Logitech 910-005749 Spotlight Presentation Remote

Launch Date: 2017

Price: \$89.94

Introduction

The Logitech 910-005749 Spotlight Presentation Remote is a high-tech tool that will help you give better presentations. This remote is perfect for workers who want to make a good impression because it combines cutting-edge technology with easy-to-use features. Its advanced pointer technology is better than standard laser pointers because it lets users highlight and enlarge important parts of the screen. The Spotlight remote works with a wide range of devices and presentation setups because it has both USB and Bluetooth connectivity choices. The built-in cursor control makes the program more dynamic and makes it easy for users to control what's on the screen. It also has a smart time management function that uses vibrations to keep presentations on track. The remote is designed to be used for a long time and is rechargeable and light. This makes it a reliable tool for any presentation.

Specifications

- **Brand:** Logitech

- **Model:** 910-005749
- **Type:** Wireless Presentation Remote
- **Connectivity:** USB Receiver, Bluetooth
- **Range:** Up to 30 meters (100 feet)
- **Battery Life:** Up to 3 months on a single charge
- **Dimensions:** 124 x 27 x 27 mm
- **Weight:** 49 grams
- **Compatibility:** Windows, macOS, iOS, Android

Package Includes

- Logitech Spotlight Presentation Remote
- USB Receiver
- Charging Cable (Micro-USB)
- Carrying Pouch
- User Documentation

