3. Volume Up
4. Print screen
5. Pause break
6. Context menu
7. Scroll lock

Mouse features

1. Left button
2. Scroll wheel
3. Right button

Help with setup:

keyboard and mouse are not working

- Check the orientation of the batteries inside the keyboard and mouse, or replace the batteries.
- Is the USB receiver securely plugged into a computer USB port? Try moving the USB receiver to a USB port closer to the keyboard and mouse.
- If the USB receiver is plugged into a USB hub, try plugging it directly into your computer.
- Remove any metal object between the receiver and the keyboard/mouse that may interfere with reception. Try using the mouse on a different surface.
- Restart the computer.
- If these suggestions don't work, download the Reconnection Utility from http://www.logitech.com/connect_utility

What do you think?
