You are prompted to install Logitech software that enhances your Touch Mouse experience with additional gestures, smoother performance, and personalized settings.
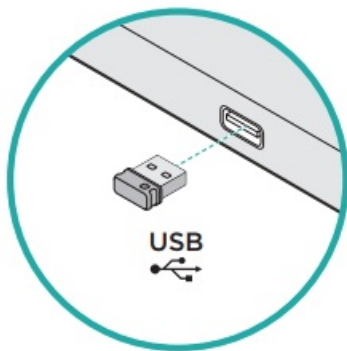

Power switch in
the On position

Follow the onscreen instructions to complete installation.

No prompt?

Download the software from: **www.logitech.com/download/t400**

Visit the Product Page

While you're online, check out the Zone Touch Mouse T400 Product Page, your destination for world-class support. **www.logitech.com/support/t400** In addition to software, you'll find tutorials, troubleshooting tips, and guidelines for using your new Touch Mouse. The Product Page is also home to live forums that connect you to a global community of knowledgeable users.

Using the mouse

One finger scrolling

Swipe up, down, or sideways on the touch strip.

Clicking
The Touch Mouse provides full 3-button operation. Click the left, right, or middle area of the mouse surface.

Click the top 2/3 of the touch strip
to go to the Windows Start screen.

Replace batteries

Remove the battery cover and insert new batteries into the compartment.

Receiver storage

Unifying

Logitech® Unifying technology connects up to six compatible Logitech mice and keyboards to the same receiver, using only one USB port for multiple devices. To learn more, visit: **www.logitech.com/support/unifying**

Troubleshooting

Touch Mouse not working?

- Restart the mouse by turning it off and then back on.
- Check if your Unifying receiver is properly connected to a USB Port.
- Move the Unifying receiver to another USB port on your computer. (Try connecting directly to your computer instead of using a USB hub.)
- Remove any metallic objects near the mouse.
- If the status light blinks red, replace the battery.

Frequently Asked Questions

Q: How do I know when to replace the batteries?
A: Check the battery status light on the mouse; a red light indicates low battery and it's time for a replacement.

Q: Where can I download the Logitech software for this mouse?
A: You can download the software from **www.logitech.com/download/t400** or follow the on-screen prompts during setup.