Getting Started – Spotlight Presentation Remote

- **Logitech Presentation**

Software with all features that require admin privileges to install

- **Logitech Presentation Lite**

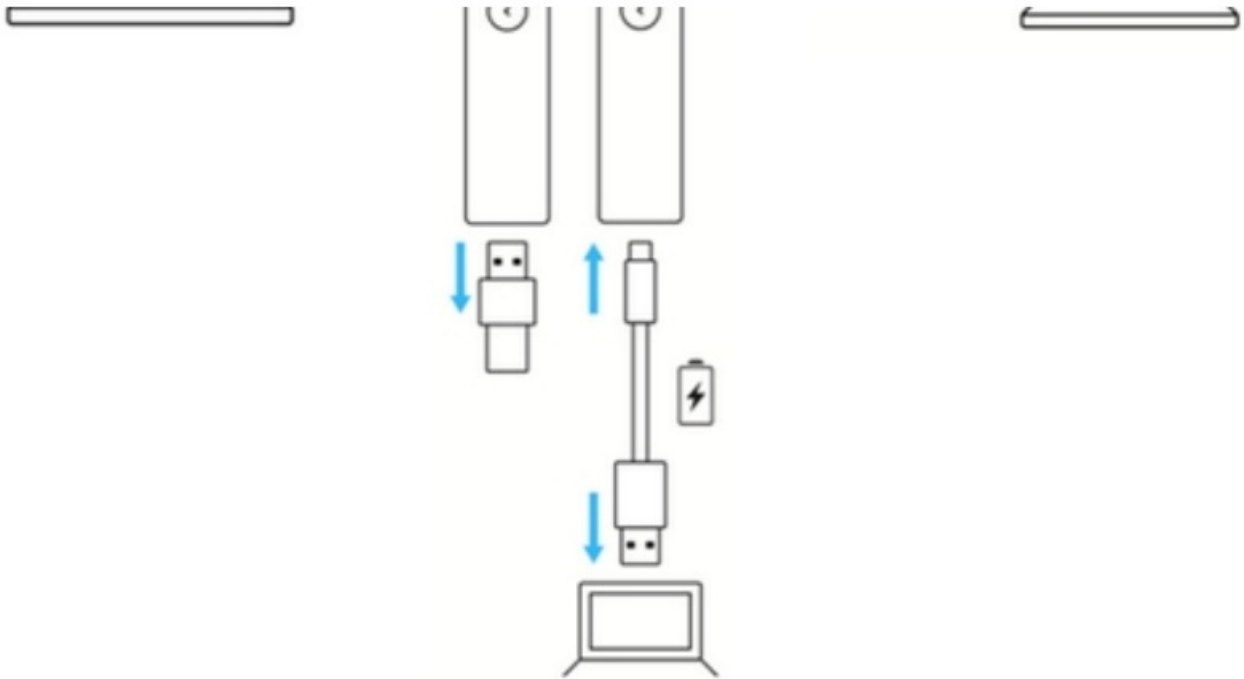

Software with limited features that do not require admin privileges to install

- **Logitech Presentation**

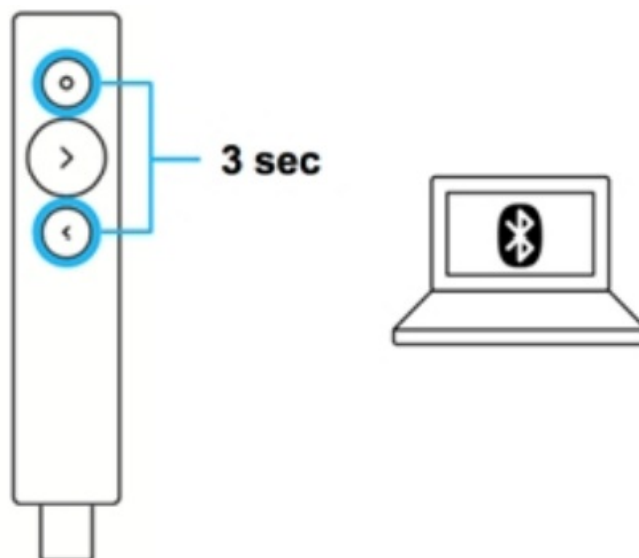

- Download and install the Logitech Presentation Software.
- Remove the USB receiver and plug in the charging cable to charge your Spotlight for 1 minute.

- Plug the USB receiver into your computer, or connect via Bluetooth.

- **CONNECT WITH THE USB RECEIVER**

- **CONNECT USING BLUETOOTH**

Press and hold the top and bottom buttons at the same time for 3 seconds.

The remote should vibrate and then be available for Bluetooth pairing for three minutes.

Complete the Bluetooth pairing on your computer

Product Overview

1. LED INDICATOR

Instant feedback on battery and connectivity status

2. POINTER EFFECTS

- Press and hold the button while moving your hand to highlight on your screen and control the on-screen cursor
- Simple press to click on links and videos
- Double press to toggle between pointer modes
- Press and hold to use custom functions like 'Start presentation'

3. BACK

Simple press to navigate backward

Press and hold to use custom functions like 'Blank Screen'

4. HAPTIC FEEDBACK

Receive silent vibration alerts when using the timers and when the battery is low.

5. RECHARGEABLE USB-C

Up to 3 months of battery life on a single charge via the USB Type-C charging cable.

