SETUP GUIDE

- **Unbox Carefully:** Remove the tree and remote control from the packaging with care.
- **Inspect Components:** Verify that there are no missing or damaged components.
- **Construct the Tree:** Securely join the two halves of the tree.
- **Tree Positioning:** Position the tree on a horizontal, stable surface in a sheltered outdoor area or indoors.
- **Shape Branches:** Bend and arrange the malleable branches to achieve the desired appearance.
- **Connect Power:** Connect the tree's power cord to an appropriate electrical receptacle.
- **Turn on the Tree:** Utilize the switch or remote to activate the lights.
- **Choose a Lighting Mode:** Choose from 17 colour-changing modes or select a fixed

color.

- **Brightness Control:** Utilise the remote control to regulate the brightness or deactivate the lighting.
- **Set Timer:** Set the timer function if it is available to ensure automatic on/off with your model.
- **Prevent Overcrowding:** Ensure that the tree has an adequate amount of space to allow for ventilation and visibility.
- **Keep Away from Water:** If used outdoors, avoid exposure to precipitation or rain.
- **Secure Power Cable:** Arrange the cable to prevent tripping hazards.
- **Remote Control Range Test:** Guarantee that the remote operates within the specified range.
- **Safely Store the Remote:** When the remote is not in use, it should be stored in a secure location.

CARE & MAINTENANCE

- **Unplug Before Cleaning:** Before cleansing the tree, ensure that the power is disconnected.
- **Dust Consistently:** Utilize a soft cloth or duster to eliminate dust from branches and lighting.
- **Prevent Moisture:** Ensure that the tree is kept dry and refrain from directly applying water or cleansers to it.
- **Gently Clean:** If required, use a dry or barely damp cloth to wipe.
- **Inspect Lights Periodically:** Verify that all LEDs are functioning correctly.
- **Replace Damaged Parts:** If necessary, contact the manufacturer to obtain replacement components.
- **Proper Storage:** Disassemble and store in the original packaging or a sturdy package.
- **Handle Branches Gently:** To prevent wiring damage, handle branches delicately and avoid sharp bends.
- **Inspect Power Cord:** Inspect the power cord for fraying or damage on a regular basis.
- **Prevent Overheating:** Do not leave the tree on for extended periods.
- **Remote Protection:** Ensure that the batteries in the remote control are in good

condition and replace them as necessary.

- **Avoid Flammable Materials:** Position the tree at a distance from paper or draperies.
- **Avoid Direct Rain Exposure:** Avoid exposure to direct rain or severe weather; use only indoors or in sheltered areas.
- **Handle with Caution:** Prevent lowering or rough handling during the setup or storage process.
- **Store Remote Safely:** Keep the remote in a dry, secure place when not in use.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Tree does not light up	Power cord not properly plugged in	Check outlet and connection; ensure adapter is securely attached
Remote not working	Battery dead or not aligned correctly	Replace or adjust battery in remote
Only one color showing	Incorrect mode selected	Use remote to cycle through RGB modes
Flickering lights	Loose connection or unstable power source	Reconnect plug and test in a stable outlet
Branches won't hold shape	Not fully adjusted after unboxing	Gently bend and shape branches as needed
Tree leans or wobbles	Base not placed on level surface	Ensure flat setup surface; add weight to base if needed
LED color looks dim	Bright ambient lighting	Test in a darker room for full effect
Lights turning off randomly	Adapter overheating or faulty wiring	Let it cool, then test again; replace adapter if necessary

Issue	Possible Cause	Solution
Color modes won't change	Remote sensor blocked	Point remote directly at receiver within range
Tree not storing compactly	Not disassembled at midpoint	Separate from center as per instructions before storing

PROS & CONS

PROS

- Vibrant 16-color RGB lighting with remote control
- Lightweight and easy to store with knock-down design
- Flexible branches for customizable shaping
- Ideal for year-round events and holidays
- Energy-efficient and safe for indoor/sheltered outdoor use

CONS

- Not suitable for fully exposed outdoor areas
- Remote may lose sensitivity over distance
- Limited brightness for large open spaces
- Base may require extra support on uneven surfaces
- No built-in timer or dimmer feature
