Product Description

It might be difficult to find a good wireless mouse that is also affordable. Logitech provides a superb device for individuals searching for a wireless mouse that delivers a plug-and-play, long-range connection. The Logitech M171 wireless mouse has a strong 2.4 GHz connection and can establish a connection up to 33 feet away from the gadget. Although the wireless range has been tested for use up to 33 feet or 10 meters away, it may vary somewhat depending on your computer environment and surroundings. This solid connection ensures speedy, effective, and dependable wireless mouse use with almost no dropouts or delays in communication.

The M171 is incredibly adaptable and simple to operate. It is a plug-and-play mouse, so all you have to do to start using it is plug the mouse's receiver into a USB port on any computer. The M171 is the ideal mouse for either the right or left hand due to its ambidextrous design and flexibility in reassigning right and left button functions. This hassle-free, simple wireless mouse works with Windows, Mac, and Chrome and lasts 12 months on a single AA battery.

Based on your usage, battery life may change. When not in use, turn the power off to prolong the battery life. Depending on your computer settings and mouse usage, your battery life may vary somewhat. There are four color options for the Logitech M171 wireless mouse: black graphite, blue, red, and grey.

FAQs

Is Logitech M171 silent?

With the Logitech M171 Wireless Mouse, you get the reliability of a wired device, but with the freedom and convenience of a 10-meter wireless connection using Logitech's advanced 2.4 GHz wireless technology.

Do I need to turn off my Logitech wireless mouse?

When you shut down your computer (and even when you put it in sleep mode), your mouse continues to run and drain its batteries. The cost of batteries may be negligible for your office equipment budget, but the batteries in the mouse will last longer if you turn it off every time you're not using it.

Is the Logitech Wireless Mouse M171 compatible with all operating systems?

The Logitech Wireless Mouse M171 is compatible with Windows, Mac, Chrome OS, and Linux operating systems.

How do I connect the Logitech Wireless Mouse M171 to my computer?

The Logitech Wireless Mouse M171 can be connected to your computer by inserting the included USB receiver into an available USB port on your computer.

How do I know when the battery is low?

The Logitech Wireless Mouse M171 has a battery indicator light that will blink red when the battery is low.

What type of battery does the Logitech Wireless Mouse M171 use?

The Logitech Wireless Mouse M171 uses a single AA battery, which is included with the device.

How long does the battery last?

The battery life of the Logitech Wireless Mouse M171 can last up to 1 year, depending on usage.

Can the Logitech Wireless Mouse M171 be used for gaming?

The Logitech Wireless Mouse M171 is not specifically designed for gaming but can be used for casual gaming and everyday use.

Is the Logitech Wireless Mouse M171 ambidextrous?

Yes, the Logitech Wireless Mouse M171 is ambidextrous and can be used by both left- and right-handed individuals.

How many buttons does the Logitech Wireless Mouse M171 have?

The Logitech Wireless Mouse M171 has 3 buttons – left-click, right-click, and a scroll wheel.

What is the wireless range of the Logitech Wireless Mouse M171?

The Logitech Wireless Mouse M171 has a wireless range of up to 33 feet (10 meters).

Is there software available for the Logitech Wireless Mouse M171?

No, there is no specific software available for the Logitech Wireless Mouse M171. However, it is compatible with Logitech Options software, which allows for the customization of mouse buttons and settings.