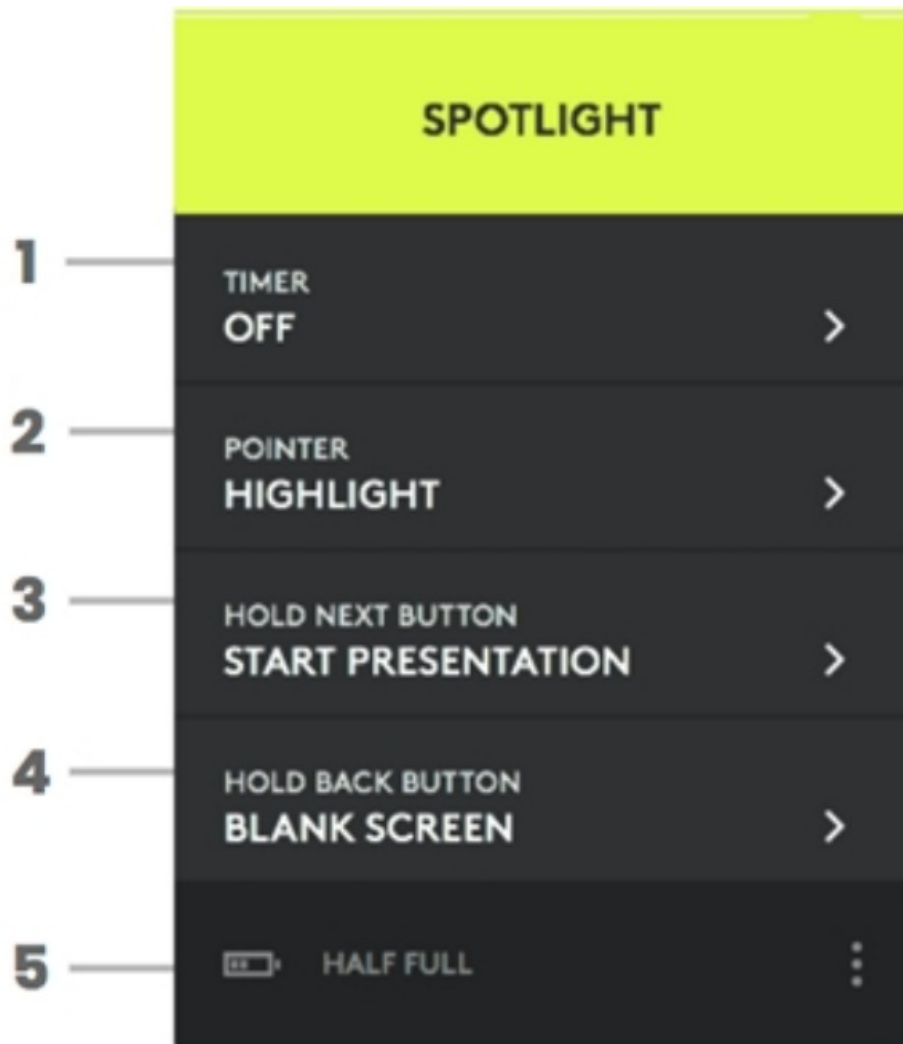

LOGITECH PRESENTATION SOFTWARE OVERVIEW

The Logitech Presentation Software allows you to use the Spotlight pointer effects, to set timers and vibration alerts, to start and go back to your presentation, to customize button functions, and monitor battery life.

When the software is not installed you will only have the following plug-and-play functionality:

- Next/Back to navigate your slides
- Mouse cursor control to click on links and videos

The software works on Windows and Mac and can be downloaded [here](#).

1. **TIMER**

Track presentation time and set vibration alerts.

NOTE: To make sure your audience does not see the timer window, it will only be visible on your laptop presenter screen when connected to an external screen or projector with an extended display (not visible when mirroring or duplicating screens). The window appears when you start your presentation.

2. **POINTER**

Activate the Spotlight on-screen pointer effects and customize their size, contrast, and color.

TIP: Double press the highlight button on your Spotlight to toggle between pointer effects.

3. **HOLD NEXT BUTTON**

Press and hold the next button to start your presentation.

4. HOLD BACK BUTTON

You can customize the long-press on this button. For instance, you can use this to show a blank screen when you want your audience.

You will receive an on-screen notification to let you know when the battery is running low.

LEARN MORE

Learn more about how to get the best out of the Logitech software here. You will discover how to set specific vibration alerts and use the advanced functions like volume gesture control, scrolling, and more.

Logitech Presentation Lite

We heard your feedback!

Gone are those days when you have to install the Logitech Presentation software with admin rights. This Lite software can be exported to your favorite external flash or storage devices.

Download/Install

Logitech Presentation Lite can be downloaded directly from the website or you can export it from your existing Logitech Presentation software.

To export an existing installation:

1. Open the app.
2. Click Present anywhere.
3. Follow the on-screen instructions.

NOTE: When you choose the export option, the settings and customizations you have already made will also be migrated into the external storage device.

To download and install from the website:

1. Download the lite version software.
2. Make sure you have a flash drive plugged in with a minimum of 50 MB of storage.
3. Install the software and select the flash drive if there is more than one plugged in.

