logitech B07KNMH64K Conferencing Room System

Specifications

- Product Name: Immersive Learning Solutions
- Main Features: Customized solutions for immersive learning environments, state-of-the-art accessories, AI video intelligence, advanced sound pickup
- Compatibility: Works with leading video conferencing platforms
- Website: www.logitech.com/education
- Publication Date: October 2024

Product Usage Instructions

CAMERAS FOR EASY COLLABORATION – RALLY BAR:

Utilize the Rally Bar solution for easy collaboration by deploying it in your room. Ensure proper installation and integration with your preferred video conferencing platform to enable seamless collaboration regardless of room size.

ACCESSORIES THAT PUT PRESENTERS IN CONTROL:

SCRIBE

Share whiteboard content with clarity using Scribe in hybrid setups. The built-in AI and custom lens provide a transparency effect for virtual participants to view through the presenter without obstructions.

REACH SPOTLIGHT

Engage your audience with Spotlight's illumination of key points. Choose from three pointing modes to control the presentation flow, ensuring engagement whether in-person, virtual, or hybrid settings.

K400 KEYBOARD

Enhance control over your TV-connected PC with the wireless K400 keyboard featuring an integrated touchpad. Navigate lectures, videos, and course content effortlessly with the touchpad and customized controls.

FAQ

• Q: Can the Rally Bar be used in rooms of any size?

A: Yes, the Rally Bar solutions are flexible and can be deployed in rooms of varying sizes for easy collaboration.

• Q: How does the Scribe accessory enhance whiteboard sharing?

A: Scribe uses built-in AI and a custom lens to provide a transparency effect, allowing virtual participants to view through the presenter for a clear perspective.

• Q: What are the advanced pointing modes available with the Spotlight accessory?

A: Spotlight offers three advanced pointing modes to help faculty control the presentation flow and keep audiences engaged.

• Q: Is the K400 Keyboard compatible with all TV-connected PCs?

A: The K400 Keyboard is designed as a plug-and-play wireless keyboard and touchpad combo for total control over TV-connected PCs.

Transform rooms for greater impact

Customized solutions that convert rooms into immersive learning environments

Augment rooms with state-of-the-art accessories to create immersive ecosystems designed to improve instructional effectiveness, optimize device management, and provide a seamless learning experience for all.

CAMERAS FOR EASY COLLABORATION

RALLY BAR

With AI video intelligence and advanced sound pickup, our class of Rally Bar solutions brings key concepts front and center. Flexible deployments, easy installations and integration with leading video conferencing platforms, the Rally family enables easy collaboration no matter the room size or setup.

Flexible deployments, easy installations and integration with leading video conferencing platforms, the Rally family enables easy collaboration no matter the room size or setup.

ACCESSORIES THAT PUT PRESENTERS IN CONTROL

SCRIBE

Effortlessly share whiteboard content into hybrid setups with outstanding clarity. With built-in AI and a custom lens, Scribe delivers a transparency effect, allowing virtual participants to see “through” the presenter for an unobstructed view.

REACH

An adjustable content camera that lets presenters move the camera to non-digital content to give every participant a front row seat. Easy, one-hand flexibility allows presenters to move in a full 360° rotation to express their point of view.

SPOTLIGHT

Specifically designed to keep audiences engaged, Spotlight illuminates every point to help students and attendees follow what you're saying, whether in-person, virtual or hybrid. With three advanced pointing modes and compatibility with popular presentation platforms, Spotlight puts faculty in full control.

K400 KEYBOARD

K400 is a wireless plug-and-play keyboard with an integrated touchpad for total control of your TV-connected PC. With a built-in touchpad and customized controls, K400 makes navigation between lectures, videos and course content an ease.
