LED Headlight	

Instructions for Use and Care

1. Please choose the size which feels secure, comfortable and fits well on the head.
2. Please adjust the straps position to be firm and comfortable.
3. A helmet cannot always protect against injury but can decrease risk of it only.
4. Please discard the helmet if subjected to a severe impact.
5. Clean only with mild soap and water, solvents may damage the helmet. Take good care of it, don't strike the helmet.
6. Please don't modify or remove any of the original component parts of the helmet.
7. Normally, valid for 3 years without impact.

Attention

1. The helmet contains electronic parts inside. Please do not take a long ride in the rain although the helmet can prevent the rain from splashing.
2. After the helmet gets wet in the rain, the water droplets might occur in the chimney of LED Taillights. The water droplets will disappear when you put the helmet under the ventilation environment for 1-2 days.
3. The helmet contains the battery. The battery capacity varies with temperature change. The battery life can decay when the helmet is used at low temperatures or below Zero degrees Celsius.
4. For the battery lifetime, please charge the helmet completely every time.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant

to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

FAQ

Q: How do I adjust the helmet size?

A: The Smart Helmet comes with adjustable straps inside for a comfortable fit. Follow the instructions provided to adjust the size accordingly.

Q: Can I wash the helmet padding?

A: It is recommended to refer to the user manual for specific cleaning instructions. In general, removable padding can be hand-washed with mild detergent and left to air dry.