Features

Advanced Pointer Technology:

- **Highlight and Magnify:** Move beyond traditional laser pointers with the Spotlight remote's advanced pointer system. You can precisely highlight or magnify specific areas of your presentation, making it easier for your audience to focus on key details. This feature is visible both in-person and during video conferences. Customize your pointer mode using the Logitech Presentation app, which allows you to adjust settings for optimal visibility.

The details

Mouse-Like Cursor Control:

- **Interactive Content:** The Spotlight remote features a mouse-like cursor control that enables you to interact with your presentation more dynamically. You can play and pause videos, open links, and manage rich content seamlessly. This interaction extends your control beyond simple slide navigation, allowing for a more engaging presentation experience.

Smart Time Management:

- **Time Alerts:** Manage your presentation timing with the remote's vibration alerts. The Spotlight remote vibrates five minutes before your presentation ends and again when the time is fully up. You can track your presenting time and customize these vibration alerts using the Logitech Presentation app, helping you stay on schedule and avoid overruns.

Dual Connectivity:

- **Versatile Connection Options:** The remote supports both USB receiver and Bluetooth low energy connections, providing flexibility depending on your setup. You can easily switch between the two connectivity options by plugging or unplugging the USB receiver. The built-in dock conveniently stores the USB receiver when not in use, ensuring it's always within reach.

Universal Compatibility:

- **Cross-Platform Support:** The Logitech Spotlight is optimized for use with Windows, macOS, and all leading presentation software. This includes PowerPoint, Keynote, PDF, Google Slides, and Prezi, making it a versatile tool for various presentation environments.

Wireless Cursor Control:

- **Subtle Gestures:** With the wireless cursor control feature, you can perform actions like playing videos, opening links, and adjusting volume using subtle gestures. This level of control adds to the remote's functionality, enabling a smooth and interactive presentation experience.

Customizable Controls:

- **Logi Options+ App:** Use the Logi Options+ app to tailor the remote to your preferences. You can choose from a range of controls, set timer alerts, and customize the pointer's behavior to fit your presentation style and needs.

Usage

Logitech Presentation Lite and Logitech Presentation comparison

- **Feature: Lite Version: Desktop Version**
- Timer: No: Yes
- Next Customization: Yes*: Yes
- Prev Customization: Yes*: Yes

Care and Maintenance

- **Cleaning:** Wipe the remote with a soft, dry cloth. Avoid using harsh chemicals or immersing the device in water.

- **Battery Care:** Charge the remote regularly and avoid overcharging. Store it in a cool, dry place when not in use.
- **Storage:** Keep the remote in its carrying pouch to protect it from dust and damage.

Troubleshooting

Issue	Solution
Remote Not Responding	Ensure the USB receiver is properly connected or Bluetooth is enabled. Check battery charge and replace if necessary.
Pointer Not Visible	Verify that the pointer mode is enabled in the Logitech Presentation app. Ensure the remote is in range of the receiver.
Connectivity Problems	Re-pair the remote with the USB receiver or Bluetooth. Make sure no other devices are interfering with the signal.
Vibration Alerts Not Working	Check the settings in the Logitech Presentation app to ensure vibration alerts are enabled and configured.
Battery Issues	Charge the remote using the provided cable. If issues persist, replace the battery or contact customer support.
Custom Buttons Not Responding	Reconfigure button settings through the Logitech Presentation app. Ensure the app is updated to the latest version.
Cursor Control Issues	Restart the remote and the computer. Check for software updates and ensure that cursor control is activated in the app.
App Not Detecting Remote	Reinstall the Logitech Presentation app. Ensure your device's Bluetooth is enabled and functioning properly.

Pros and Cons

Pros

- Advanced pointer features enhance presentation engagement.
- The long wireless range allows for freedom of movement.
- Rechargeable battery with extended life.

Cons

- Higher price point compared to basic remotes.
- Requires software for full customization.
