**Logitech 989-000405 Expansion Mic for Meetup**

## Introduction

Logitech Expansion Mic for MeetUp provides greater flexibility in huddle room configurations. MeetUp's built-in beamforming mics are optimized for up to 2.4 meters (8 feet). Adding an Expansion Mic extends that range up to 4.2 meters (14 feet), ensuring that people further from the camera are heard.

## What's in the box?

- Expansion microphone
- User documentation
- 2-year manufacturer's guarantee

## FEATURES

- **Flexibility:** Expansion By extending the microphone pickup range of MeetUp, Mic, you can be heard clearly up to 4.2 meters (14 feet) away.
- **Hearing Clarity to 5 Metres:** Huddle rooms come in varied sizes, therefore we developed Expansion Mic to

offer more versatility in various room setups.

- **Easy Call Mute:** Those at the opposite end of the table can silence the entire loudspeaker system by pressing a microphone mute button.
- **Signal Light:** A call is active, the microphone is muted, and Bluetooth wireless pairing has started, according to the indicator light.

**Note:** Products with electrical plugs are made with American consumers in mind. Because outlets and voltage vary from country to country, this device might need an adapter or converter to be used where you are traveling. Before buying, kindly verify compatibility.

**UP TO 5 METRES OF EAR CLARITY:** Because huddle rooms come in varied sizes, we developed Expansion Mic to offer more versatility in various room arrangements. The microphone pickup range of Meetup is increased by Expansion Mic to 5 meters.

**CALL MUTING IS SIMPLE:** Those at the far end of the table can silence the entire loudspeaker system by pressing a microphone mute button. The indicator light indicates when a call is on, when the microphone is muted, and when Bluetooth® wireless pairing has started.

### Primary pack Master shipper carton
