## It's Unboxing Time

It may not look like a pillow yet, but follow these simple steps and watch this tightly rolled package transform into a squishy pillow you can't wait to relax on.

1. Carefully cut outer plastic and excitedly unroll your pillow like a toddler left alone with a brand-new roll of toilet paper.
2. Even more carefully cut inner plastic and watch your pillow start to expand
3. Remove pillow from plastic covering entirely because we promised you soft and moldable, not lumpy and plastic
4. Fluff pillow vigorously on all sides. No need to be gentle
5. Fluff some more and then mold pillow into the shape it was born to be.

**Pro Tip:** Pillow will expand more quickly in a warm room. and may take up to 48 hours to fully decompress

### Thank You!

Here at Linenspa, we appreciate you. Our mission is to provide quality bedding everyone can afford, and knowing you're satisfied with your Linenspa pillow helps us sleep better at night.

We wouldn't be here without you and while we may not know exactly who you are- you'll forgive us for that right- we warmly welcome you to the Linenspa family.

# Linenspa®
