**Logitech V200 Cordless Notebook Mouse**

Turn ON computer

Plug receiver into computer's

install the batteries.

To enjoy all the features of your product, install the software.

For Macintosh® users, download software at [www.logitech.com/V200mac](http://www.logitech.com/V200mac).

#### Note

1. Attach the receiver to the mouse for convenient storage when traveling. The mouse turns off. Remove receiver to turn the mouse on.
2. Reset button.
3. Power LED. When the receiver is detached from the base, the mouse is turned on and the LED turns green.

## Note

1. Tilt wheel plus zoom. Enables scrolling up, down, left, and right. Click the wheel to zoom in and out. For left or right scrolling and zoom, use the software to activate.
2. Battery LED. Turns green briefly when mouse is turned on. Flashes red when mouse batteries are low.

Mouse Not Working. 1) Receiver must be plugged into USB port; computer must be on. Try receiver in different USB port. 2) Check battery installation. Replace batteries if Battery LED flashes red. 3) Press the Reset button on the bottom of the mouse. 4) If none of the above has worked, use the Logitech Device Reconnection Utility. Windows: Access the utility via Start/Programs/Logitech/Mouse and Keyboard/ Reconnection Utility. (If you don't have a touchpad, press the Start Menu key to open the Start menu, and use the Left/Right, Up/Down arrow keys to navigate.) Macintosh: Download the utility at [www.logitech.com/V200mac](http://www.logitech.com/V200mac). Follow the on-screen instructions, and click OK after the mouse is active Important Ergonomic Information. Read Comfort Guidelines in the Important Information document and at <http://www.logitech.com/comfort>. 2005 Logitech. All rights reserved.
