Logitech Z625 Speaker System with Subwoofer

KNOW YOUR PRODUCT

CONNECT THE SPEAKERS

1. Plug the VGA connector on the right speaker to the VGA subwoofer port. Then plug the RCA connector on the left speaker into the corresponding jack on the back of the subwoofer.

2. Plug the power plug into an electrical outlet.

3. Press the power button on the right satellite to turn on the Z625 speaker system.

CONNECT TO AUDIO SOURCE

1. **Using a 3.5 mm cable:** Connect one end of the provided 3.5 mm cable to the auxiliary input jack on the back of the subwoofer and the other end to the 3.5 mm jack on your device.
 1. Connect one end of the provided 3.5 mm cable to the auxiliary input jack on the right satellite and the other end to the 3.5 mm jack on your device.
2. **Using an optical cable:** Connect one end of the provided optical cable to the optical input on the back of the subwoofer and the other end to your gaming console.
3. **Using an RCA cable:** Connect one end of the RCA cable to the corresponding RCA jack on the back of the subwoofer and the other end to the RCA outlet of your device.

NOTE: The RCA cable is not included in the box and must be purchased separately.
4. Plug your headphones into the headphone jack on the right speaker. To adjust the volume of your headphones, use the volume control knob on the front of the right speaker.
