G502 X PLUS, LIGHTSPEED Wireless Gaming Mouse

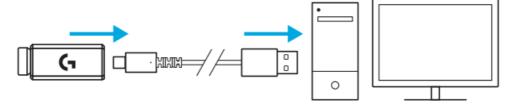

1. Orientate the DPI Shift to fit your preference or replace it by the button, cover to extend the grip surface.

2. The receiver can be stored in the mouse behind the door when on the go.

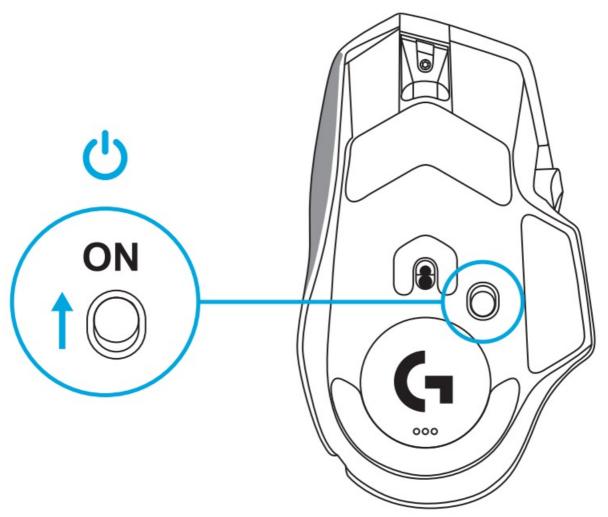

3. The LIGHTSPEED Wireless USB-A receiver is below the mouse in the product tray.

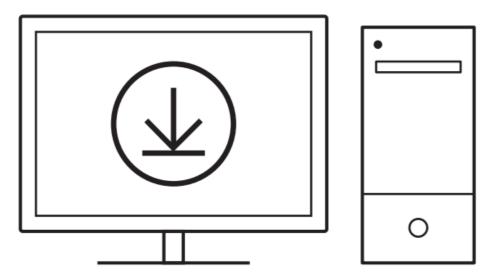

Plug the USB-A cable connector into your PC and the USB-C connector into the receiver extension adapter Plug the USB-A receiver into the adapter

- The LIGHTSPEED Wireless receiver can also be plugged directly into your PC, but using the cable and extension adapter will ensure a better connection and easy access
- to the cable when you need to charge your mouse
- 4. Slide the power button up to turn on your mouse.

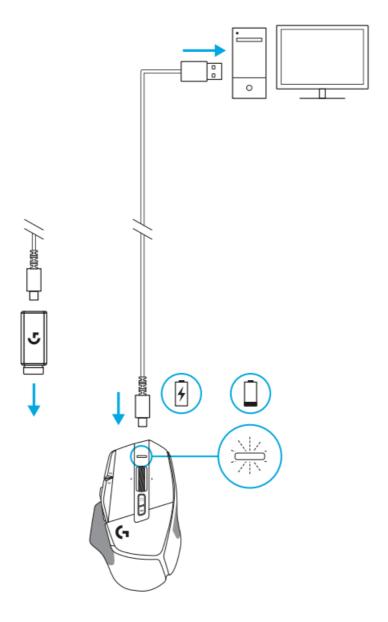

5. Download Logitech G HUB gaming software to personalize your G502 X mouse Fine tune to suit your playstyle, personality, and each of your games, assign commands to any of the 13 controls, and more.

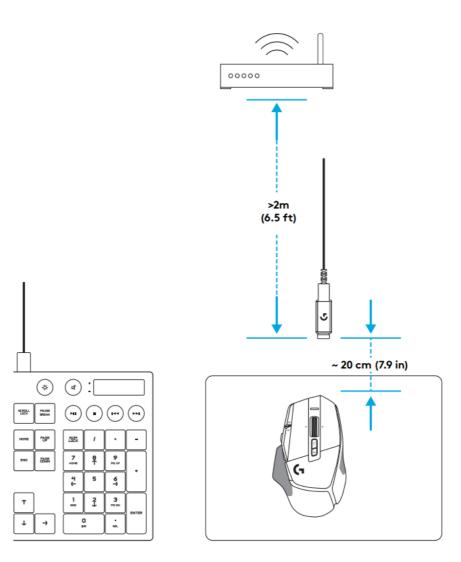

logitechG.com/ghub

6. To charge your mouse, disconnect the cable from the adapter and plug it into the USB-C port located at the front of the mouse Your mouse will operate in data-over-cable ode whenever it is plugged in directly to a PC Charging from 0% to 100% takes around 2 hours when plugged into a USB port Compatible with Powerplay wireless charging system

Tips:

- Keep the mouse and receiver at least 2 meters away from wireless routers or other 2 4 GHz wireless devices to minimize environmental noise
- G502 X PLUS and G502 X LIGHTSPEED have a wireless range of up to 10 meters To ensure optimal performance in noisy wireless environments, and to keep the charging cable easily accessible, it is recommended to keep the receiver within 20 cm of the mouse
