong in the garbage! Please keep batteries in accordance with the official collection points or disposal stations in accordance with the specifications.

Disposal of your old device:

Do not dispose of the device with household waste! This device is subject to the WEEE Directive (Waste Electrical and Electronic Equipment) in its currently valid version.

The device will be disposed of by an approved waste disposal company or your local waste disposal office.

The regulations valid in your country must be observed Manufacturer:
