Logitech K380 Multi-Device Bluetooth Keyboard

Description

Ideal for those with narrower shoulder width, this compact keyboard offers greater comfort by keeping the mouse in reach. Letting the user type on any device, on any OS, and fitting in a bag, it's also the ultimate keyboard for working on the go.

IDEAL FOR

- People who have narrower shoulder width.
- Space minimalists who want a comfortable, stylish laptop for everyday multitasking, anywhere.
- People who want the ability to work seamlessly on multiple devices through any operating system.

PRODUCT BENEFITS

- The compact keyboard keeps the mouse within reach for greater comfort
- Ultra-thin for easy mobility and use in small spaces
- Automatically maps keys and remembers shortcuts¹
- Customizable F-keys¹
- Comfortable typing with scooped scissor keys
- Switch between up to 3 paired computers using the Easy-Switch™ button
- Integrated arrow keys
- On/Off switch

FAQ's

What is the Logitech K380 Multi-Device Bluetooth Keyboard?

The Logitech K380 is a compact and versatile Bluetooth keyboard that allows you to connect and switch between multiple devices seamlessly. It is designed for use with computers, smartphones, tablets, and other Bluetooth-enabled devices.

How many devices can I connect to the Logitech K380 keyboard?

The Logitech K380 keyboard can connect to and switch between up to three devices simultaneously. You can pair it with different devices, such as your computer, smartphone, and tablet, and switch between them with the press of a button.

Does the Logitech K380 keyboard work with both Mac and Windows computers?

Yes, the Logitech K380 keyboard is compatible with both Mac and Windows computers. It supports various operating systems, including macOS, Windows, iOS, Android, and Chrome OS.

What type of connectivity does the Logitech K380 keyboard use?

The Logitech K380 keyboard uses Bluetooth connectivity to connect to devices. It can establish a wireless connection with devices that support Bluetooth technology.

Does the Logitech K380 keyboard require any drivers or software to work?

No, the Logitech K380 keyboard does not require any additional drivers or software for basic functionality. It uses standard Bluetooth protocols and should work out of the box with compatible devices.

What is the battery life of the Logitech K380 keyboard?

The Logitech K380 keyboard has a long battery life. With typical usage, the batteries can last up to two years. The actual battery life may vary depending on usage patterns and battery type.

Can I replace the batteries in the Logitech K380 keyboard?

Yes, the Logitech K380 keyboard is powered by replaceable AAA batteries. When the batteries run out, you can easily replace them to continue using the keyboard.

Does the Logitech K380 keyboard have backlighting?

No, the Logitech K380 keyboard does not have backlighting. The keys are not illuminated, so it may be

less suitable for use in low-light conditions.

Is the Logitech K380 keyboard spill-resistant?

While the Logitech K380 keyboard is not specifically advertised as spill-resistant, it does have a spill-resistant design. It has a durable construction that can withstand minor spills or splashes, but it is not fully waterproof.

Are the keys on the Logitech K380 keyboard full-sized?

The Logitech K380 keyboard features compact keys that are slightly smaller than standard full-sized keys. However, they are still comfortable to type on and provide a good typing experience.

Can I use the Logitech K380 keyboard with my smartphone or tablet?

Yes, the Logitech K380 keyboard is compatible with smartphones and tablets. It supports iOS, Android, and other mobile operating systems, allowing you to type on your mobile devices more efficiently.

Does the Logitech K380 keyboard have a number pad?

No, the Logitech K380 keyboard does not have a dedicated number pad. It has a compact layout without the additional numeric keypad on the right side.

Is it possible to customize the function keys on the Logitech K380 keyboard?

Yes, you can customize the function keys on the Logitech K380 keyboard using Logitech Options software. This allows you to assign different functions or shortcuts to the function keys based on your preferences.

Can I use the Logitech K380 keyboard with a smart TV or gaming console?

The Logitech K380 keyboard may work with some smart TVs or gaming consoles that support Bluetooth keyboards. However, compatibility may vary depending on the specific device and its Bluetooth capabilities.

Is the Logitech K380 keyboard compact and portable?

Yes, the Logitech K380 keyboard is designed to be compact and portable. It has a slim profile and lightweight design, making it easy to carry around and use on the go.
